

PART 13

Cheat sheet: Schroders Client Group Sales Intern 2027

The protocol (45 to 75 s)

- **Steady:** "So the situation is..."
- **Sort:** "Two things matter: the rule and the client."
- **Act:** "First I'd..., then..., and I'd tell [owner] by [time]."
- **Close:** "That way it's fast and right." Stop.

Priority order

1 Rules and Schroders' name. 2 The client's real interest. 3 Fair service, process and the record. 4 Speed.

Frame: "I won't trade the rules or the client's interest for speed. Inside those, I'll be fast and helpful, and I'll tell people early."

Never

- Send unapproved or changed client material (COBS 4.2.1R).
- Guess performance, forecast returns, promise recovery.
- Repeat, forward or trade on possible inside information (UK MAR). Tell Compliance.
- Take client data outside approved systems (UK GDPR).
- Call Schroders "FTSE 100", "listed" or "family-controlled" in the present tense.
- Use AI to write your answers (Schroders prohibits it).

Eight frame-breakers, eight counters

- **Interrupt:** answer the new point, then finish yours.
- **"That's wrong":** "Tell me more." Update or hold with a reason.
- **Silence:** wait 3 s; offer to go deeper.
- **Escalation:** same order, escalate sooner.
- **"The MD says":** rank doesn't change the rule; chase approval.
- **False choice:** find the third door.
- **Knowledge trap:** "I don't know; here's how I'd find out."
- **Badmouth invite:** generous and specific.

Video answer shape (about 2 min, one take)

Energy (what you enjoy) → **Evidence** (one real example, a number) → **Learning** → **Link** (Client Group Sales). If time is short, say the link early.

Why Schroders (30 s)

Structure: one Client Group owns sales, product, marketing; refocused in 2025 on "fewer core propositions". **Economics:** margins from 6bp (core solutions) to 57bp (private markets), so what you sell matters. **Moment:** Nuveen from 1 Oct 2026, ~\$2.5trn, London the non-US HQ, brand kept. **Close:** the Mercer LTAF: how a proposition becomes a mandate.

One question to ask

"Since Client Group moved to fewer core propositions, how do regional sales feed what they hear from clients back into Value Proposition?"
