How to use this guide

Who it is for, what to read first, and the ten-minute emergency version.

This guide takes you from zero to fluent on Lazard Asset Management, its industry and the 2027 London Sales & Marketing internship. Every non-obvious fact has a source tag like [S100] that resolves in Part 16. Confidence tags: Confirmed primary source or two credible outlets; Reported one credible source; Inferred the author's reasoning.

SOURCE UNCERTAIN

Your stage, degree and background were not supplied, so the guide assumes you have not yet applied and know little about the industry. **The live posting (Req 6673) shows an end date of 22 October 2026, but review is rolling and another Lazard window closes 4 October 2026. Apply now.** [S152][S280][S281]

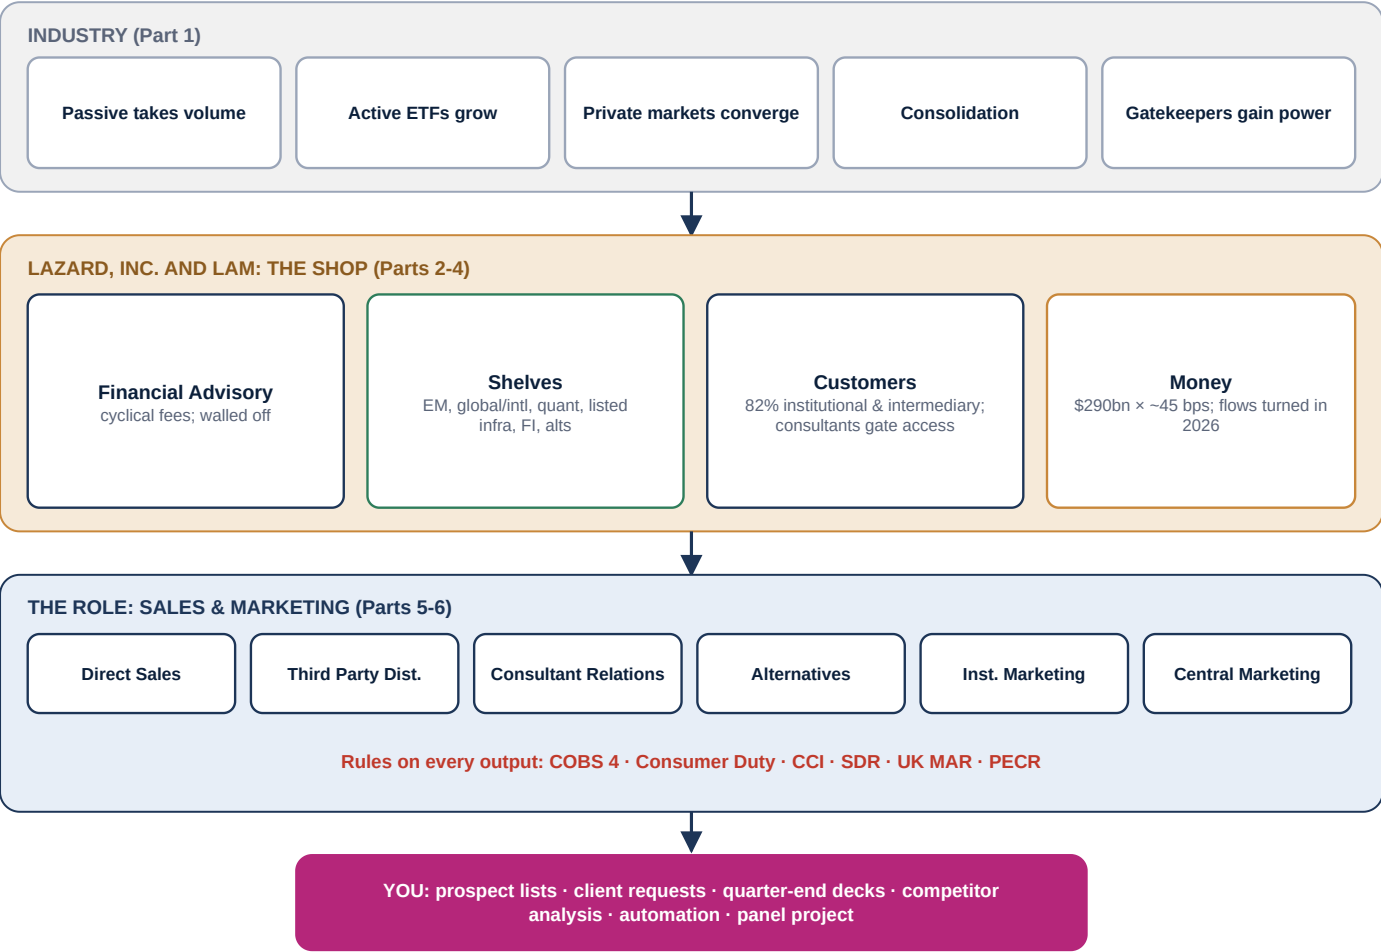

0.1 Read in this order

If you have...	Read
10 minutes	The emergency version below, then the cheat sheet (Part 14)
2 hours	Parts 0, 5, 9, 13, 14
A weekend	Parts 1-3 (beginner foundation), then 5, 6, 9, 10, 12, 13
Before an assessment centre	Parts 7, 8, 10, 11, 12 and a fund pitch from Part 2

0.2 The ten-minute emergency version

- What LAM is.** The investment arm of Lazard, Inc. (NYSE: LAZ). \$290.3bn of client money at 31 Aug 2026 [S139], about 75% active equity [S101], earning about 45 basis points a year (computed) [S321].
- Who buys.** 82% institutional and intermediary: pension funds, sovereign funds, insurers, sub-advisory, wealth managers and platforms [S51]. Consultants and fund selectors are the gatekeepers [S183].
- What it sells best.** EM equity (since 1990, \$51.2bn, +55% y/y), global/international equity, listed infrastructure (since 2005), quant Equity Advantage (~\$51bn), Rathmore convertibles [S50][S71][S80][S72][S77].
- The story.** Net outflows in 2024 (−\$35.7bn) and 2025 (−\$18.1bn); best first-half inflows in nearly 20 years in 2026 (+\$7.4bn), but Q2 and August were negative [S100][S101][S201].
- The people.** Hogbin (LAM CEO since Dec 2025), first CIO Van Nostrand (Jan 2026), London CEO Jeremy Taylor [S109] [S143][S176].
- London.** Asset management started here in 1953; office at 20 Manchester Square; EMEA 42% of LAM revenue [S132] [S188][S100].
- The job.** Six departments; prospect lists, client requests, quarter-end decks, competitor analysis, automation and a project presented to senior management [S152].
- The rules.** Fair, clear and not misleading (COBS 4); standard past-performance periods; Consumer Duty; CCI replaces KIIDs by 8 June 2027; never pass on inside information [S240][S420][S241][S244][S422].
- The news.** 30 Sep 2026: Europe ex-UK Equity Advantage UCITS launched for UK model-portfolio buyers [S212]. Nuveen completed Schroders on 1 Oct [S17].
- Why LAM.** "Many specialist teams, one shared sales engine, at a turning point, in the city where it began."

The master diagram: industry, shop, firm and role, all connected

The master diagram
Source: Author's synthesis **Inferred** of Parts 1-6. Figures from [S139][S51][S322][S240][S241][S244][S422].

PART 1

The industry from zero

What asset management is, who buys it, how firms make money, and what is changing. Read this first if you know nothing.

An asset manager invests other people's money for a fee. It never owns the money. The client's assets sit with a separate bank called a custodian. The manager makes decisions within agreed rules. That is the whole business in three sentences.

KEY TERM · ASSET MANAGER

A firm that runs investments for clients and charges a percentage of the money it runs. Also called an investment manager or fund manager. Lazard Asset Management (LAM) is one.

KEY TERM · AUM (ASSETS UNDER MANAGEMENT)

The total value of client money a manager runs. LAM ran \$285bn at 30 June 2026 [S320], about £215bn at \$1.324 per £ [S236]. It is the single number everyone quotes.

1.1 Two ways to deliver the product

Pooled funds

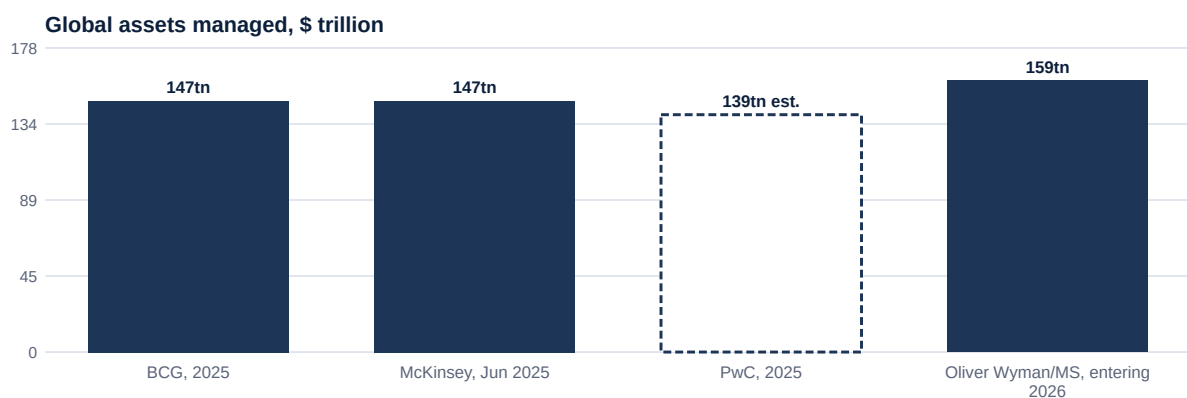

Many investors buy shares in one portfolio. Examples: a UK OEIC (open-ended investment company), an Irish or Luxembourg UCITS fund (the EU's cross-border retail fund format), an ETF (a fund traded on a stock exchange) or an investment trust (a listed company that holds investments). LAM's UK range includes nine UK-domiciled OEICs [S193].

Segregated mandates

One big client, such as a pension fund, gets its own portfolio run to its own rules and benchmark. The contract is called an investment management agreement. Institutional sales teams spend most of their time winning and keeping these.

1.2 How big is the industry?

Global estimates differ because each source counts differently. Always say which source and which date.

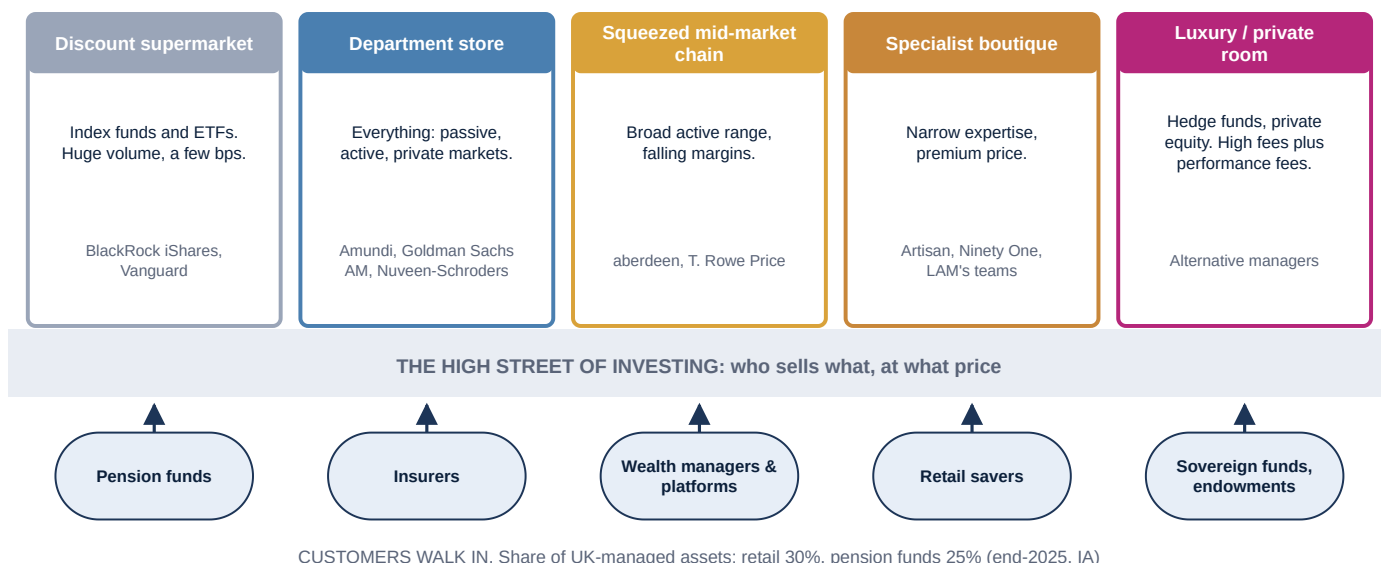

Global AUM, four estimates

Source: BCG [S3] 2026; McKinsey [S6] Sep 2025; PwC [S7] 2025 (search snippet only, dashed); Oliver Wyman/Morgan Stanley [S13] Sep 2026.

The UK is Europe's largest hub. Investment Association (IA) members managed a record **£11.1 trillion at end-2025**, up 11%. Of that, 53% is run for overseas clients **Confirmed** [S1]. Europe as a whole held €33tn at end-2024 [S8]. Retail clients now hold 30% of UK-managed assets and pension funds 25%, down from a 45% peak in 2018 [S1].

Revenue per £100 managed per year: aberdeen 18.5p · T. Rowe Price 38p · LAM about 45p · Artisan about 68p

The industry high street

Source: Analogy built by the author **Inferred**. Revenue margins: aberdeen 18.5 bps H1 2026 [S346]; T. Rowe Price 38.1 bps Q2 2026 [S353]; LAM ~45 bps computed from FY2025 results (\$1,107m management fees ÷ \$246.9bn average AUM) [S321]; Artisan ~68 bps computed from Q2 2026 [S351]. Shop categories are the author's. Customer shares: IA, end-2025 [S1].

SHOP ANALOGY

Think of each manager as a shop. The goods on the shelves are funds and strategies. The price tag is the annual fee, a small percentage of the money invested. The customers are pension funds, insurers, wealth managers and savers. Some shops sell cheap own-brand goods in bulk (index funds). Others sell a few expensive specialist goods (active strategies in emerging markets). LAM is the second kind of shop, with a famous name over the door.

1.3 Who the customers are

Customer	Plain English	What they want now	How they buy
Defined benefit (DB) pension schemes	Company or council schemes that promise a pension tied to salary. The sponsor carries the risk.	Most private DB schemes are closed and de-risking into bonds, LDI and insurer buy-outs [S2].	Through an investment consultant who shortlists managers.
Defined contribution (DC) pensions	Each member has a pot. The member carries the risk. Mostly master trusts.	Scale, low cost, more private markets. Default funds must reach £25bn by 2030 [S15].	Large in-house teams plus consultants.
LGPS pools	The council workers' pension scheme, being merged into six pools [S16].	Specialist sleeves they cannot run in-house.	Pool CIOs and their consultants.
Insurers	They invest premiums and now hold many former DB pensions.	Bond and private credit mandates. Insurers held 28% of UK institutional mandates in 2024 [S2].	Direct, often via RFP.
Sovereign wealth funds, endowments	State and charity long-term pots.	Long-horizon global and specialist strategies.	Direct relationships.
Wealth managers, private banks, DFMs	They build portfolios for wealthy clients and buy funds from other managers.	Building blocks for model portfolios.	Central fund-selection teams and buy lists.
Platforms and IFAs	Online fund supermarkets and independent advisers.	Clean, cheap share classes, good data.	Platform panels, adviser research.
Retail savers	Individuals buying through ISAs and pensions.	Simplicity and value.	Usually via an adviser or platform.

KEY TERM · INVESTMENT CONSULTANT

An adviser to pension trustees on strategy and on which managers to hire. Mercer, WTW and Aon held roughly 45-49% of UK consultancy revenue in the competition authority's 2018 study [S256]. They are the gatekeepers of institutional sales.

1.4 How an asset manager makes money

How an asset manager makes money: one formula

AUM moves for two reasons only:

- 1. Markets: prices of the holdings go up or down. Over 80% of 2025 revenue growth came from rising markets [S3].
 - 2. Net flows: new client money in minus money taken out. This is the part Sales & Marketing controls.
- In 2024 roughly 70% of the global AUM rise came from markets and 30% from net new money [S6].

The revenue formula

Source: Illustrative £100m mandate at LAM's computed average fee of ~45 bps (FY2025, [S321]); UK margin from IA [S2]; market vs flow split from BCG [S3] and McKinsey [S6].

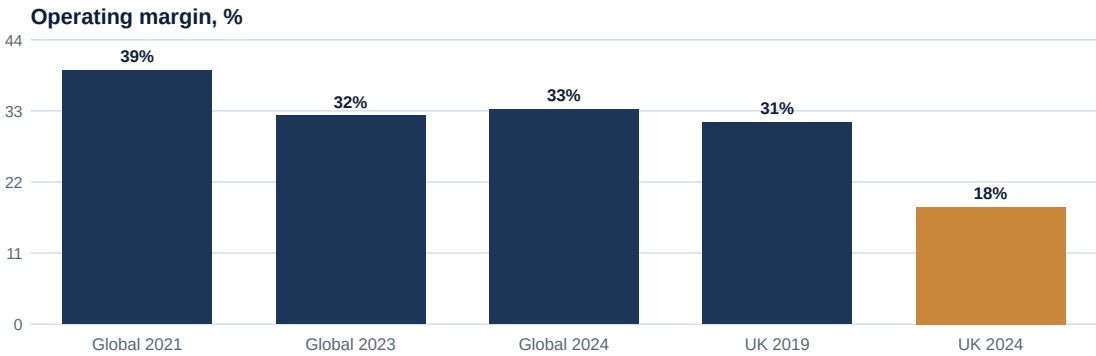

KEY TERM · BASIS POINT (BP)

One hundredth of one percent. 45 bps = 0.45%. Fees are quoted in bps.

KEY TERM · NET FLOWS

Money clients add minus money they withdraw. Positive net flows are the scorecard for a sales team.

Margins are being squeezed. Global pretax operating margins fell from 39% in 2021 to 33% in 2024 [S6]. In the UK the IA reports an operating margin of 18% in 2024, down from 31% in 2019, because costs grew 14% while revenue grew 10% [S2]. Oliver Wyman and Morgan Stanley expect the average fee to fall from 35 to 32 bps by 2030 [S13].

Profit margins are shrinking

Source: Global: McKinsey [S6]; UK: Investment Association [S2]. Different definitions; compare within each series only.

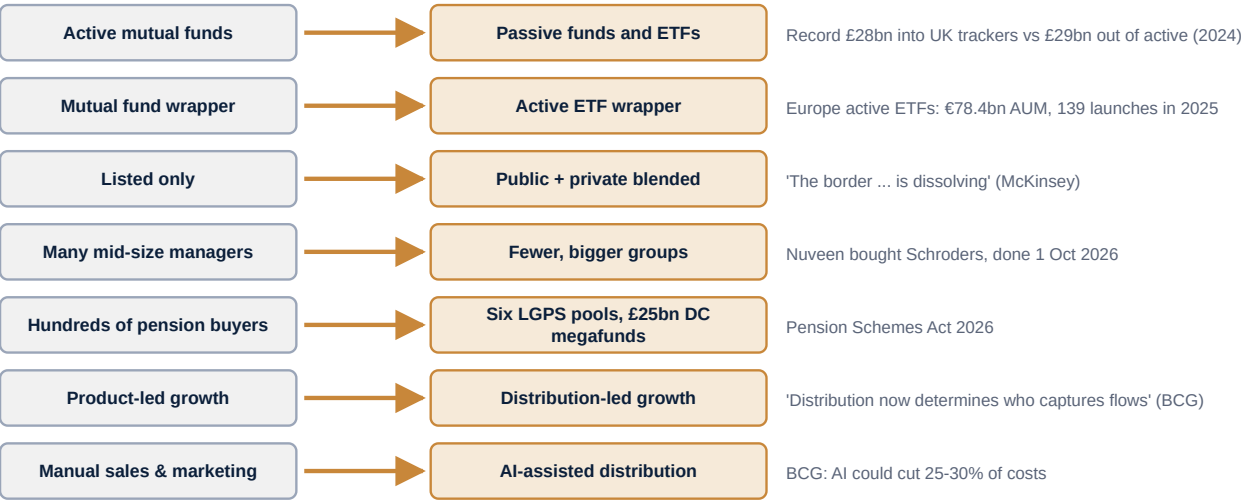

1.5 Asset manager versus the neighbours

Type	What it does	How it earns	Relation to LAM
Asset manager	Runs listed equity, bond and multi-asset portfolios	% of AUM, some performance fees	This is LAM
Wealth manager / private bank	Owns the relationship with families; builds portfolios	Fee on client assets	A customer of LAM's Third Party Distribution team
Hedge fund	Absolute-return strategies, shorting, leverage	Management fee plus performance fee	LAM's Alternative Marketing team sells hedge-fund style products
Private equity	Buys unlisted companies with closed-end funds	Fee on commitments plus carried interest	A rival for institutional allocations

Type	What it does	How it earns	Relation to LAM
Investment bank	Advises companies, trades securities (the 'sell side')	Advisory fees, trading spreads	Lazard's other half is Financial Advisory, an advisory firm rather than a bank
Insurer	Takes on risk, invests premiums	Underwriting and investment margin	Both client and competitor
Pension fund	Owns the assets for members	Not-for-profit	The client; hires managers via consultants

1.6 Seven forces reshaping the industry

Industry shift map, 2024-2026: where money and power are moving

Industry shift map

Source: Sources: IA [S2], Morningstar via ETF Express [S9], McKinsey [S6], Nuveen/Schroders [S17], Hymans Robertson on the Pension Schemes Act 2026 [S15], BCG [S4][S5]. All dated 2024-2026.

- 1. **Active to passive.** Index funds were 35% of UK AUM in 2024 [S2]. UK retail trackers took £12.8bn in 2025 while active funds lost £15.1bn [S11]. In August 2026 trackers took £1.6bn and active lost £707m [S12].
- 2. **Active ETFs.** Europe's active ETFs hit €78.4bn at end-2025 with €22.7bn of inflows and 139 launches [S9]. In the eight months to August 2026 they took \$33.9bn, beating all of 2025 [S217].
- 3. **Private markets.** McKinsey calls it "the great convergence": "The border separating traditional and alternative asset management is dissolving" [S6].
- 4. **Consolidation.** Nuveen completed its takeover of Schroders on 1 October 2026 [S17]. Janus Henderson went private on 30 June 2026 [S18]. The top 10 firms run 60% of UK assets [S2].
- 5. **Gatekeepers gain power.** BCG: "Distribution now determines who captures flows" [S4].
- 6. **AI in distribution.** BCG estimates AI could cut 3-6 bps of cost and add 0.5-1% of AUM in yearly inflows within 3-5 years, but warns that AI on "a broken or undefined sales model automates existing inefficiencies" [S4][S5].
- 7. **UK pension and retail reform.** Fewer, bigger pension buyers. Targeted support live from 6 April 2026 [S251]. Cash ISA cap falls to £12,000 from April 2027 [S20].

1.7 Four competing views on the next 3-5 years

View	Who	The claim	What it means for LAM Inferred
Distribution and AI decide winners	BCG, Apr/Aug 2026 [S3] [S4]	'The era of market appreciation driving industry growth is ending.' Firms must win flows.	Sales & Marketing becomes the growth engine. Good for this team's influence.
The great convergence	McKinsey, Sep 2025 [S6]	Public and private merge; active ETFs rescue part of active; the DB-reliant active equity manager loses.	LAM is equity-heavy and institutional: it must add vehicles and adjacencies.
Private markets take the profits	PwC, 2025 [S7]	Private markets supply over half of revenues by 2030; passive takes volume.	LAM's alternatives are only \$10.8bn [S320]: a gap.

View	Who	The claim	What it means for LAM Inferred
Scale through M&A	Oliver Wyman/MS, Sep 2026 [S13]	Revenue grows ~7% a year but fees fall 35 – 32 bps; heavy consolidation.	Mid-size managers must specialise or buy. LAM hired a Head of Corporate Development in July 2026 [S329].
Active is not dead	Schroders CEO [S17]; IA 2026 flows [S12]	Active wins in bonds, less efficient markets, new wrappers.	Supports LAM's EM, infrastructure and quant focus.

YOUR OPINION GOES HERE

Pick one view and defend it in two sentences. A strong candidate line: *"I think the winners are specialists with good distribution. Passive wins on price, so an active manager has to be excellent somewhere specific and be easy to buy. That is why I find LAM's mix of EM, listed infrastructure and quant, sold through one central distribution team, interesting."*

DON'T SAY THIS

"Active management is dying." It is shifting, not dying. 2026 UK inflows have been led by active bond and mixed-asset funds [S12].

PART 2

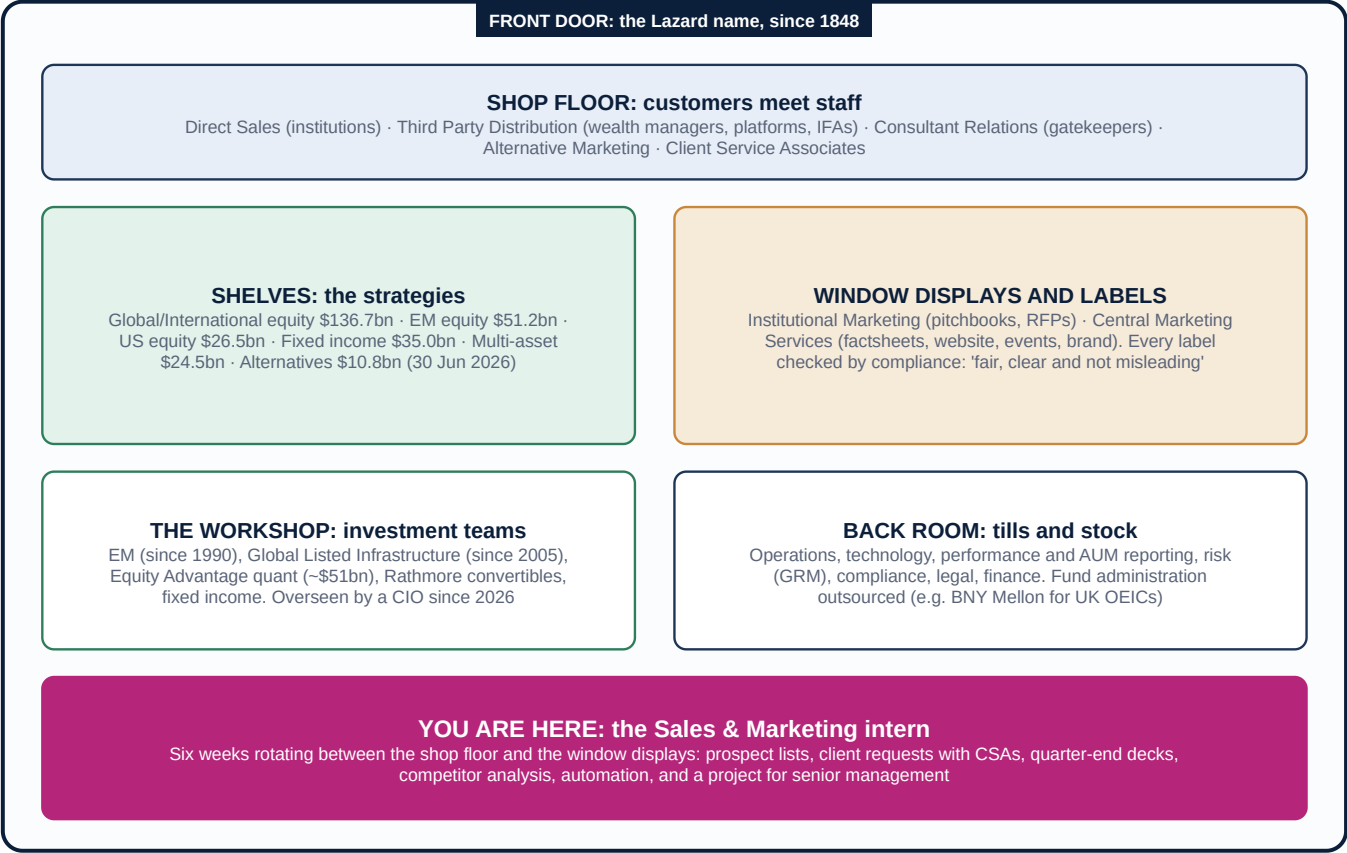

The firm as a shop

Customers, shelves, staff, rival shops and what makes LAM stand out. Real products, real numbers, one running analogy.

SHOP ANALOGY

Picture a shop on a high street. The name over the door is **Lazard**, a 178-year-old brand. The shelves hold investment strategies, not tins. The price tag is an annual fee of about 0.45% of the money invested. The customers are pension funds, wealth managers and other institutions, not passers-by. You are joining the people on the shop floor and the people who design the window displays.

LAM as a shop: floor plan

The shop floor plan

Source: Author's analogy **Inferred**, built from Lazard Q2 2026 AUM [S50]; team names from the JD and LAM's UK contact page [S174]; UK OEIC administration [S174][S193]; CIO [S143].

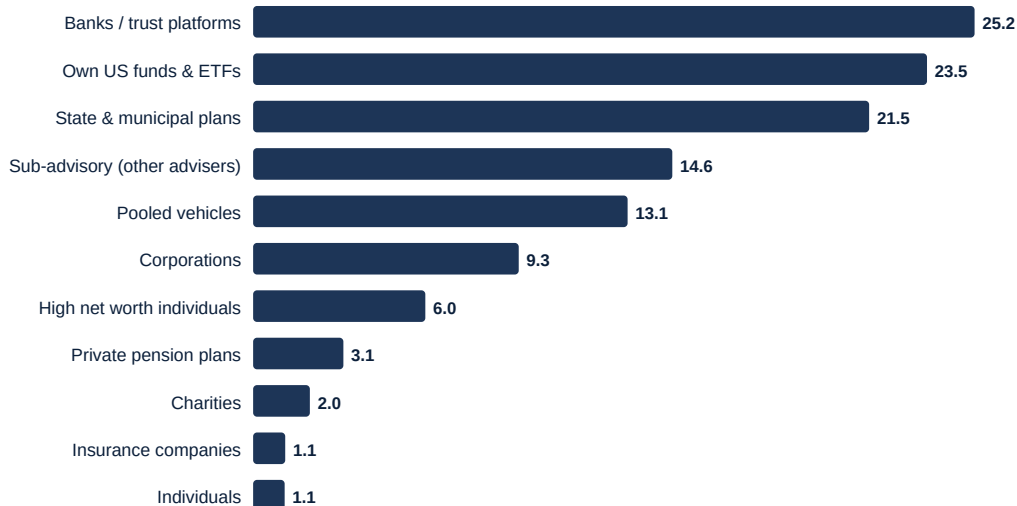

2.1 The customers: who walks through the door

About **82% of AUM** is run for "institutional and intermediary clients" and about **18%** for "individual client relationships", mainly family offices and wealthy individuals [S51]. The top ten clients hold 24% of AUM, down from 32% a year earlier [S51]. Two-thirds of AUM is non-dollar [S51][S54].

Customer type	Who, in plain English	What they need	How they buy	Real example (public record)
Public and corporate pension funds	Schemes paying pensions to workers	Long-term growth, diversification, low cost	Via consultants, RFPs	Wales Pension Partnership (LGPS pool) appointed Lazard on a sub-fund, per Dakota, 30 Sep 2026 [S88]; sub-fund not named Reported
Sovereign and public entities	State investment funds	Global and EM equity, infrastructure	Direct relationships	10-K names 'sovereign wealth funds' as clients [S51]; LAM has Dubai and Riyadh offices [S51]

Customer type	Who, in plain English	What they need	How they buy	Real example (public record)
Insurers	Firms investing premiums	Credit, stable income	Direct, RFP	Named as a client type in the 10-K [S51]
Sub-advisory clients	Other fund companies hiring LAM to run a sleeve	Large, low-fee mandates	Manager research	A large US sub-advised relationship closed in Nov 2025 (\$16.8bn) [S149] Reported
Wealth managers, platforms, DFMs	Intermediaries building portfolios for savers	Rated funds, clean share classes	Buy lists, platform panels	Global Equity Franchise is on Hargreaves Lansdown's Wealth Shortlist [S83] and FundCalibre 'Elite Rated' [S84]
Retail via intermediaries	Individuals through ISAs and advisers	Simple, good value	Platforms, advisers	Fidelity UK's Tom Stevenson picked Lazard Emerging Markets as a 2026 fund pick [S85]
Family offices and HNW individuals	Wealthy families	Wealth structuring, private assets	Private bankers (LFG in Paris)	18% of AUM [S51]; Lazard Frères Gestion runs €48.5bn [S87]

Customer map: US entity (LAM LLC) regulatory AUM by client type, \$bn, FY2025

Customer map (US entity only)

Source: Lazard Asset Management LLC Form ADV, annual amendment filed 30 Mar 2026, FY2025 figures [S56]. Covers the US adviser (\$120.5bn) only, not London or Paris. Shows 0 sovereign wealth clients in the US entity; SWF clients are probably contracted via non-US affiliates **Inferred**.

Why LAM has these customers

- A global footprint and research platform.** The 10-K cites "a global footprint with global research, global mandates and global clients" [S51]. New Jersey's pension fund cited the "approximately 90 research analysts" behind a niche team when it approved \$150m for Rathmore in 2012 [S79].
- Specialist franchises with long records.** EM since 1990 [S71], listed infrastructure since 2005 [S80], Rathmore since 2007 [S74], quant for "over 20 years" [S72].
- Non-US exposure.** Q1 2026's record inflows came from "clients looking to diversify into international emerging markets and global strategies" [S54].
- The brand and the history.** London asset management since 1953 [S120].

Five product stories

1. Global Listed Infrastructure: the quiet giant

Run by a Sydney-founded team since October 2005 [S80]. It buys "monopoly or monopoly-like" assets such as regulated utilities and toll roads "trading at a discount" to intrinsic value [S80]. The US fund alone is \$12.45bn [S65]. Australian fund: 10.6% a year since inception against 8.4% for its benchmark, to June 2026 [S80]. **Problem it solves:** inflation-linked, defensive cash flows with daily liquidity.

3. Rathmore: a hedge-fund boutique inside

Convertible arbitrage since June 2007 [S74]. UCITS version launched in London in 2018 "in response to investor demand for a product that offers the opportunity for equity-like returns, with bond-like volatility" [S78]. 7.6% a year, 3.3% volatility, Sharpe 1.7 to end-2025 [S77]. This is what Alternative Marketing sells.

5. Private markets: from Edgewater to Elaia

Lazard sold control of Edgewater (US private equity, \$1.5bn AUM) in February 2026 [S142] and took 51% of Elaia Partners (European venture capital, ~\$1.0bn added) [S50]. The private shelf moved from US buyout to European tech growth.

2. Emerging Markets: the comeback

Investing in EM "since 1990", \$56bn across 33 countries [S71]. EM equity AUM rose from \$27.9bn (2024) to \$51.2bn (June 2026) [S51] [S50]. The UK OEIC grew from £884m to £1.49bn in a year [S57].

Weak spot: EM debt fell from \$9.5bn (2023) to \$4.9bn (2025) [S51]; a new co-head was hired in December 2025 [S67].

4. Quant and the ETF pivot

Equity Advantage manages about \$51bn [S72]. LAM built its US ETF range largely by **converting existing mutual funds**: International Equity Advantage became IDEQ, now \$1.52bn [S61]. Eleven US ETFs by September 2026 [S62]. On 30 Sep 2026 the same team launched a Europe ex-UK UCITS fund for UK model-portfolio builders [S212].

2.3 The staff and the back room

Shop role	Who does it at LAM	Your team?
Decides what goes on the shelves	Investment Management Group chaired by the CEO approves new strategies [S136]; new Head of Product since July 2026 [S112]	No, but you feed it competitor analysis
Makes the goods	Investment teams under the CIO [S143]	No
Serves customers on the shop floor	Direct/Institutional Sales, Third Party Distribution, Consultant Relations, Alternatives, Client Service Associates [S174]	Yes
Designs windows and labels	Institutional Marketing, Central Marketing Services, under global CMO Joanne Choi [S175]	Yes
Runs the tills and stock	Operations, AUM reporting, technology, fund administrators [S159][S193]	You will use their data
Security and rules	Compliance, risk, legal [S136][S160]	Every deck you touch passes through them

2.4 The rival shops

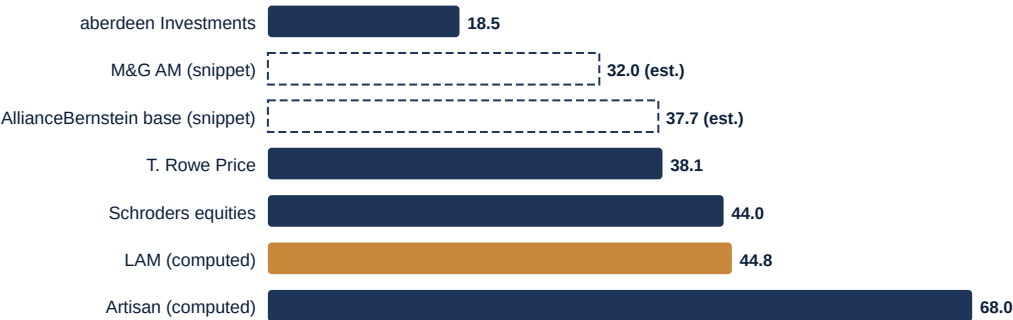

Rival shops on the high street, and where LAM sits

Rival shops on the high street

Source: AUM: BlackRock \$15.3tn [S359], Amundi €2,581bn [S360], Nuveen-Schroders ~\$2.6tn [S17] (all mid-2026). Revenue margins: aberdeen 18.5 bps [S346], T. Rowe Price 38.1 bps [S353], LAM ~45 bps computed [S321], Artisan ~68 bps computed [S351]. Placement on the axis is the author's judgement **Inferred** .

2.5 What makes LAM's products stand out

What makes LAM stand out, on one page

1

Owned by an independent advisory firm
Not a bank, insurer or family. AM is Lazard's stabiliser:
H1 2026 AM +20%, Advisory -7%

2

London is the birthplace
Asset management began in London in 1953; LAML is that original entity. EMEA = 42% of revenue

3

An early mover in listed infrastructure
GLI strategy since October 2005; ~\$12.5bn US fund alone

4

EM since 1990, and growing again
EM equity \$51.2bn, +55% y/y; UK EM OEIC grew to £1.49bn

5

A convertible-arbitrage boutique inside
Rathmore: three HFJ UCITS awards 2023-25; Sharpe 1.7 to end-2025

6

Two-thirds non-dollar
Positioned for clients diversifying away from US mega-caps

What makes LAM stand out

Source: Sources: Q2 2026 results [S320]; history [S120][S132]; FY2025 10-K [S100]; GLI [S330][S65]; EM [S50][S57]; Rathmore [S77]; non-USD share [S51].

Claim	Evidence	Why it matters to a customer
An advisory parent, not a bank or insurer	Peers are owned by an insurer (M&G), Nuveen/TIAA (Schroders), Equitable (AB) or partners (Wellington) [S322]	Independence from a lending or insurance balance sheet; a firm whose business is advice
A pioneer in listed infrastructure	'One of the first specialist portfolios' in October 2005 [S330]	Twenty years of data through different rate regimes
EM since 1990, growing again	EM equity \$51.2bn, +55% y/y [S50]	Depth of research in markets where active managers have better odds
A real hedge-fund boutique inside	Rathmore: HFJ awards 2023-25; correlation 0.01 to US bonds [S77]	Diversification for private banks and insurers
Non-dollar tilt	67% of AUM non-USD [S51]	Right place if money leaves US mega-caps
Two AM brands under one parent	LAM plus Lazard Frères Gestion (€48.5bn) [S87]	French private-client depth few rivals have

DON'T SAY THIS

"LAM is one of the biggest" or "LAM has the best returns". It is mid-sized, not a leader in passive or private markets, net flows were negative in 2023-2025, and the top 10 clients are 24% of AUM [S322]. Overclaiming is the fastest way to lose an interviewer who knows the numbers.

SAY THIS IN THE INTERVIEW

"LAM is a specialist shop with a famous name over the door. It charges about 45 basis points, above the big US houses and below pure boutiques. Its strongest counters are EM, listed infrastructure and quant, and it sells them through one shared distribution team. That team is the one I want to learn from."

PART 3

The firm from the inside

History, how the money flows, the contracts that hold it together, the control architecture, leadership, results, recent moves and the awkward bits.

Lazard Asset Management is the investment arm of Lazard, Inc., a 178-year-old firm best known for advising companies on mergers. LAM runs \$290bn for clients from 28 cities. London is its biggest hub outside New York.

\$290.3bn

AUM, 31 Aug 2026 (prelim.) [S139]

~45 bpsaverage fee, computed from
FY2025 [S100]**1,284**

LAM staff, end-2025 [S100]

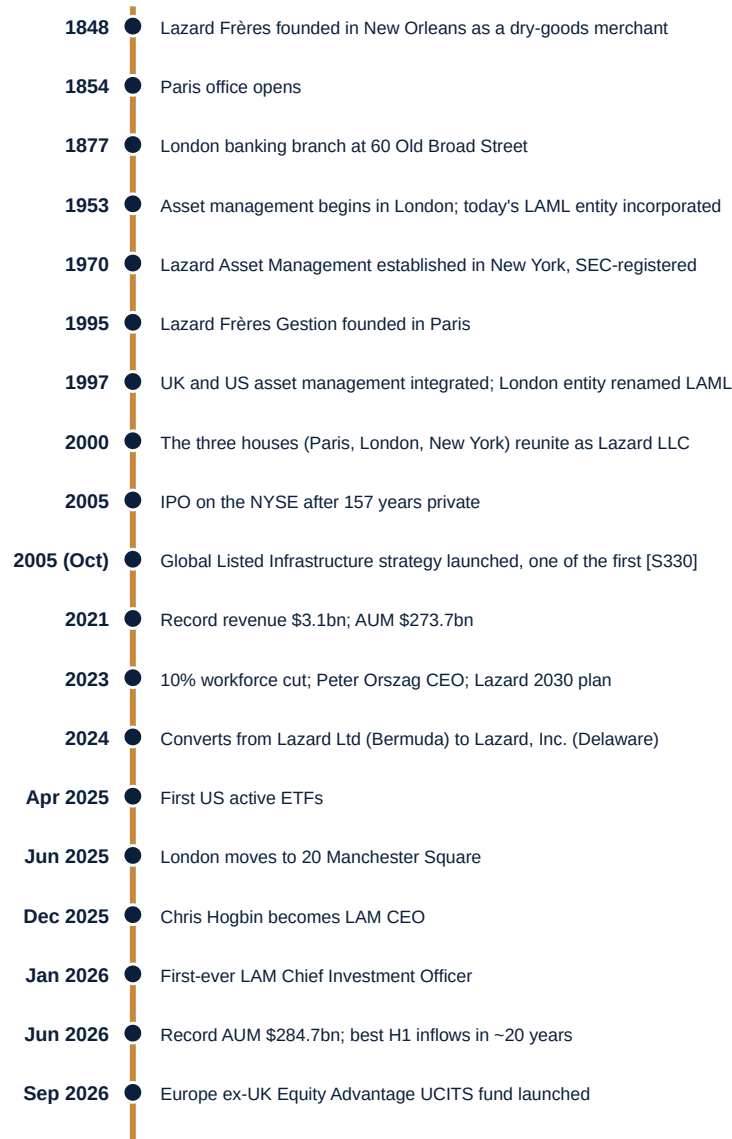

42%of LAM revenue from EMEA,
FY2025 [S100]

3.1 History and the founding insight

Alexandre and Lazare Lazard arrived in New Orleans in 1841 and founded Lazard Frères & Co. as a dry-goods merchant in **1848** [S120]. They followed the Gold Rush to San Francisco, opened Paris in 1854, became a bank in 1876 and opened London in 1877 [S120]. The founding insight was not about investing at all. It was about being a trusted intermediary between places and people with capital. That instinct still runs through the firm: it sells judgement, not a balance sheet.

For a London candidate the key fact is this: **asset management started in London in 1953** [S120]. The legal entity you would join, Lazard Asset Management Limited, was incorporated on 12 November 1953 as Lazard Securities Limited and took its current name in 1997 **Confirmed** [S132]. LAM in New York came later, in 1970 [S120].

Lazard and LAM, 1848 to 2026

Firm timeline

Source: Lazard history page [S120]; Companies House [S132]; 10-K FY2025 [S100]; Q2 2026 release [S101]; ETF launches [S147]; HQ move [S188][S189]; Hogbin [S109]; CIO [S143]; Europe ex-UK launch [S212].

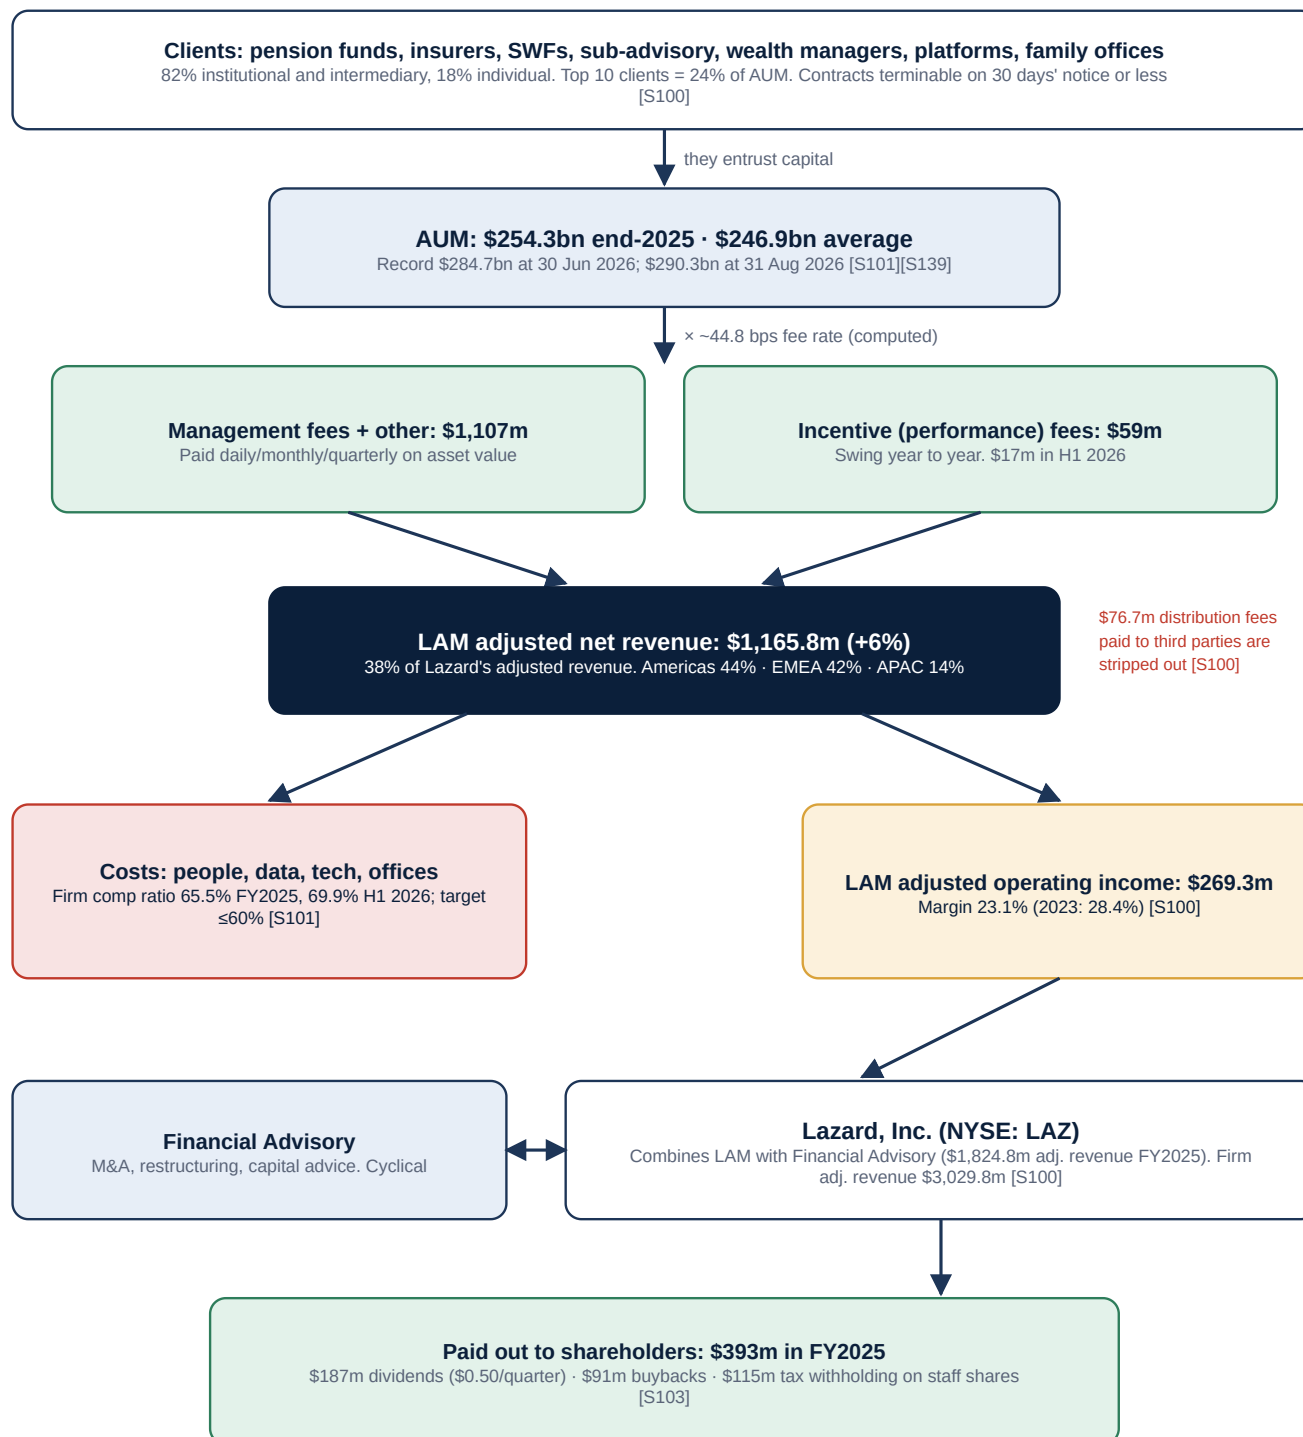

The mission, in the firm's words: "to provide trusted, independent financial advice and investment solutions to our clients, backed by the intellectual capital of our firm" [S100]. Since 2025 the house phrase is "**contextual alpha**": "the broad insight and judgment needed to navigate macroeconomic, geopolitical, and other factors" [S100]. Interviewers will recognise it. Use it once, accurately.

KEY TERM · ALPHA

Return above a benchmark that comes from the manager's skill. 'Contextual alpha' is Lazard's branding for insight drawn from geopolitics, regulation and macro.

3.2 How the money flows

Money flow through Lazard and LAM, FY2025 (adjusted, \$m unless stated)

Read it like a shop's till:

- Every £1 of client money kept for a year earns LAM about 0.45p. Keep the money, keep the revenue.
- Most of the cost is people. That is why the firm talks about the compensation ratio so much.
- Sales & Marketing changes the top box (who walks in, who stays). Markets change the AUM box.
- The fee rate is the author's calculation: $\$1,107m \div \$246.9bn = 44.8 \text{ bps}$. Lazard does not publish it directly.

Money flow, full page

Source: Lazard 10-K FY2025 [S100]; FY2025 results [S103]; Q2 2026 results [S101]; August 2026 AUM [S139]. Fee rate computed by the author. All figures adjusted (non-GAAP) unless stated.

Revenue by segment and region

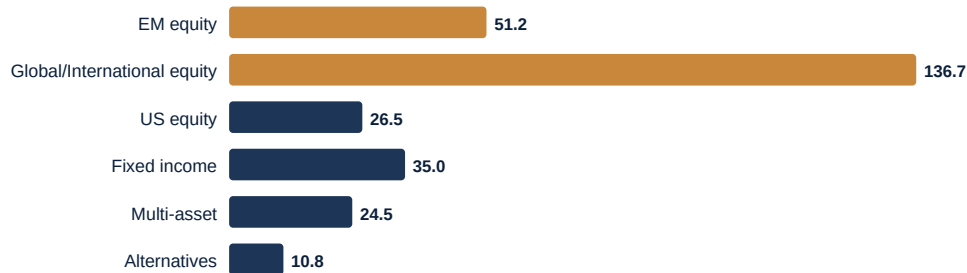

Lazard adjusted net revenue by segment, FY2025, \$m

Two businesses, one firm

Source: Lazard FY2025 results [S100][S103]. Corporate segment not shown.

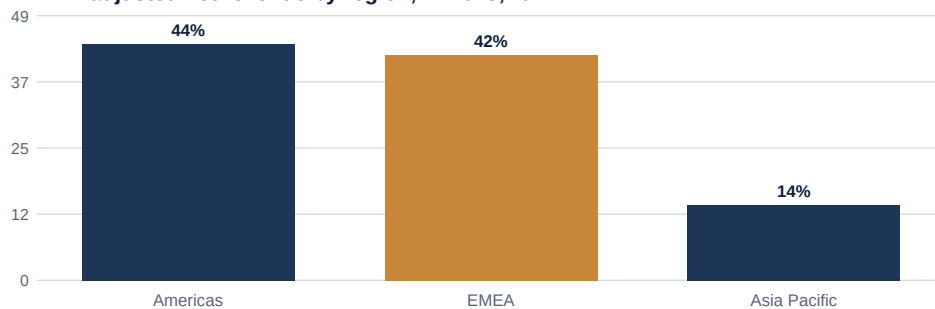

LAM AUM by asset class, 30 June 2026, \$bn

What is on the shelves, by value

Source: Lazard Q2 2026 results [S101]. EM equity +55% and Global/International +28% year on year; US equity -33% after a sub-advised client left.

LAM adjusted net revenue by region, FY2025, %

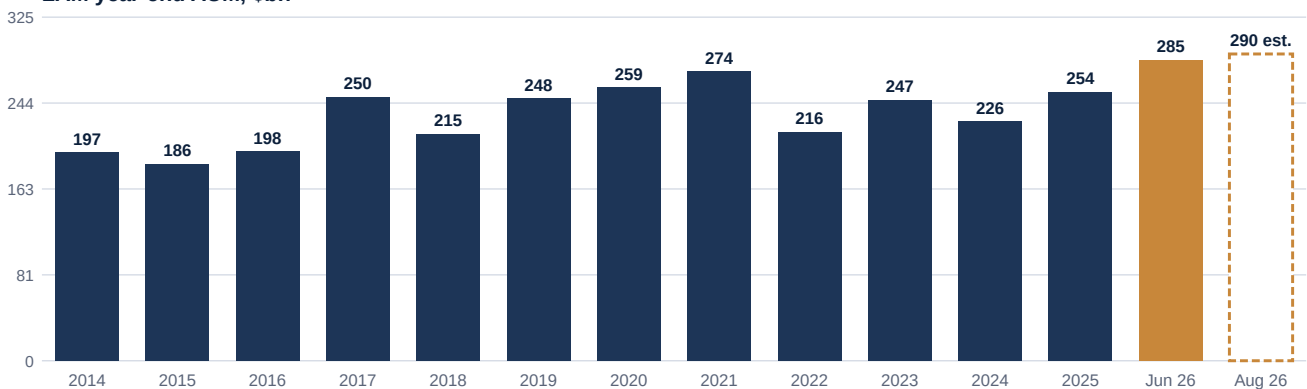

London's weight

Source: Lazard 10-K FY2025 [S100]. EMEA (London is the hub) earns almost as much as the Americas.

3.3 Growth over time

LAM year-end AUM, \$bn

Ten years of AUM: roughly flat, then a 2026 jump

Source: 10-Ks FY2016, FY2019, FY2023, FY2025 [S108][S107][S106][S105][S100]; Q2 2026 [S101]; Aug 2026 preliminary (dashed) [S139]. 2015-2025 growth ≈3.2% a year (computed).

LAM net flows, \$bn

The flows story in one chart

Source: 10-K FY2025 [S100]; FY2025 release ('Excluding one large U.S. sub-advised relationship, net inflows were \$8.4 billion') [S103]; Q1/Q2 2026 [S102] [S101]; Aug 2026 [S139].

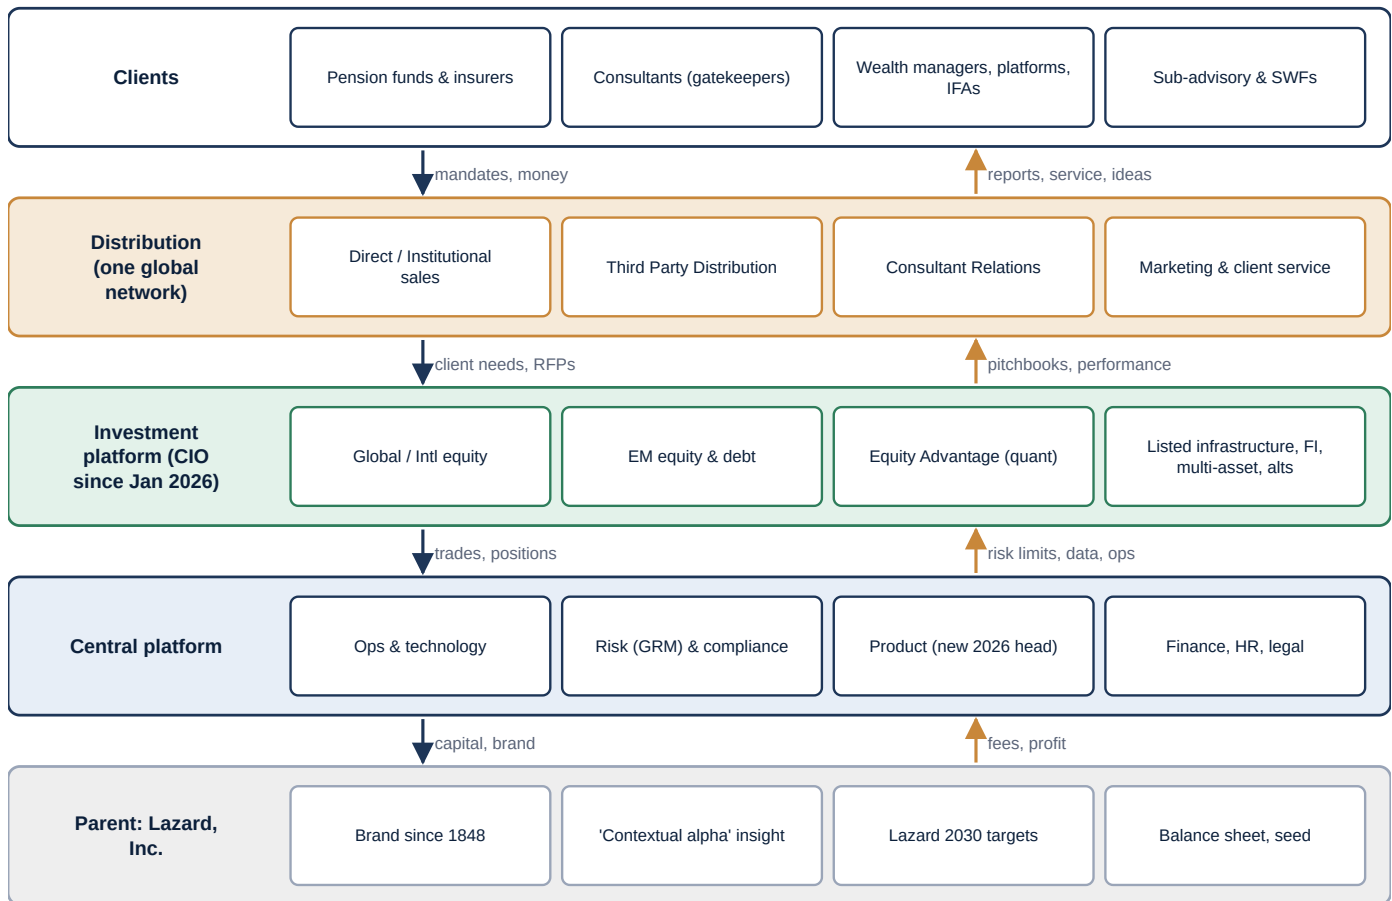

Tell the flows story fairly. 2024 lost \$35.7bn as quality and value styles fell out of favour [S100][S115]. 2025 had **record gross inflows of \$63.2bn** but one low-fee US sub-advised client left, so net flows were **-\$18.1bn** [S100][S103]. Q1 2026 brought \$9bn in, the best quarter in almost 20 years [S398]. Q2 and August turned negative again [S101][S139]. Hogbin himself said: "I would not straight line the number from Q1 through the year" [S398].

SAY THIS IN THE INTERVIEW

"LAM's flows have turned, but they're lumpy. 2025 had record gross inflows of \$63bn, and the net figure was dragged down by one low-fee sub-advised exit. H1 2026 was the best first half in nearly 20 years, though Q2 and August were negative. So I'd describe it as momentum with concentration risk."

3.4 The operating model

LAM's operating model as layers, and what flows between them

Operating model as layers

Source: Author's reconstruction **Inferred** from the 10-K ('global market delivery and service network'; investment teams; CIO) [S100][S322][S327], LAML MIFIDPRU disclosure (committees) [S136], and the JD's six departments.

3.5 The contracts the business is made of

Stakeholder	Gives	Gets	The fine print
Clients	Their capital, for as long as they are happy	Active management, reporting, service	Contracts 'terminable at any time or on notice of 30 days or less' [S100]. Revenue can walk out of the door in a month.
Employees	Skill, relationships, time	Salary plus a bonus pool	UK bonus pool is 'determined by the Group's publicly disclosed compensation ratio targets' [S135]. Firm target: comp ratio ≤60% [S101]. Malus and clawback for material risk takers [S136].
Consultants and intermediaries	Access to clients, ratings	Data, meetings, due diligence	'Poor reviews ... could materially reduce our revenue' (10-K risk factor) [S100].
Shareholders	Capital and patience	Dividends, buybacks, growth	Lazard 2030: double 2023 revenue (≈\$4.9bn, computed) and 10-15% annual TSR [S117][S114].
Third-party distributors	Shelf space and reach	A share of fees	\$76.7m of AM distribution fees paid out in FY2025 [S100].

3.6 The risk and control architecture

The UK business publishes a MIFIDPRU disclosure. It shows three lines of defence: management, a risk committee, and internal audit [S136]. Global committees include an **Investment Management Group** chaired by the LAM CEO, which approves new strategies, and a **Sales & Marketing Management Group** whose members include the London CEO [S136].

- **Limits.** Group Risk Management produces risk 'Books' for strategies; the IMG receives "strategy performance daily and focus[es] on under-performing strategies or on unusual out performance" [S136].
- **External check.** "LAM's institutional client base and the consultant ratings process is another external check on investment performance" [S136].
- **Conduct.** Pre-cleared personal dealing, restricted lists, gifts and entertainment monitoring, and "Robust Marketing review and sign off policies" [S136]. That last line is your world: every deck you touch gets signed off.
- **Capital.** The UK group held £24.6m of own funds against a £16.2m requirement at end-2024 [S136].

What this produces. A manager whose characteristic result is steady, style-consistent active returns rather than spectacular ones. The 10-K admits the trade-off: many strategies "share a common investment orientation towards relative value or quality investing", which can "go out of favor" in long growth markets [S100].

3.7 Ownership and what it means for research

Lazard, Inc. is listed on the NYSE (ticker LAZ). It converted from Lazard Ltd (Bermuda) on 1 January 2024 [S100]. Being public means you can read audited 10-Ks, quarterly results and **monthly AUM releases**. Every large win or loss shows up within weeks [S139]. The London entity files accounts at Companies House: FY2024 turnover £130.6m, profit after tax £10.0m, 129 average staff [S133]. Most of its revenue is fee shares from affiliates for work done in London on assets booked elsewhere [S133] **Inferred**.

SOURCE UNCERTAIN

LAML's FY2025 accounts were due on 30 September 2026 and showed as overdue on Companies House on 3 October 2026 [S132]. This is probably a filing lag. Re-check before the interview; the new accounts would update every UK number above.

3.8 Leadership and stated strategy

Person	Role	Since	Signal
Peter Orszag	Lazard CEO and Chairman	CEO Oct 2023	Ex-White House budget director. Owns the Lazard 2030 plan [S117].
Chris Hogbin	LAM CEO	Dec 2025	Ex-AllianceBernstein Global Head of Investments, ex-BCG. Cambridge, Harvard MBA. Dual US/UK citizen [S380][S383].
Eric Van Nostrand	LAM's first Chief Investment Officer	Jan 2026	Ex-US Treasury. Role created 'to strengthen the cohesion, discipline, and effectiveness' of the platform [S327].
Rosalie Berman	LAM COO	Jan 2026	Ex-Morgan Stanley. Succeeded Nathan Paul [S141].
Chris Bricker / TP Enders	Head of Corporate Development / Head of Product	Jul 2026	Ex-AB and ex-GSAM. Signals M&A and launches [S112].
Jeremy Taylor	CEO, LAM London; Co-Head European Distribution; Co-CEO Europe	LAML director since 2018	Ex-telecoms analyst, joined Lazard 2003 [S176][S386].

Lazard 2030 has three Rs: Relevance, Revenue, Returns. "Our goal is to double firm-wide revenue by 2030, with the increases split roughly evenly between Asset Management and Advisory" [S117]. In 2023 the firm also targeted "approximately 30 percent of asset management revenues from alternatives or private markets and wealth management by 2030" [S116]. Whether that sub-target survives under Hogbin is not confirmed **Inferred**.

Hogbin's stated priorities, from public remarks in 2026: performance first; "the most important way we can grow is by scaling what we already have"; active ETFs, with Europe named as the next market; fixed income as under-exploited; private markets via partnerships; AI across four areas; and margins that "are not where we would like them to be" [S113].

3.9 Recent moves, last 24 months

Date	Move	Why it matters to you
3 Mar 2025	Peter Harrison, ex-Schroders CEO, joins Lazard's board 'to further strengthen and diversify its asset management business' [S125]	A London asset-management heavyweight now sits on the board.
7 Apr 2025	First three US active ETFs [S147]; seven launched in 2025, >\$1bn in under a year [S114]	The wrapper story you can discuss.

Date	Move	Why it matters to you
28 May 2025	London registered office moves to 20 Manchester Square [S132]	Say Manchester Square, not Stratton Street.
8 Sep 2025	Hogbin named LAM CEO; Russo moves to adviser [S109]	New leadership agenda.
Nov 2025	\$16.8bn sub-advised relationship closes [S149] (snippet)	Explains the 2025 net outflow.
6 Jan 2026	First-ever CIO [S143]	More house-view content for marketing.
Feb 2026	Edgewater stake sold, \$1.5bn AUM removed [S142]	Simplification.
Q2 2026	51% GP stake in Elaia Partners, +\$1.0bn AUM [S101]	Private markets via partnership.
30 Apr 2026	Lazard agrees to buy Campbell Lutyens for ~\$575m, forming 'Lazard CL' [S121]	Advisory side, not LAM. Do not confuse.
27 Jul 2026	Heads of Product and Corporate Development hired [S112]	Expect launches and deals.
30 Sep 2026	Europe ex-UK Equity Advantage UCITS fund launched for UK model-portfolio buyers [S212]	The best 'what have you read about us' answer.

3.10 Controversies and failures, told straight

- 2023 reset.** Lazard cut about 10% of its workforce in 2023 [S131], booked about \$195m of restructuring costs [S100] and changed CEO from Ken Jacobs to Peter Orszag [S126].
- The flow drought.** −\$35.7bn in 2024 and −\$18.1bn in 2025 [S100]. LAM's 2024 letter blamed industry-wide active equity outflows and its own quality/value tilt [S115].
- Leadership churn.** Three LAM CEOs since 2022, a new COO and a new group CFO in 2026. A \$50.1m "senior management transition" charge in FY2025 [S100].
- Margin squeeze.** LAM's adjusted margin fell from 28.4% (2023) to 23.1% (2025). Firm comp ratio 69.9% in H1 2026 against a ≤60% target [S100][S101].
- Regulatory history.** A 1999 SEC settlement (\$11m, municipal bond markups) and a 2008 SEC case involved other Lazard entities, not LAM [S119]. No SEC or FCA enforcement action against LAM or LAML was found **Reported**. The FCA has issued warnings about *clone firms* impersonating Lazard [S119]: fraud against the brand, not by it.

DON'T SAY THIS

"LAM had a scandal" or anything you cannot source. Also avoid "Lazard Ltd" (it is Lazard, Inc. since 2024) and naming Evan Russo as CEO.

3.11 Where leadership says it is going, and what hiring implies

Orszag: "We expect to deliver positive net flows in 2026" [S140]. Hogbin expected to be "net flow positive for all of 2026" on a ~\$13bn won-but-unfunded pipeline [S113]. The author's reading of the hires **Inferred**:

- From federation to platform.** A first-ever CIO means more central challenge of portfolio managers and more house-view content.
- An AllianceBernstein-style operating model.** CEO and corporate development from AB, product from GSAM, COO from Morgan Stanley. Expect product rationalisation (Hogbin flagged strategies under \$100m [S113]), more vehicles and possibly bolt-on deals.
- A European active ETF is plausible but not announced.** Europe was named as the next ETF market [S113]; none had launched by 3 October 2026.
- AI and automation as a margin lever.** This is the JD's "automate marketing functions" line.

PART 4

Why the firm is built this way

Mechanism, not adjectives. Why an advisory firm owns an asset manager, how the teams connect, what clients actually buy, and how big the non-front-line side is.

4.1 Why an advisory firm owns an asset manager

The obvious alternative is a pure advisory boutique, like Evercore or PJT. Lazard instead runs two different businesses under one name. The 10-K gives the theory in one line: "We believe that the mix of our activities across business segments, geographic regions, industries and investment strategies helps to diversify and stabilize our revenue stream" [S322].

1. **Diversification.** M&A fees arrive in lumps when deals close. Asset management fees arrive every day on the value of assets [S322]. In H1 2026 Advisory revenue fell 7% while AM grew 20% [S320]. That is the theory working in one half-year.
2. **Capital-light economics.** Neither business needs a big balance sheet. Orszag: "given our relatively high return on invested capital ... more shareholder value will be created by our revenue growth than by expanding our normalized margin" [S325].
3. **Brand.** The name opens doors with sovereign funds and pension boards.
4. **Growth.** Lazard 2030 splits the revenue-doubling target "roughly evenly between Asset Management and Advisory" [S325].

Why the dual structure works, and what it costs

THE THEORY (benefits)

- ✓ **Diversified earnings**
Recurring AM fees offset the M&A cycle. H1 2026: AM +20%, Advisory -7%
- ✓ **Capital-light**
Both halves are people businesses with high return on capital
- ✓ **Brand**
'Over 175 years' of trust lends credibility in a pitch
- ✓ **Shared insight**
'Contextual alpha': macro and geopolitical thinking, never deal data
- ✓ **Specialist teams + one sales engine**
Teams keep their process; distribution is shared across 28 cities

THE PRICE (costs)

- ✗ **Few hard synergies**
M&A clients and EM equity buyers are different people
- ✗ **Conflicts and walls**
10-K flags conflicts and 'use or disclosure of confidential information'
- ✗ **Conglomerate discount**
Investors debated a split in 2018 (snippets only)
- ✗ **Concentration**
Top 10 clients = 24% of AUM; one exit cost \$16.8bn
- ✗ **Style risk**
Quality/value tilt goes out of favour in growth markets

Why the structure works and what it costs

Source: 10-K FY2025 [S322]; Q2 2026 [S320]; Lazard 2030 memo [S325]; 2018 split debate, Bloomberg, PAYWALLED-NOT-READ, snippet only [S333] [S334]; concentration [S322][S149].

SOURCE UNCERTAIN

The 2018 debate about splitting off asset management comes only from search snippets of two paywalled Bloomberg articles [S333][S334]. Current management is growing LAM, not selling it: AM is half of the 2030 target and a Head of Corporate Development was hired in July 2026 [S329]. Treat 'a split' as a recurring market debate, not policy.

4.2 How the teams work together, and where they do not

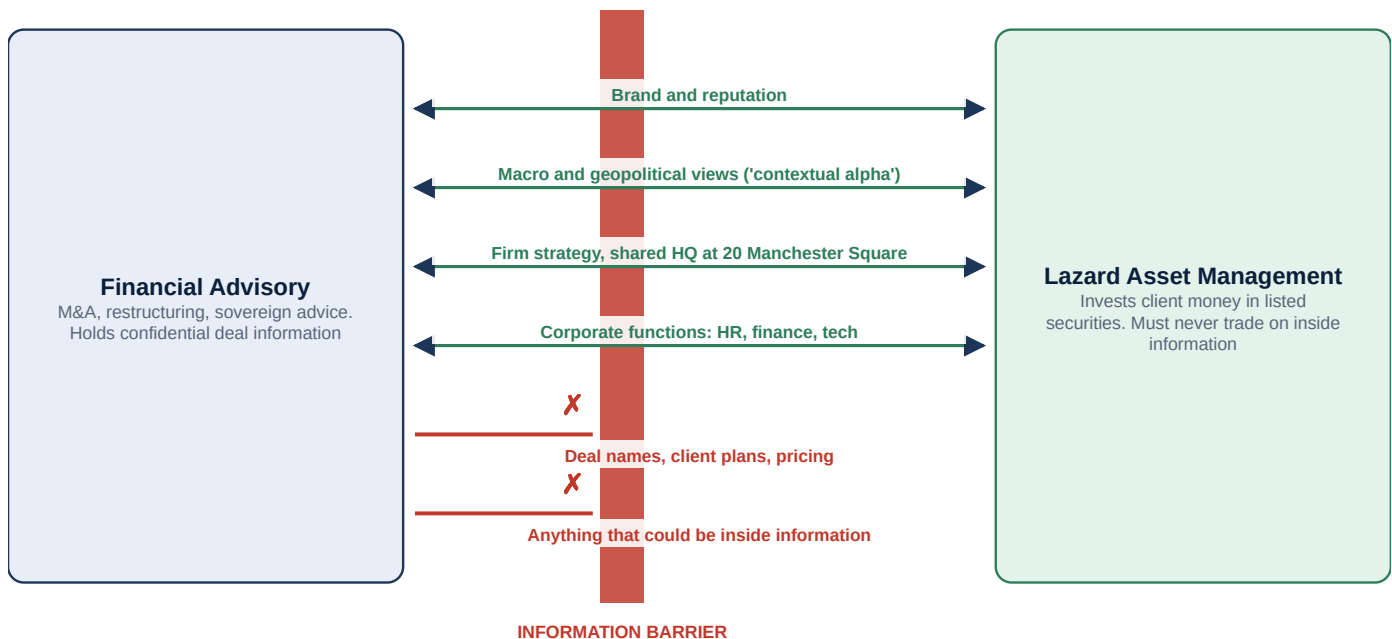

Read the firm's own wording precisely. Three sentences from the 10-K define the model:

- "Our investment teams construct and manage portfolios using various techniques and investment philosophies" [S322].
Many teams, many processes.

- "Marketing, sales and client service efforts are organized through a global market delivery and service network, with distribution professionals located in cities including ... London" [S322]. **One shared distribution engine.**
- The CIO role was "established to strengthen the cohesion, discipline, and effectiveness of LAM's global investment platform", while portfolio managers "remain responsible for the investment decisions in their portfolios" [S327]. **A light central layer since 2026.**

So collaboration lives in three places **Inferred** : (1) the distribution teams, who must understand every product and translate it for every channel; (2) the new CIO forum, where Hogbin says "fixed income investors should be able to help an equity investor" [S323]; and (3) global committees such as the Sales & Marketing Management Group [S136]. It does **not** live across the wall with Financial Advisory. The 10-K warns of "actual, potential and perceived conflicts of interest" including "the use or disclosure of confidential information" [S322].

The walls: what crosses between Lazard's businesses, and what never crosses

The walls

Source: Author's diagram **Inferred** . Conflict and confidential-information language from the 10-K [S322]; shared building [S188]; UK MAR on unlawful disclosure [S422]. The 10-K uses 'conflicts' and 'confidential information' rather than the phrase 'information barrier' [S322].

SAY THIS IN THE INTERVIEW

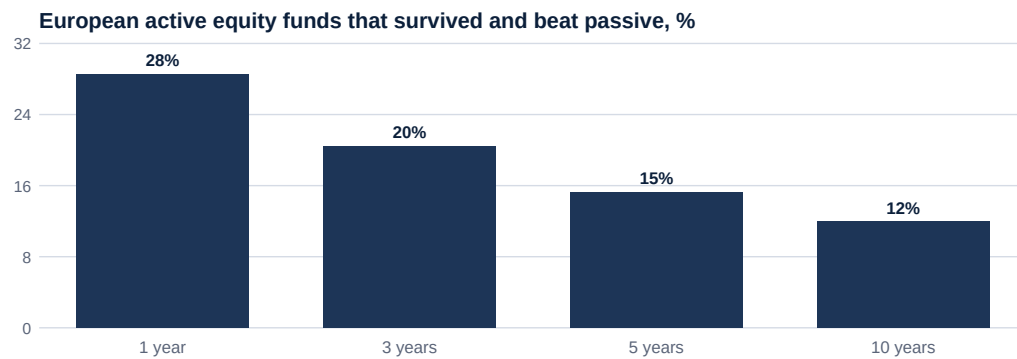

"LAM is many specialist investment teams with one shared sales and marketing engine. That's why the internship rotates across six departments: the same product has to be explained differently to a consultant, a pension fund and a wealth manager."

4.3 What customers actually buy, and why they pay

What they buy. Active, specialist exposure that is hard to get cheaply: EM equity, listed infrastructure, international equity, quant, convertibles. The 10-K: "we compete based on the quality and breadth of our products and innovative solutions we offer, which are derived from our objectivity, differentiated insights and fundamental research orientation" [S100]. Orszag: active management has most value "where information is imperfect" [S323].

Why they accept ~45 bps. Three reasons **Inferred** : the chance of beating the market in less efficient areas; diversification away from US mega-caps; and service, customisation and a stable institutional counterparty. Hogbin's evidence: "68% of AUM ... outperforming their stated benchmarks over five years" [S202].

The counter-case, with numbers.

The case against paying for active

Source: Morningstar European Active/Passive Barometer, H1 2026, via ETF Express [S363]. Also: 79% of US active large-cap funds lagged the S&P 500 in 2025 [S361]; 90% of UK equity funds missed benchmarks in SPIVA Europe year-end 2025 (snippet) [S362].

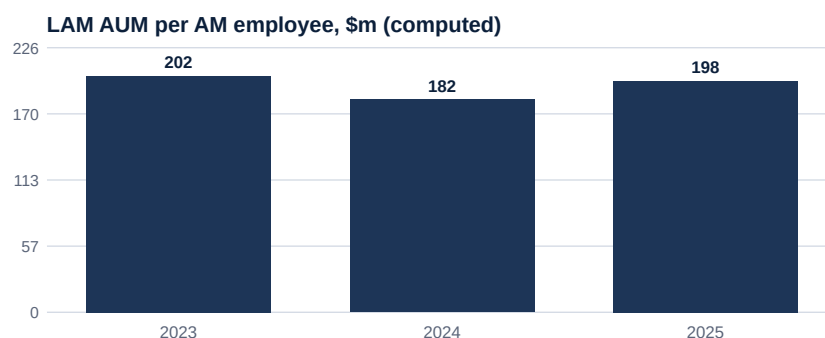

Side	Argument	Numbers
Against active	Most active funds lose to cheap index funds over time	10-yr European active equity success rate 11.9% [S363]; 79% of US large-cap lagged in 2025 [S361]
Against active	Fees are a big driver of failure	'Fees continue to be one of the biggest determinants of success' [S363]
For LAM's kind of active	Odds are better in less efficient areas	Only 31% of US EM debt funds lagged in 2025 [S361]; bonds 46.8% 1-yr success [S363]
For LAM	Its own record	68% of AUM ahead of benchmark over 5 years (company figure) [S202]; GLI Australian fund 10.6% p.a. vs 8.4% since 2005 [S80]
For LAM	Clients are reallocating	Record Q1 2026 inflows from clients diversifying into international and EM [S54]

YOUR OPINION GOES HERE

Write your own line here. One defensible version: *"I accept that most active funds don't beat the index after fees. That is exactly why I'd rather sell a strategy with a specific edge, in a market where information is imperfect, at a fee that leaves the client something. LAM's growth this year has come from exactly those areas."*

4.4 The non-front-line side

At 31 December 2025 Lazard had 3,309 staff: Financial Advisory 1,574, Asset Management 1,284 and Corporate 451 [S100]. LAM's 1,284 includes investment, distribution and operations people; the split is **not disclosed**. The US adviser alone reports 532 employees, 240 in investment advisory functions [S56]. That suggests roughly half of a typical LAM entity is not managing money **Inferred**.

Size against staffing over time

Source: Year-end AUM ÷ AM headcount (MDs + other staff): 2023 \$246.7bn/1,221; 2024 \$226.3bn/1,241; 2025 \$254.3bn/1,284 [S100][S105] (computed). Headcount grew every year even as AUM fell in 2024. Peer headcounts were not retrieved, so no peer comparison is shown.

How the centre is wired to the front line, in the firm's own posting language:

- An AUM Reporting Analyst builds "dashboards, trend analysis, and management information covering flows, revenue and business performance by strategy, channel and geography" for "Senior Management, Distribution, Product" [S159].
- Investment Compliance "advises investment, distribution, and operations colleagues on regulatory obligations" [S160].
- Global marketing has "Design, Digital, Financial Writing, Channel Marketing, and Data & Operations" teams that "work together", with "partners in Germany, Japan, Hong Kong, and Australia" [S155].
- An internal sales desk manager must "leverage CRM data to prioritize market opportunities based on revenue potential" and work with "Product, Marketing, National Accounts, and Compliance" [S156].

PART 5

The role decoded and the team mapped

Every JD line translated into day-to-day reality, the six departments explained, the London team reconstructed, and what the seat is judged on.

Req 6673

posted 29 Sep 2026 [S152]

22 Oct 2026

posting end date (end of day UK) [S152]

6 weeks

June to August 2027, London, hybrid [S152]

14

named London client-facing staff [S174]

SOURCE UNCERTAIN

Deadline conflict. The live Oracle posting shows an end date of 22 Oct 2026 [S152]. Lazard's Financial Advisory intern window closes 4 Oct 2026, and one Bright Network snippet shows the same 4 Oct date for this programme [S281][S301]. Review is rolling [S280]. **Apply now; do not wait for 22 October.** Questions: LAMUKRecruiting@lazard.com [S280].

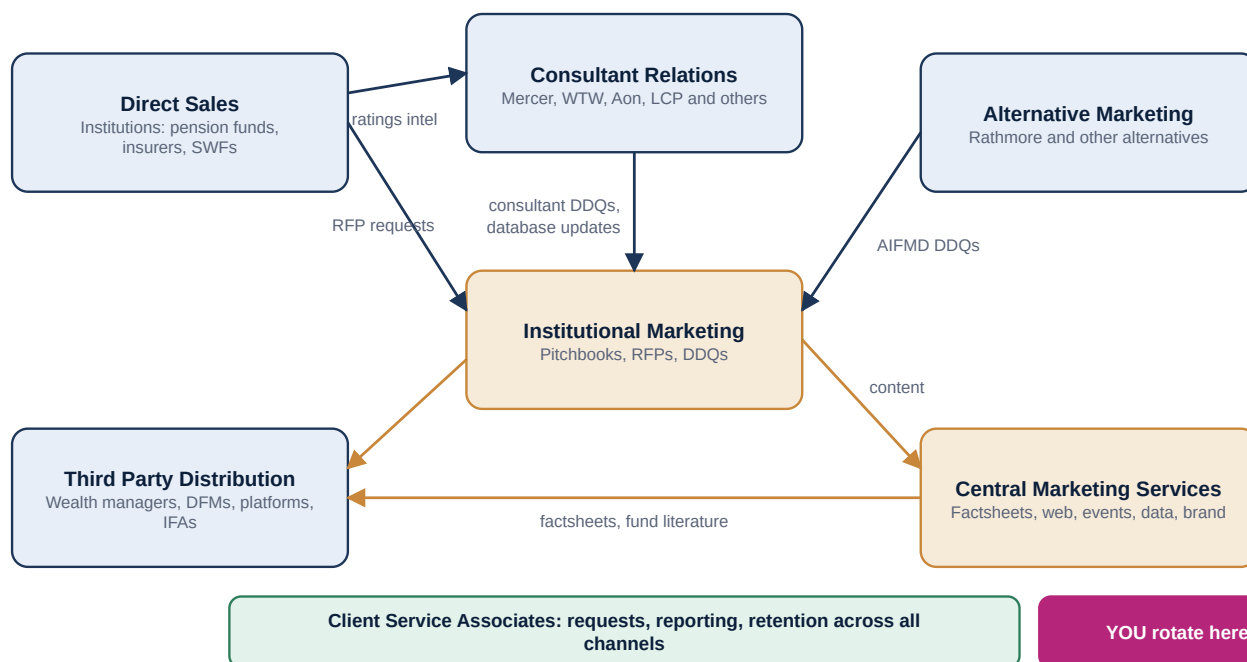

Three facts reframe the job. First, the eight duties are a **global LAM template**: they match the New York Institutional Client Group internship almost word for word [S154]. Second, London has only one live Asset Management sales or marketing posting: this internship [S150]. It is the main door in. Third, LAM's own website documents an intern who joined in 2020, rotated as a Sales & Marketing Associate and is now a VP [S174].

5.1 The JD, line by line

JD line	What it means day to day	Counterparts	What good looks like	Tools	What it reveals
Work with marketers to understand LAM's client base and products	Learning the shelf: nine UK OEICs, Irish UCITS, segregated mandates, quant and infrastructure strategies [S193] [S174]	Product specialists, marketers, CSAs	Within a week you can explain each flagship in one sentence	Factsheets, fund site, Morningstar	~82% of AUM is institutional/intermediary [S183]
Research major industry trends to drive sales channel business	Turning trade press and flow data into 'where is money moving and do we have a product for it?'	Channel heads	A two-page brief: three trends, evidence, product implication	IA flow data, Citywire, consultant research	10-K names active ETFs and wealth as 'new vectors of growth' [S183]
Prioritise extensive prospect lists	Scoring long lists (DB/DC schemes, LGPS pools, insurers, DFMs, platforms) on fit, access, timing	Matt Craddock's institutional team, Tony Maddock's RSMS [S174]	A ranked, defensible list with a transparent scoring model	Salesforce (US confirmed [S156]), eVestment Inferred , Excel	Access runs through consultants: a named 10-K risk [S183]
Work alongside CSAs on client requests	Performance to a date, holdings, fees, ESG data, meeting packs	Client Service Associates (an experienced title at LAM) [S174]	Fast, accurate, compliance-checked, with an audit trail	Performance systems, CRM	LAM London's institutions team covers UK, Ireland, Benelux, Nordics, Middle East [S174]
Analysis with internal and external tools to develop relationships	Pre-meeting client briefs; share-of-wallet; cross-sell ideas	Salespeople	A one-page brief readable in a taxi	Bloomberg, FactSet, Morningstar [S166] [S164]	Retention matters: contracts end on 30 days' notice [S100]
Update quarter-end presentations	Refreshing performance, attribution and commentary in every pitchbook after quarter-end	Product specialists, performance team, compliance	Zero numeric errors, consistent disclosures, on time	PowerPoint, Excel links	'Robust Marketing review and sign off policies' [S136]
Automate marketing functions	Macros, Power Query, Python, templated RFP answers	Marketing ops, IT	A documented tool that saves hours and keeps controls	Excel/VBA, Power BI, Python, Workfront [S155][S159]	A group-wide AI and automation push [S163][S185]
Competitive analysis, qualitative and quantitative	Peer tables on returns, risk, fees, flows, team stability, messaging	Product, marketing	A table plus a 'so what' for the sales message	Morningstar Direct, FE fundinfo, eVestment Inferred	LAM's Assessment of Value already benchmarks each fund against passive and two peer groups [S193]

5.2 The six departments

The six Sales & Marketing departments and what flows between them

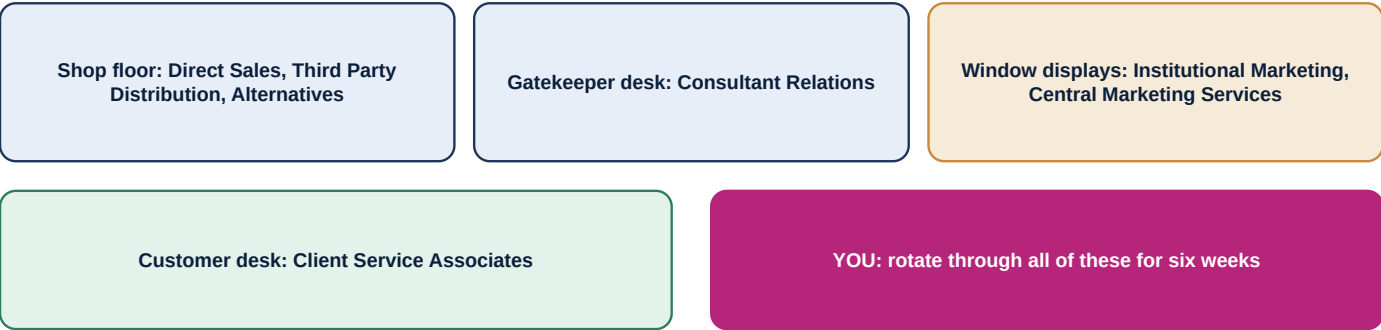

The role's team and what flows between its parts

Source: Department names from the JD [S152]; content from LAM UK contact page [S174], NY marketing posting [S155], LFG RFP posting [S162]. Flows are the author's reconstruction **Inferred**.

Department	What the work is	Outputs	Who it serves	LAM London evidence
Third Party Distribution	Selling pooled funds to wealth managers, DFMs, platforms, IFAs, multi-managers	Fund-buyer meetings, buy-list and platform listings	Professional intermediaries; end investors often retail	Tony Maddock, Head of UK TPD; four regional sales managers by territory; a sales support desk [S174] Confirmed
Institutional Marketing	Pitchbooks, RFP and DDQ answers, finals presentations	RFPs, DDQs, decks, database updates	Pension funds, insurers, SWFs and their consultants	No named London lead found Reported . Paris sister firm runs a 4-person RFP team using Qvidian [S162]
Direct Sales	Winning and keeping institutional mandates directly	New mandates, reviews, retention	DB/DC schemes, LGPS pools, insurers, SWFs	Mohit Pandya, Head of Institutions; Matt Craddock, Head of UK Institutional Sales [S174] Confirmed
Consultant Relations	Keeping consultants' researchers informed; defending ratings	Meetings, ratings, database data	Investment consultants	Global head Keith Wosneski (NY, ex-Man Group, Aug 2025) [S180]; London lead not public
Alternative Marketing	Raising and servicing money for hedge-fund style strategies	Fundraising, investor reporting, AIFMD DDQs	Professional investors only	Alternative Investments Distribution: three people; Rathmore [S174] Confirmed
Central Marketing Services	The shared marketing engine	Factsheets, website, campaigns, events, brand, data	All channels	Global model: Design, Digital, Financial Writing, Channel Marketing, Data & Operations [S155]

Your team on the shop map

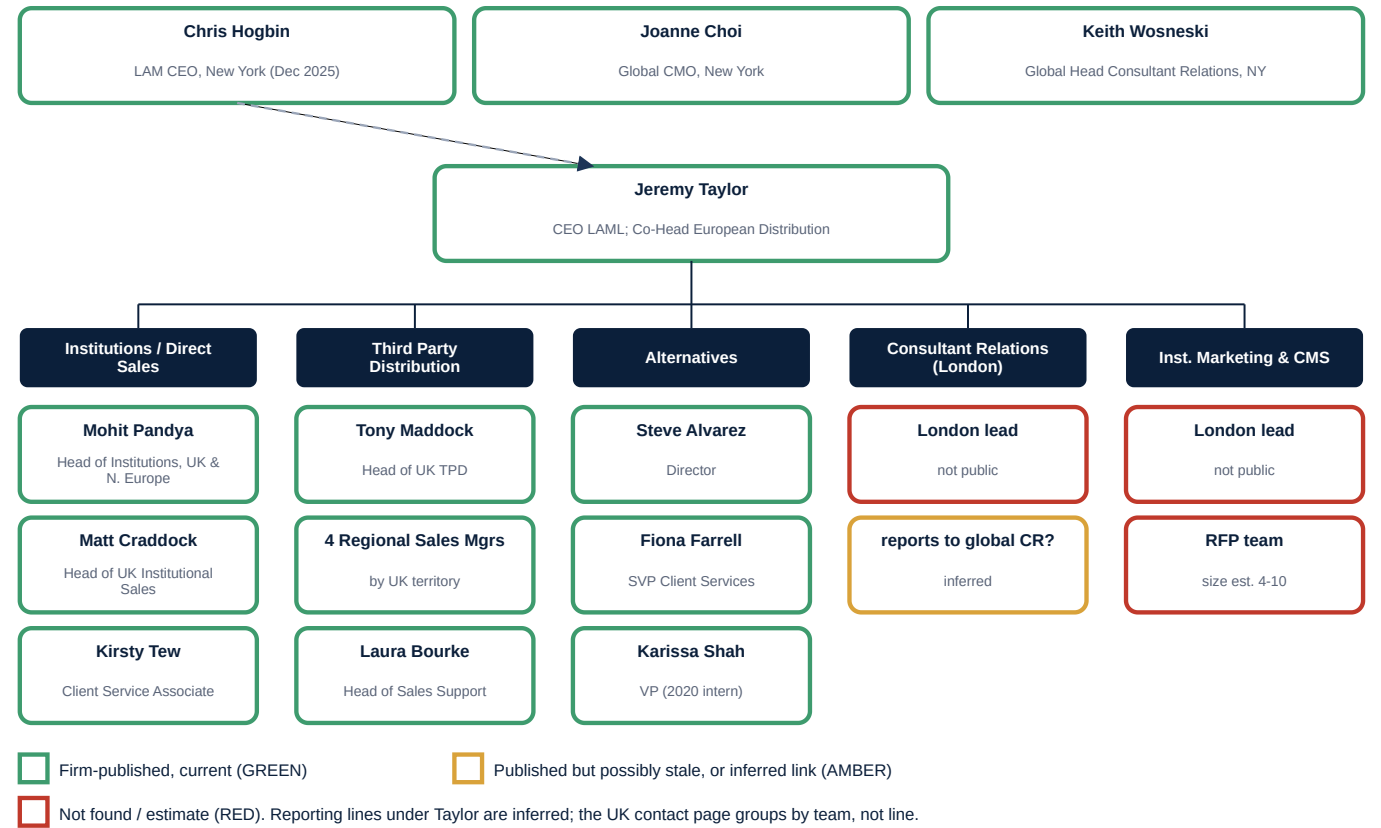

The role's team mapped onto the shop

Source: Author's analogy **Inferred** . Teams from the JD [S152] and LAM UK contact page [S174].

5.3 The team, reconstructed

Reconstructed London Sales & Marketing org chart, colour-coded by confidence

Reconstructed org chart

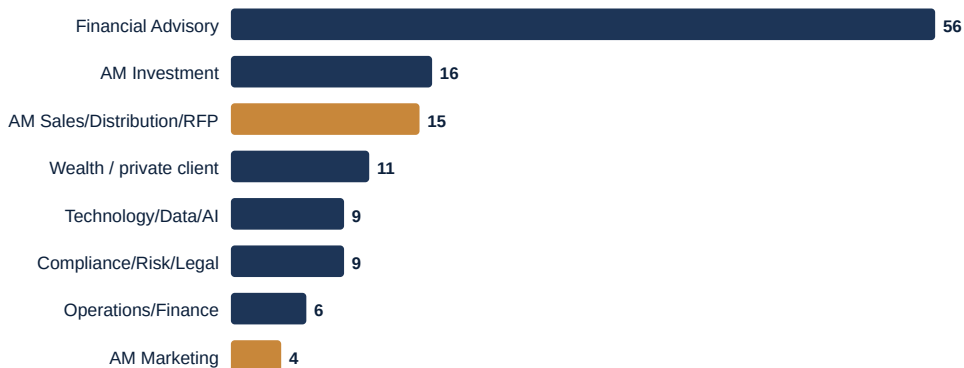

Source: LAM 'Our People' [S175]; Jeremy Taylor bio [S176]; LAM UK contact page (undated, may lag departures) [S174]; Companies House [S186]; Wosneski [S180]. Reporting lines below Taylor inferred.

Headcount estimate. Hard lower bound: 14 named client-facing staff on the UK contact page [S174]. Context: Jeremy Taylor said in 2020 "We have 130 people in the London office" [S387]; LAML averaged 129 staff in 2024 [S133]. **Estimate: 30 to 60 people across the six S&M departments** in London **Inferred** . Method: 14 named front-office staff plus support (marketing, RFP, consultant relations, juniors) at typical industry ratios. LAM's Paris sister firm has a 10-person marketing team and a 4-person RFP team [S162][S164], a useful floor. Thin evidence; verify on LinkedIn.

How the work splits. By channel (institutional vs third party vs alternatives), by region (UK; Ireland, Benelux, Nordics, Middle East from London [S174]), by UK territory for wholesale (four RSMs), and by seniority (head, SVP/VP, associate, junior).

Where the team sits. Under Jeremy Taylor, CEO of LAM's London entity, Co-Head of European Distribution and Co-CEO Europe [S176]. LAM has no single global head of distribution; it is run regionally [S175]. Global marketing reports to CMO Joanne Choi in New York [S175].

What Lazard is hiring for: 126 live postings by department, 3 Oct 2026

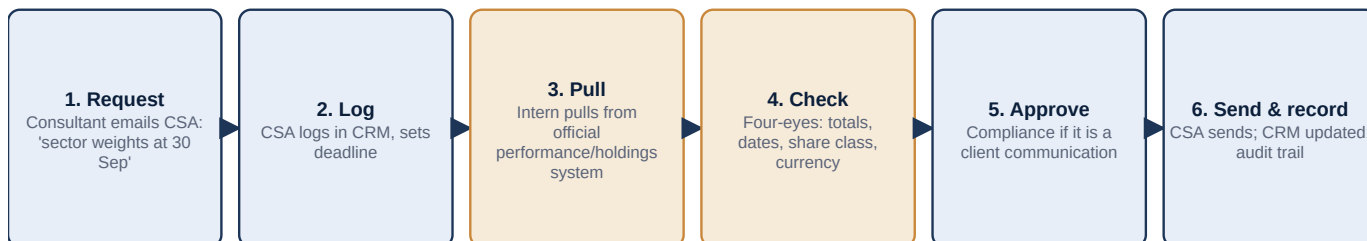

What the firm is hiring for

Source: Oracle Recruiting Cloud API, all 126 live Lazard requisitions on 3 Oct 2026, classified by title by the researcher [S150][S151]. Paris AM roles are mostly Lazard Frères Gestion. By city: Paris 58, New York 35, London 10, other 23.

Benchmark. Peer team sizes were not verified. Most similar London active managers use the same split: regional wholesale sales, an internal desk, institutional coverage, a separate consultant relations team, an RFP team and central marketing **Inferred**. LAM's four-RSM wholesale team is compact, consistent with a nine-fund UK OEIC range [S193].

5.4 Life of a request and the value chain

The life of a client request through the team

Steps 3-4 are usually yours. Steps 5-6 are why speed never beats accuracy.

The life of a request

Source: Author's process map **Inferred**, consistent with LAM postings: Brussels intern 'sending specific documents from our tools (performance attribution, holdings...)' [S161]; desk manager role to ensure activity is 'documented appropriately ... in line with firm policies, compliance requirements' [S156].

The role's value chain: from internal demand to outcome

Interns mostly work the first three links (orange). They feed the last three.

The role's value chain

Source: Author's synthesis **Inferred** of the JD duties [S152] and LAM's 'won-but-not-funded' pipeline language [S185].

5.5 A worked day

A worked day in the seat (illustrative)

08:00	Read Citywire, FT, IPE; note 3 items for LAM strategies	Self
09:00	Refresh Q3 numbers in two pitchbooks; flag for compliance	Inst. Marketing
10:30	Holdings breakdown for a Nordic pension client, with a CSA	Institutions
11:30	Score 150 UK DB schemes by size, consultant, EM allocation	Direct Sales
12:30	Lunch with mentor	Mentor
13:30	Shadow a fund-buyer call; write CRM notes	Third Party Dist.
14:30	Peer table: fund vs IA sector on 1/3/5y, OCF, flows	Marketing
16:00	Build a Power Query tool to merge CRM export and prospect list	Marketing ops
17:00	Project: interview a product specialist	Project
18:00	Daily wrap to mentor	Self

A worked day in the seat

Source: Illustrative **Inferred** . Tasks are the JD's [S152]; tools from LAM postings [S155][S159].

5.6 What the team is judged on

- **Net flows** by strategy, channel and geography, the exact cut in LAM's AUM reporting role [S159].
- **Pipeline**: meetings, finals and won-but-not-funded mandates [S185].
- **Retention**: outflows avoided. FY2025 had \$63.2bn gross in but \$81.3bn out [S183].
- **Consultant ratings and RFP win rate**: "poor reviews ... could materially reduce our revenue" [S183].
- **Gross and net sales targets**, as in US distribution postings [S158].

5.7 The control dimension

Bright line	Rule behind it	What to say unprompted
Every client-facing number and claim is approved before use	COBS 4.2.1R 'fair, clear and not misleading' [S240]; LAML's marketing sign-off policy [S136]	'I'd never send a figure that hasn't come from the official source and been through review.'
Past performance is shown in the standard way	COBS 4.6.2R: not the most prominent feature; five years or since launch; complete 12-month periods; warning that past performance is not a reliable indicator [S420]	'I'd use the standard periods, not the flattering ones.'
Retail and professional audiences get different material	COBS 4.2 takes 'into account the nature of the client' [S194]; Consumer Duty for retail outcomes [S241]	'I'd check who the audience is before I send anything.'
Nothing heard about Advisory clients reaches AM	UK MAR Art. 10 unlawful disclosure [S422]; 10-K conflicts language [S322]	'If I heard deal information I'd tell compliance and nobody else.'
Prospect data must be lawful	ICO: no marketing emails to individuals without consent; companies may be emailed, keep opt-out lists [S423]	'I'd build lists from the CRM and public sources, not from someone's spreadsheet.'
Gifts and hospitality are declared	COBS 2.3A inducements; minor non-monetary benefits [S421]; LAM London compliance covers 'gifts and entertainment' [S165]	'I'd check the policy and declare it.'
ESG claims must be provable	FCA anti-greenwashing rule since 31 May 2024 [S245]	'I'd describe what we do with evidence, not adjectives.'

5.8 Career path

The posting says: "We are extremely proud of our track record in developing our interns to be successful long-term members of our team and hope to offer this year's candidates the opportunity to join us after their studies" [S152]. A documented path: Karissa Shah, 2020 intern, then a Sales and Marketing Associate "rotating across several teams internally", then Alternative Investments Distribution in 2022, now VP [S174]. Typical ladder: associate, AVP, VP, SVP, director, MD [S174] **Inferred**. A Bright Network snippet says permanent joiners "rotate through various teams to eventually become a client-facing salesperson after a few years" [S171] **Reported**.

Realistic intern projects for the senior-management panel **Inferred**

1. Should LAM bring an active UCITS ETF range to UK wholesale? Which strategies, which buyers, which competitors?
Builds on 11 US active ETFs [S62].
2. Who decides now? A prospect map of the six LGPS pools and £25bn+ DC master trusts, mapped to LAM strategies [S15] [S223].
3. Competitor disruption watch: strategies at Schroders and Janus Henderson that overlap LAM's after their ownership changes [S17][S348].
4. Automating the quarter-end factsheet refresh with controls, measured in hours saved.
5. CCI readiness: rewriting UK fund literature before 8 June 2027 [S244].

PART 6

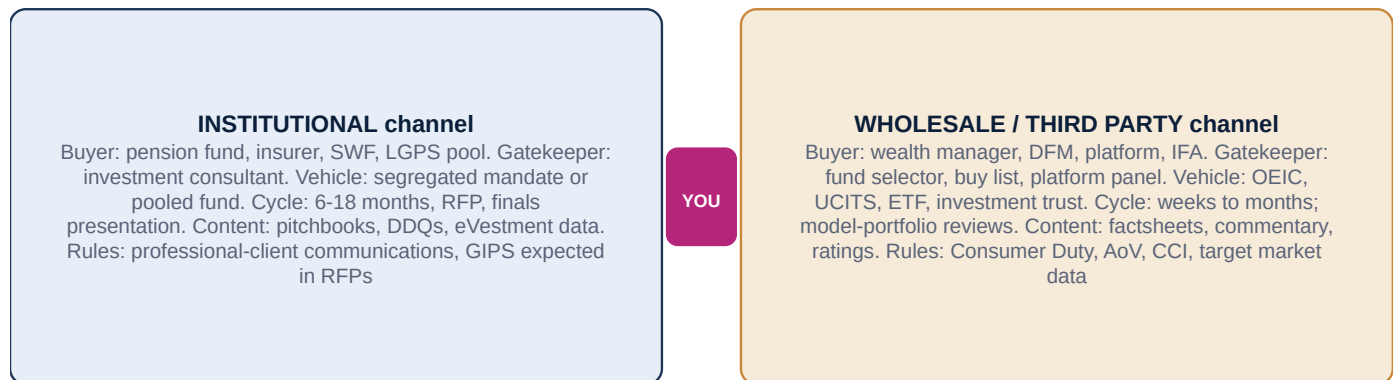

The role's own world and its regulation

How asset management sales and marketing works, who the gatekeepers are, and the exact rules that bind every deck, email and prospect list.

6.1 How distribution works

Asset managers rarely sell straight to savers. They sell through gatekeepers. That is why a third of the JD's departments are about gatekeepers rather than end clients.

Two channels through which the role's work reaches clients

The two channels

Source: Author's synthesis **Inferred** from the IA [S2], BCG [S4], CMA [S256], GIPS [S257], FCA Consumer Duty [S241], AoV [S242] and CCI [S244].

Institutional cycle. Prospecting, then an RFI or RFP (a formal questionnaire), then a shortlist and finals presentation with the portfolio manager, then the investment management agreement, onboarding and quarterly reviews. RFPs commonly ask whether the firm claims GIPS compliance [S257].

Consultants are the gatekeepers. In the UK, Aon, Mercer and WTW held about 45-49% of pension investment consultancy revenue in the competition authority's study [S256] (2018 data). Since the CMA Order (fully in force 10 December 2019) trustees must set objectives for their consultants, and since October 2022 the Pensions Regulator polices that [S255]. Consultants are now judged too, so they demand more evidence from managers.

Wholesale is concentrating. BCG: "Distribution now determines who captures flows" [S4]. Fund selectors at wealth managers increasingly buy for model portfolios; LAM's 30 September 2026 launch was pitched explicitly at "portfolio builders and model portfolio service providers" [S212].

6.2 What internal and external clients value now

- **Consultants and asset owners** assess philosophy and process, team stability, risk management, consistency with the stated style, fees, operations and ESG integration **Reported** [S260].
- **UK DB schemes** are de-risking: LDI, credit, buy-out readiness [S2].
- **DC megafunds and LGPS pools** want scale, low cost and private-markets access [S14][S15][S16].
- **Wealth fund selectors** (Natixis survey of 520 selectors): 92% plan to increase or maintain private credit; 58% already use AI tools [S19].
- **Internal clients** (salespeople, PMS) value speed, accuracy and a 'so what'. The US desk manager posting asks for CRM data used "to prioritize market opportunities based on revenue potential" [S156].

6.3 The rules, in plain English

Rule	What it says	What it means for you
COBS 4.2.1R: fair, clear and not misleading	'A firm must ensure that a communication or a financial promotion is fair, clear and not misleading' [S240]	Every factsheet, deck, post and email is checked. Balance benefits with risks.
COBS 4.6.2R: past performance	Not the most prominent feature; preceding five years or since launch; complete 12-month periods; source and period stated; 'past performance is not a reliable indicator' warning; currency warning [S420]	No cherry-picked periods. Standard tables only.
Consumer Duty (PS22/9)	'Act to deliver good outcomes for retail customers'. Four outcomes: products and services, price and value, consumer understanding, consumer support. Open products 31 Jul 2023; closed 31 Jul 2024 [S241]	Applies through the distribution chain. Fund literature must be understandable; value must be justified.
Assessment of Value (COLL 6.6.20R)	Fund managers must assess 'at least annually, whether fees can be justified in the context of the overall value delivered'. FCA: 'Poor value can arise in funds despite positive investment returns' [S242]	LAM's 2025 AoV found 'all funds offered value' across nine UK funds [S193].
CCI (PS25/20)	Replaces PRIIPs KIDs and UCITS KIIDs with a single UK 'product summary'. Optional from 6 Apr 2026; 'The full regime ... will come into force on 8 June 2027' [S244]	Live project for Central Marketing Services right now.
SDR and anti-greenwashing	Anti-greenwashing rule since 31 May 2024; four voluntary labels; naming and marketing rules from 2 Dec 2024 [S245][S246][S247]	Any ESG claim must be provable.
Inducements (COBS 2.3A)	Payments and benefits to and from third parties are restricted; minor non-monetary benefits must be disclosed [S421]	Hospitality for consultants or fund selectors goes through policy.
UK MAR Art. 10	Unlawful disclosure of inside information: passing it on outside 'the normal exercise of an employment, a profession or duties' [S422]	Never pass on anything heard about Advisory clients.
PECR (ICO)	No marketing emails to individuals without consent (limited 'soft opt-in'); companies may be emailed; keep a 'do not email' list [S423]	Prospect lists must be clean.
Targeted support (PS25/22)	Firms can give 'ready-made suggestions tailored to defined consumer segments' without full advice. Live 6 Apr 2026 [S251]	Platforms will build ready-made menus. Being on them matters.
SM&CR (PS26/6)	Individual accountability; reforms from 22 Apr 2026 cut overlapping certification [S252]	Conduct rules apply to almost everyone, including you.
EU SFDR 2.0 (proposal)	Three categories: Sustainable, Transition, ESG Basics; Council position 24 Jun 2026; Parliament pending [S249][S250]	LAM's Irish UCITS are sold in the EU, so marketing must satisfy both regimes.

SAY THIS IN THE INTERVIEW

"The rule I'd keep in my head on every quarter-end deck is COBS 4: fair, clear and not misleading, with past performance shown over the standard periods. And the live project in UK fund marketing right now is CCI: the KIID is replaced by a new product summary, mandatory from 8 June 2027."

Regulation timeline for asset management sales and marketing (UK and EU)

2012-13	● RDR bans adviser commission in the UK (background)
3 Jan 2018	● MiFID II: product governance, inducement limits (background)
2019	● Assessment of Value (COLL 6.6.20R) applies; date from background
10 Dec 2019	● CMA investment consultancy Order fully in force
2 Aug 2021	● EU cross-border distribution rules: pre-marketing, reverse solicitation
31 Jul 2023	● Consumer Duty applies to open products
28 Nov 2023	● SDR and investment labels (PS23/16)
31 May 2024	● Anti-greenwashing rule in force
31 Jul 2024	● Consumer Duty applies to closed products
30 Sep 2024	● Overseas Funds Regime gateway opens
2 Dec 2024	● SDR naming and marketing rules (flex to 2 Apr 2025)
13 May 2025	● Mansion House Accord: 10% of DC defaults to private markets by 2030
8 Dec 2025	● CCI final rules (PS25/20); 18-month transition starts
6 Apr 2026	● CCI optional; targeted support goes live
22 Apr 2026	● SM&CR reforms (PS26/6)
29 Apr 2026	● Pension Schemes Act 2026: £25bn DC megafunds by 2030
30 Apr 2026	● Fund tokenisation rules (PS26/7)
24 Jun 2026	● EU Council position on SFDR 2.0
2 Dec 2026	● SDR entity-level disclosure for firms over £5bn (snippet)
6 Apr 2027	● Cash ISA limit £12,000 for under-65s
8 Jun 2027	● CCI mandatory: KIIDs and KIDs retired

Regulation timeline

Source: FCA: Consumer Duty [S241], AoV [S242], CCI [S244], SDR [S245][S246][S247], targeted support [S251], SM&CR [S252], OFR [S253], tokenisation [S229]; CMA Order [S255]; EU distribution [S258]; SFDR 2.0 [S249]; Mansion House Accord [S14]; Pension Schemes Act [S15]; ISA [S20]; SDR entity date [S232] (snippet). Items marked 'background' are not re-verified this session.

DON'T SAY THIS

"The KIID is still the document for UK funds forever" or "SDR labels are mandatory". KIIDs are being replaced by CCI product summaries by 8 June 2027 [S244]. SDR labels are voluntary; the anti-greenwashing rule is not [S245].

6.4 The supplier and channel map

Layer	Examples	Why the intern should care
Investment consultants	Mercer, WTW, Aon, LCP, Isio, Hymans Robertson, Redington [S256]	Consultant Relations exists for them
Manager databases	eVestment, Morningstar, consultants' own databases Inferred	Data must be on time and match official figures
Platforms	Hargreaves Lansdown (Wealth Shortlist includes a Lazard fund) [S83]	Third Party Distribution's shelf space
Ratings	FundCalibre Elite (Global Equity Franchise) [S84]; Morningstar	Ratings move flows

Layer	Examples	Why the intern should care
Flow data	Investment Association monthly statistics [S12]; Calastone	The first slide of any wholesale meeting
CRM and content tech	Salesforce (US confirmed [S156]); Qvidian at the Paris sister firm [S162]; Workfront and Jira in NY marketing [S155]	What you would automate

PART 7

What is happening right now

Eleven stories from April to October 2026, a markets briefing in plain English, and the reading list to keep you current.

SOURCE UNCERTAIN

2026 is an unusual year. Several macro facts below (the Middle East war, the Hormuz closure, the change of Prime Minister) were researched from fetched pages but some details are search-snippet only. The new Chancellor's identity is unverified [S239]. Re-check the morning of any interview.

7.1 The stories

1. LAM posts its best first-half inflows in nearly 20 years

Lazard Q2 2026 results, 23 Jul 2026 [S200]

WHAT	H1 net inflows \$7.4bn; AUM a record \$285bn; LAM revenue +23% in Q2. But Q2 alone was −\$1.6bn and August −\$1.8bn [S201].
FOR LAM	The turnaround the firm promised, but flows are lumpy and three-quarters of AUM is equity.
FOR S&M	Flows are the distribution scorecard. Management says the won-but-not-funded pipeline is higher than at end-2025 [S202].
ASK	<i>"Is the Q2 and August softness lumpy institutional redemptions, or something structural?"</i>

2. Hogbin rebuilds the leadership bench

Lazard.com and AdvisorHub, 27 Jul 2026 [S210][S209]; Bloomberg 8 Jul 2026 PAYWALLED-NOT-READ [S208]

WHAT	First CIO, a new COO, a Head of AI, a Head of Product (ex-GSAM) and a Head of Corporate Development (ex-AB).
FOR LAM	New product and deal capacity: more launches, possible bolt-ons. AdvisorHub: positioned 'for expansion in fixed-income and alternative strategies' [S209].
FOR S&M	A busier launch calendar for distribution; AI 'across research, portfolio construction, and client servicing' [S202].
ASK	<i>"Does the new Head of Product point to new vehicles in Europe, such as active UCITS ETFs?"</i>

3. Lazard launches Europe ex-UK Equity Advantage

Trustnet, 30 Sep 2026 [S212]

WHAT	A quant UCITS fund from a team running \$50.9bn. Tony Maddock: 'designed to target three outcomes: consistency of relative returns, controlled risk and a predictable style profile.'
FOR LAM	The fastest-growing part of LAM (quant more than doubled to ~\$50bn in a year [S202]) extends to European equities.
FOR S&M	Third Party Distribution is a JD department, and the named buyers are model-portfolio providers.
ASK	<i>"Invesco launched enhanced-equity active ETFs the same day. Why a UCITS fund rather than an ETF wrapper for MPS buyers?"</i>

4. Lazard agrees to buy Campbell Lutyens for \$575m

Banking Dive, 30 Apr 2026 [S206]

WHAT	A London-founded private capital adviser; with Lazard's team it forms 'Lazard CL', a third business, ~\$500m 2027 revenue.
FOR LAM	Advisory side, not LAM, but it deepens Lazard's ties to private-markets managers and investors.
FOR S&M	Possible relevance to Alternative Marketing, within conflict rules.
ASK	<i>"Does LAM's alternatives team benefit from Lazard CL's relationships, or is that walled off?"</i>

5. Nuveen completes the Schroders takeover

Citybiz (company release), 1 Oct 2026 [S214]

WHAT	The UK's largest listed fund manager is now part of a ~\$2.6tn US group. Janus Henderson went private on 30 Jun 2026 [S348].
FOR LAM	Raises the scale bar; may disrupt rivals' client relationships.
FOR S&M	Consultants often review managers after mergers: an opening for Consultant Relations.
ASK	<i>"Is there a window to pitch LAM to UK consultants as the focused, independent active alternative in EM and international equity?"</i>

6. European active ETFs break their annual inflow record

QuotedData, 18 Sep 2026 [S217]

WHAT	\$33.9bn in eight months to August, above all of 2025. Active is still ~3.4% of European ETF assets vs ~12.5% in the US [S218] (snippet).
FOR LAM	LAM has 11 US active ETFs [S62] but no European ETF found.
FOR S&M	Platforms and model portfolios want ETFs; marketing shifts to data and digital.
ASK	<i>"What would LAM need to bring its US active ETF success to Europe?"</i>

7. UK retail flows: trackers and bonds in, active equity out

IFA Magazine on IA data, 1 Oct 2026 [S219]

WHAT	August: +£894m, tenth positive month; trackers +£1.6bn, active -£707m; Strategic Bond top sector; Global EM ~+£250m.
FOR LAM	Active sells where LAM is strong: bonds, systematic, EM.
FOR S&M	The first question in a wholesale meeting is 'where is the money going?'
ASK	<i>"Is the best way to sell active equity to UK wholesale now as a quant, risk-controlled building block?"</i>

8. Pension Schemes Act 2026 and the LGPS six pools

UK Parliament (snippet) [S222]; PensionPlain [S223]; City AM 15 May 2026 [S225]

WHAT	Royal Assent 29 Apr 2026: £25bn DC megafunds by 2030; a watered-down mandation power. LGPS down to six pools; full pooling around autumn 2027.
FOR LAM	Fewer, bigger, more professional buyers. More fee pressure.
FOR S&M	Prospect lists shrink from hundreds of trustee boards to a few dozen decision-makers.
ASK	<i>"Is LAM pitching LGPS pools directly or mainly through their consultants?"</i>

9. FCA retail reforms: targeted support, CCI, tokenisation

FCA, 11 Dec 2025 and 30 Apr 2026 [S228][S229]; Eversheds on CP26/24 [S230]

WHAT	Targeted support live 6 Apr 2026 (FCA: '18 million people' could benefit). Fund tokenisation rules took effect immediately. A July 2026 consultation proposes simpler cost disclosures.
FOR LAM	Pushes UK savers from cash into funds, mostly through platform menus.
FOR S&M	Being in the ready-made portfolios matters; CCI rewrites fund literature.
ASK	<i>"How does a mid-sized active manager get into the ready-made portfolios platforms build for targeted support?"</i>

10. The energy shock: Fed hikes, BoE holds 6-3

Bank of England, 17 Sep 2026 [S233]; JPM AM on the FOMC [S235]; World Bank 28 Apr 2026 [S238]

WHAT	War in the Middle East; Strait of Hormuz closed in March. Fed raised to 3.75-4.00%; BoE held at 3.75% with three votes to hike; UK CPI 3.1%.
FOR LAM	High yields help bond demand; energy splits EM winners from losers; volatility lifts demand for systematic equity.
FOR S&M	Every quarter-end deck needs a macro slide you can defend.
ASK	<i>"With 10-year gilts above 5%, are DB schemes and insurers adding fixed income, and is LAM's FI effort benefiting?"</i>

11. New Prime Minister and the gilt sell-off

Wikipedia (dates) [S239]; Trading Economics [S236]

WHAT Andy Burnham became PM on 20 Jul 2026. On 10 Sep 2026 the 30-year gilt hit ~5.95% (highest since 1998) and the 10-year ~5.38% (since 2007) (snippet levels).

FOR LAM UK fiscal risk is a live client conversation.

FOR S&M Overseas clients ask 'is the UK investable?'; UK clients ask about diversifying abroad.

ASK "Are 5-6% long gilt yields accelerating DB buy-outs, shrinking the growth-asset pool LAM sells into?"

7.2 Markets in plain English (2 October 2026)

Market	Level	What it means	How it affects LAM's clients
Bank of England rate	3.75%, held 17 Sep 2026, vote 6-3 [S233]	The UK 'price of money'. Paused because energy is pushing inflation up	Cash competes with funds; DB schemes better funded
US Fed funds	3.75-4.00%, raised 16 Sep 2026 [S235]	First hike since 2023	A strong dollar and high US yields are a headwind for EM and non-US equity
UK CPI inflation	3.1% (Aug 2026) [S233] [S236]	Above the 2% target; BoE expects slightly above 4% in early 2027	Real assets and listed infrastructure become more relevant
UK 10-year gilt	5.37% [S236]	19-year highs	Best starting yields in a generation for bond buyers
US 10-year Treasury	5.28% [S236]	High 'risk-free' rate	Tougher hurdle for equity valuations
S&P 500	7,723 [S236]	Near records, led by tech	Concentration risk: the case for international and EM diversification
FTSE 100	10,462 [S236]	First crossed 10,000 in early 2026	UK equities up, yet UK equity funds still see outflows [S219]
MSCI Emerging Markets	1,709 (52-week range 1,332-1,809) [S237]	Near the top of its range	Energy importers hurt, exporters gain: a stock-picker's market
GBP/USD	1.324 [S236]	Sterling slightly weaker over 12 months	Lifts the sterling value of overseas holdings
Brent crude	\$102 (peak ~\$126 in April) [S236][S238]	The biggest macro driver of 2026	Inflation, rates and EM dispersion all trace back here

SAY THIS IN THE INTERVIEW

"2026 has been an energy-shock year. Oil spiked after the Strait of Hormuz closed, inflation turned back up, the Fed hiked in September, and the Bank of England is on hold at 3.75% with three members voting to hike. Long gilt yields are at multi-decade highs. For LAM's clients that means high starting yields in bonds, big dispersion in EM, and a renewed case for diversifying away from US mega-caps."

DON'T SAY THIS

"Rates are falling this year." They are not: the Fed hiked in September and the BoE has a three-vote hawkish minority [S233][S235].

7.3 Reading list

Source	Cost	Good for
Lazard monthly AUM releases and quarterly results (PR Newswire, lazard.com)	Free	The best LAM dashboard. Q3 2026 results due 22 Oct 2026 [S205]
Lazard Asset Management Research & Insights	Free	House views to quote back
Investment Association monthly fund statistics	Free	UK retail flows by sector
Calastone Fund Flow Index	Free	Fast monthly read of UK buying and selling
Trustnet, Portfolio Adviser, Investment Week, FT Adviser	Free / registration	UK wholesale and MPS news; weekly fund launches
Citywire Selector / Wealth Manager	Free registration	Fund-selector moves and buy-list news

Source	Cost	Good for
IPE, Pensions & Investments, Professional Pensions	Part paywalled	Institutional mandates, LGPS, consultants
ETF Stream, ETF Express	Free	European active ETF flows and launches
Bank of England Monetary Policy Summary	Free	Rates; next decisions 5 Nov and 17 Dec 2026 [S234]
FCA news and policy statements	Free	Consumer Duty, CCI, SDR, targeted support
Morningstar Active/Passive Barometer, Fee Study	Free	Evidence for the active vs passive debate
FT Unhedged; Bloomberg Money Stuff; Odd Lots; FT Behind the Money	Mixed	Forming opinions on markets and deals

PART 8

Forming your own view

Both sides of the eight arguments you are most likely to be asked about, with numbers for each side, and a space for your own position.

An interviewer does not want the "right" answer. They want to see you hold a view, show the evidence, admit the other side and stay calm when pushed. Use this formula: **view, two facts, the best counter-argument, why you still hold the view.**

1. Is active management worth paying for?

The case against	The case for	A defensible position
No: 11.9% of European active equity funds beat passive over 10 years [S363]; 79% of US large-cap lagged in 2025 [S361].	Yes, selectively: bonds 46.8% 1-yr success [S363]; only 31% of US EM debt funds lagged [S361]; LAM: 68% of AUM ahead over 5 years [S202].	Active is worth paying for where information is imperfect and the fee is fair. Lead with the strategies that prove it.

YOUR OPINION GOES HERE

Your line: _____

2. Should Lazard own an asset manager at all?

The case against	The case for	A defensible position
Few synergies; conflicts; investors debated a split in 2018 (snippets) [S333].	Recurring fees stabilise a cyclical advisory firm: H1 2026 AM +20%, Advisory -7% [S320]; AM is half the 2030 plan [S325].	The diversification case is proven in the numbers. The open question is scale, not ownership.

YOUR OPINION GOES HERE

Your line: _____

3. Is LAM's 2026 turnaround real?

The case against	The case for	A defensible position
Q2 2026 -\$1.6bn and August -\$1.8bn [S201]; top 10 clients are 24% of AUM [S322].	Q1 2026 +\$9bn, best in ~20 years; record gross inflows in 2025; pipeline higher [S398][S202].	Momentum is real; quality of flows and concentration are the risks to watch.

YOUR OPINION GOES HERE

Your line: _____

4. Should LAM launch active UCITS ETFs in Europe?

The case against	The case for	A defensible position
Crowded: J.P. Morgan ~47% share [S9]; small funds struggle; ETFs need market-making and platform work.	European active ETFs set a record in eight months [S217]; LAM has 11 US ETFs [S62]; Hogbin named Europe as next [S113].	Yes, starting with quant, where the process translates and fees are low. Phrase it as a question in interview.

YOUR OPINION GOES HERE

Your line: _____

5. Is consolidation a threat or an opportunity for LAM?

The case against	The case for	A defensible position
Rivals gain scale in tech, data and distribution; Nuveen-Schroders ~\$2.6tn [S17].	Mergers disrupt rivals' clients and staff; consultants put merged managers on watch Inferred .	Short-term opportunity, long-term pressure to specialise harder or partner.

YOUR OPINION GOES HERE

Your line: _____

6. Will UK pension reform help LAM?

The case against	The case for	A defensible position
Fewer, bigger buyers with in-house teams and fee power [S15][S16].	Pools need specialist sleeves they cannot build: EM, listed infrastructure, quant Inferred .	It helps specialists who can serve a few large buyers well.

YOUR OPINION GOES HERE

Your line: _____

7. Will AI change sales and marketing?

The case against	The case for	A defensible position
BCG: AI on 'a broken or undefined sales model automates existing inefficiencies' [S4].	BCG: 25-30% cost savings and 0.5-1% of AUM in extra annual inflows possible [S5].	Yes, but data and process first. That is exactly what an intern who automates a quarter-end process learns.

YOUR OPINION GOES HERE

Your line: _____

8. Should LAM chase private markets?

The case against	The case for	A defensible position
Sub-scale (\$10.8bn alternatives [S320]); rivals far bigger (Schroders Capital £74bn [S337]).	PwC: private markets >50% of revenues by 2030 [S7]; 2023 target of ~30% of AM revenue from alts, private markets and wealth [S116].	Through partnerships (Elaia) rather than big acquisitions, as Hogbin suggests [S113].

YOUR OPINION GOES HERE

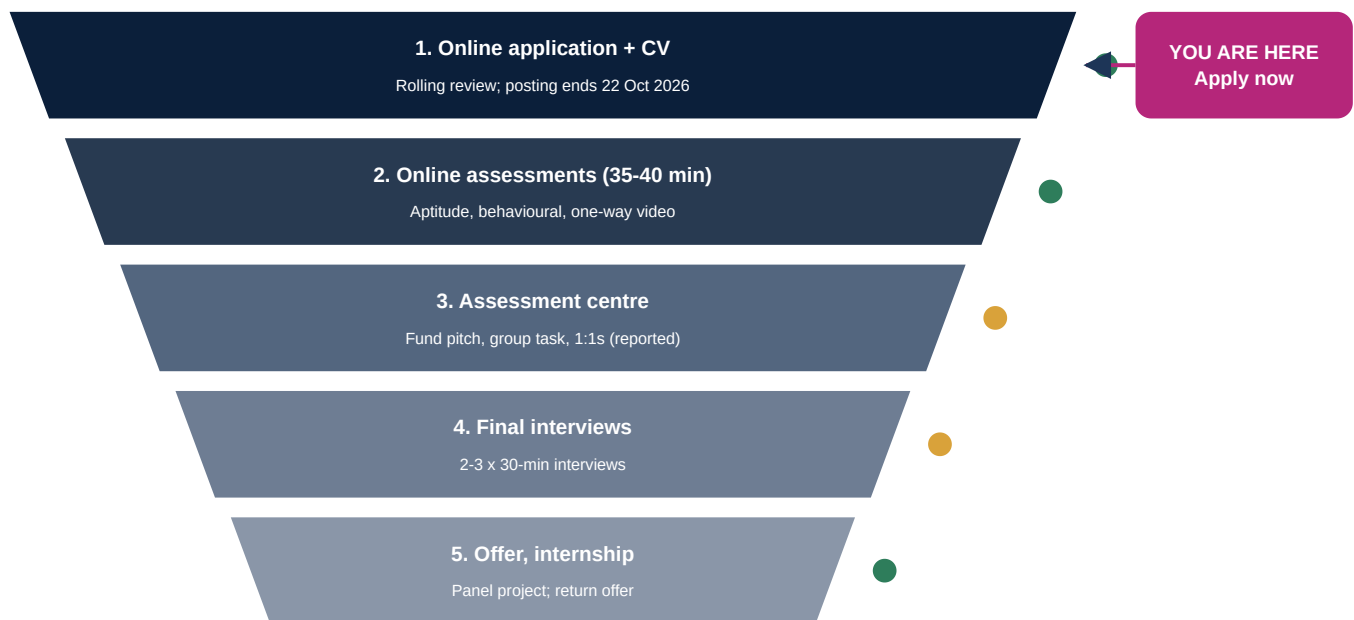

Your line: _____

PART 9

The recruitment process and the assessment platform

Every stage with confidence levels, the provider behind the online tests, 27 likely video prompts and 12 situational scenarios.

Recruitment funnel, with your position marked

Dot colour: green = confirmed by Lazard; amber = reported by candidates or prep sites.

Recruitment funnel

Source: Lazard UK early careers and FAQ [S280][S281]; Lazard Netherlands page naming Criteria [S282]; LAM posting [S152]; Glassdoor and WSO anecdotes (snippets) [S296][S297][S298]; old LAM postings (snippets) [S301][S302]; career path [S174].

9.1 Stages, with confidence

Stage	What happens	Confidence	Source
Application	Online form and CV; one application per programme per year; rolling review	Confirmed	[S280][S152]
Online assessments	Aptitude (15 min, no calculator, no penalty for guessing), behavioural (~10 min, untimed), video; 35-40 minutes in one sitting	Confirmed for the Lazard bundle; Inferred that LAM uses the same	[S282][S281]
Video format	3-5 questions; prep 15 seconds to 2 minutes; answer ~2 minutes; retakes unknown	Reported conflicting	[S285][S288] [S297][S298]
Assessment centre	Fund pitch; 'sell an out of the box product'; group task (30 min prep, 5 min presentation); 1:1 interviews	Reported forum anecdote	[S296]
Timing	LAM assessments historically 'in London later in November and December'	Reported old posting snippet	[S301][S302]
Final	FA: two 30-minute interviews; LAM reports 3 x 30-minute 1:1s	Confirmed FA / Reported LAM	[S281][S296]
After	Six-week programme; senior-management panel project; return-offer hope stated in the JD	Confirmed	[S152]

9.2 The assessment provider

Lazard's Netherlands careers page tells candidates to contact "**Criteria Support**" and describes the same three-part bundle as the UK page [S282]. Criteria Corp is a US testing company. Its philosophy is cognitive aptitude plus personality plus structured video, with the employer setting the cut-offs **Confirmed** [S289][S291].

How the assessment provider scores you (Criteria Corp, inferred for this programme)

Aptitude (likely CCAT)

50 questions, 15 minutes, no calculator. Raw score out of 50 plus a percentile against a norm group. No penalty for guessing. Average candidate attempts ~24. Employer sets its own cut-off

Behavioural (likely EPP)

Untimed, ~10 minutes, agree/disagree items. Profiles work traits. You receive a 'Workplace Insights' report. Inconsistent answers are typically flagged

One-way video

Same questions and timings for every candidate. 'Can only be reviewed by the selected hiring team.' Criteria's guidance mentions no AI scoring. Topics: motivation, culture fit, interest in firm and industry

How the provider scores answers

Source: Criteria CCAT [S289][S290]; EPP and Workplace Insights [S292]; Criteria video guidance [S291]; Lazard bundle description [S282]. The CCAT and EPP identification is inferred from matching formats **Inferred**.

- **Aptitude.** "Less than 1% of candidates answer all 50 questions." "If you find that you've spent more than 1 minute on a problem, make an educated guess and move on" [S290]. Practise mental percentages, ratios, word analogies and spatial patterns. Never leave a blank.
- **Behavioural.** Answer honestly and consistently. The report comes to you and may be discussed.
- **Video.** Criteria lets you record a practice question as many times as you like first [S291]. Use it to check light and sound. Dress "slightly more formal than informal" [S291]. Avoid university networks (firewalls) [S291].
- **If the invite says HireVue** (older reports name it [S297]): HireVue removed facial analysis [S294]. Content and structure are what count.

SAY THIS IN THE INTERVIEW

Video structure in 90 seconds: **answer in one sentence; one reason; one specific example or fact; link back to LAM or the role.** Say the answer first; reviewers decide early.

9.3 Likely video prompts (27)

Type	Prompt	What is tested	Answer structure (60-90s)	Facts to weave in	Trap
Motivation	Why Lazard Asset Management?	Specific, mechanism-based knowledge	Firm fact → why it matters to you → link to the role	London AM since 1953 [S132]; EM, listed infra, quant; one shared distribution engine	Praising 'prestige' or 'culture' without evidence
Motivation	Why sales and marketing rather than investing?	Positive pull to the function	Translate investing into client decisions; give an example of explaining something	'Distribution now determines who captures flows' [S4]	Implying sales is a fallback
Motivation	Why asset management?	Understanding of the industry	What it does for savers; one trend; your link	£11.1tn managed in the UK [S1]	Confusing it with investment banking
Motivation	Why London?	Commitment and regional awareness	London is LAM's biggest hub outside NY; EMEA 42% of revenue	[S100]	Generic city praise
Motivation	What do you know about this internship?	Did you read the JD?	Six departments, rotation, senior-management project	[S152]	Calling it 10 weeks (that is Financial Advisory)
Strengths	Tell me about yourself	Story and relevance	Present, past, why here: 60-90 seconds	Weave one LAM fact	Reciting the CV line by line
Strengths	What are you best at?	Self-awareness	Strength → evidence → how it helps in S&M	JD: 'logical and analytical'	Claiming everything
Strengths	Describe a weakness you learned about	Honesty and growth	Real weakness, what you changed, result	n/a	Fake weakness ('perfectionism')
Strengths	Something interesting about you	Personality	One vivid fact with a lesson	n/a	A rehearsed brag
Commercial	Tell me about a recent news story affecting us	Commercial awareness	Story → mechanism → LAM implication → your question	Europe ex-UK Equity Advantage launch, 30 Sep 2026 [S212]	Picking advisory-side news without saying so
Commercial	What trend matters most for asset managers?	Prioritisation	One trend, evidence, implication for a channel	Active ETFs in Europe [S217]	Listing five trends

Type	Prompt	What is tested	Answer structure (60-90s)	Facts to weave in	Trap
Commercial	How do asset managers make money?	Business model	AUM × fee + performance fees; markets vs flows	~45 bps (computed) [S321]	Talking only about returns
Commercial	Active or passive?	Nuance	Concede the data, then where active wins	11.9% 10-yr success [S363]	Dogmatism either way
Commercial	What's happening in markets?	Macro literacy	Energy shock → inflation → rates → clients	BoE 3.75%, Fed hike [S233][S235]	Saying rates are falling
Client focus	Tell me about a time you served a customer well	Client orientation	STAR with a measurable outcome	n/a	Making yourself the hero, not the client
Client focus	Explain a complex idea simply	Translation skill	Analogy first, then the facts	Shop analogy	Jargon
Client focus	How would you handle an unhappy client?	Composure, honesty	Listen, acknowledge, explain, escalate	n/a	Blaming markets
Teamwork	A time you worked in a team that struggled	Collaboration	Your role, the fix, the result	'Not in direct competition' [S281]	Blaming teammates
Teamwork	A time you disagreed with someone	Challenge with respect	Evidence, private, question form	JD: 'challenge conventional thinking'	Winning the argument as the goal
Pressure	A time you had a steep learning curve	Learning agility	What you didn't know, how you learned fast	JD: 'thirst for learning'	No lesson
Pressure	A time you made a mistake	Ownership	Admit, fix, prevent	n/a	A mistake that wasn't one
Organisation	How do you manage competing deadlines?	Prioritisation	Rules first, then client deadlines, escalate early	Priority order in Part 12	'I just work harder'
Organisation	A time you improved a process	Automation mindset	Before/after, hours saved, controls kept	JD: 'automate marketing functions'	Breaking a control to save time
Role-specific	How would you prioritise a prospect list?	Analytical approach	Fit, access, timing; size as tiebreaker	Consultants gate institutions [S183]	Ranking by size only
Role-specific	How would you compare our fund with competitors?	Competitive analysis	Like-for-like periods, risk-adjusted, fees, flows, team, 'so what'	LAM's AoV method [S193]	One-year returns only
Role-specific	What makes a good quarter-end presentation?	Accuracy and compliance	Official data, consistent disclosures, standard periods, sign-off	COBS 4.6 [S420]	Prioritising design over accuracy
Role-specific	Pitch one of our strategies in 60 seconds	Sales instinct	Client need → strategy → evidence → risk → ask	GLI since 2005 [S330]	Inventing performance numbers

9.4 Likely situational scenarios (12)

Situation	Best answer prioritises	Worst option	Strength it reveals
Two salespeople each want your help on a deck due at 5pm; you can do one.	Tell both now, ask your mentor or the team lead to set the order, give the second a realistic time.	Quietly pick the senior one; work until midnight and deliver both poorly.	Fairness, early escalation
A PM asks you to show performance from the start date that looks best.	Use the standard periods; ask compliance whether an extra period can sit alongside.	Use the flattering period because the PM asked.	Integrity, rules first
You spot an error in a report sent to a client yesterday.	Tell the CSA and mentor now with the correct figure; check other reports.	Fix the master file and say nothing.	Ownership
A colleague offers you a spreadsheet of personal contacts from another firm.	Decline; build lists from the CRM and public sources.	Use it once, carefully.	Data ethics (PECR, GDPR)
In a lift you overhear Advisory colleagues discuss a deal involving a company LAM holds.	Tell compliance only; tell nobody else.	Mention it to the PM 'just in case'.	Inside information
A client asks you to promise the fund will beat its benchmark.	Explain you can't promise returns; describe process, record and risks.	Say 'I'm confident it will'.	Fair, clear, not misleading
An hour before a meeting you find a benchmark figure that doesn't match.	Flag to the deck owner with both numbers; pull the slide if unresolved.	Send it and fix it later.	Accuracy over speed
Your automation macro put last month's number in a factsheet.	Stop it, tell the owner, check every output, add a reconciliation.	Quietly correct that one factsheet.	Ownership, controls
A consultant hints that dinner would help a rating.	Route through the gifts and hospitality policy.	Book the dinner.	Inducements
A fellow intern presents your analysis as theirs.	Speak to them privately; share future work in writing.	Correct them in front of the team.	Composure, collaboration

Situation	Best answer prioritises	Worst option	Strength it reveals
A retail investor phones asking if they should buy the fund.	Don't advise; point to documents and a financial adviser.	Say it's a good fund.	Regulated advice boundary
Your mentor's slide says 'clients want ESG' but flow data shows ESG outflows.	Send the data privately as a question.	Ignore it, or correct them publicly.	Challenge with evidence

Ranking rule for any multiple-choice version: (1) rules and the firm's name, (2) fair treatment of every client, (3) accuracy and the record, (4) speed. The option that escalates early and openly usually ranks first; the option that hides or acts alone ranks last.

9.5 Later stages and how to prepare

Component	How to prepare
Fund pitch (3-5 min)	Pick one strategy (Global Listed Infrastructure or EM). Client need → strategy → evidence → risks → next step. Never invent performance: say 'I'd check the latest factsheet'.
'Sell an out-of-the-box product'	Ask two or three questions about the buyer first, summarise back, pitch two benefits, handle one objection, close with a next step.
Group task (30 min + 5 min)	Propose a time plan; bring in quieter members; credit others; keep the presenter on time. Lazard says candidates are 'not in direct competition' [S281].
Written or analytical task	Likely mirrors the JD: prioritise a prospect list or compare funds. Show your method and assumptions.
1:1 interviews	Motivation, competencies, 'current macro trends and my outlook' [S296]. Use Parts 10 and 12.

PART 10

Question bank

42 interview questions beyond the video prompts, each with what is tested, a structure, the facts to use and the trap. Then ten questions to ask that only research could produce.

These are scaffolds, not scripts. Rehearse the structure and the facts, then answer in your own words.

1. What does LAM do, in two sentences? Firm

TESTS Clarity · STRUCTURE What + for whom + how it earns · WEAVE IN \$290bn, ~45 bps, 82% institutional/intermediary [S139][S51] · TRAP Describing Lazard advisory instead

2. How does LAM make money? Firm

TESTS Business model · STRUCTURE AUM × fee + performance fees – costs · WEAVE IN \$1,107m mgmt fees, \$59m incentive, 23.1% margin FY2025 [S100] · TRAP Forgetting markets move AUM

3. Why does Lazard own an asset manager? Firm

TESTS Strategic thinking · STRUCTURE Diversification, capital-light, brand; then the costs · WEAVE IN H1 2026: AM +20%, Advisory –7% [S320] · TRAP Claiming big synergies

4. What has happened to LAM's flows? Firm

TESTS Honesty with numbers · STRUCTURE Three years of outflows → 2026 turn → caveats · WEAVE IN –\$35.7bn, –\$18.1bn, +\$7.4bn H1 [S100][S101] · TRAP Cheerleading

5. Who runs LAM and what has changed? Firm

TESTS Currency · STRUCTURE Hogbin, first CIO, new COO, product, corp dev · WEAVE IN [S109][S143][S112] · TRAP Naming Evan Russo as CEO

6. What are LAM's strongest franchises? Firm

TESTS Product knowledge · STRUCTURE Three franchises with one fact each · WEAVE IN EM since 1990; GLI since 2005; Equity Advantage ~\$51bn [S71][S80][S72] · TRAP Listing every fund

7. Where is LAM weak? Firm

TESTS Balance · STRUCTURE Size, passive, private markets, concentration · WEAVE IN Top 10 = 24% of AUM; alts \$10.8bn [S322][S320] · TRAP Refusing to name weaknesses

8. What is 'contextual alpha'? Firm

TESTS Have you read our material? · STRUCTURE Definition in one line, one example · WEAVE IN 10-K definition [S100] · TRAP Over-using the phrase

9. What is Lazard 2030? Firm

TESTS Strategy · STRUCTURE Double 2023 revenue; split evenly AM/Advisory; 10-15% TSR · WEAVE IN [S117] · TRAP Saying '\$1tn AUM target' (unsupported)

10. What do you know about our London office? Firm

TESTS Detail · STRUCTURE 1953 origins; Manchester Square; Taylor · WEAVE IN [S132][S188][S176] · TRAP Giving the old Stratton Street address

11. Where will asset management be in five years? Industry

TESTS Judgement · STRUCTURE Two competing views, then yours · WEAVE IN BCG vs McKinsey vs PwC [S3][S6][S7] · TRAP No view

12. Is passive a threat to us? Industry

TESTS Nuance · STRUCTURE Concede; specialise; wrappers · WEAVE IN Trackers +£1.6bn vs active –£707m (Aug 26) [S219] · TRAP Dismissing passive

13. What are active ETFs and why do they matter? Industry

TESTS Product awareness · STRUCTURE Wrapper vs strategy; Europe data; LAM's US range · WEAVE IN €78.4bn, 139 launches 2025 [S9]; 11 US ETFs [S62] · TRAP Calling all ETFs passive

14. What is consolidation doing to the industry? Industry

TESTS Current affairs · STRUCTURE Examples; why; effect on mid-sized firms · WEAVE IN Nuveen-Schroders; Janus private [S17][S18] · TRAP Calling Schroders independent

15. How are UK pensions changing? Industry

TESTS UK institutional market · STRUCTURE DB de-risking, DC megafunds, LGPS pools · WEAVE IN £25bn by 2030; six pools [S15][S223] · TRAP Saying pooling is complete

16. What does an investment consultant do? Industry

TESTS Channel knowledge · STRUCTURE Advise trustees; rate managers; run searches · WEAVE IN Aon/Mercer/WTW ~45-49% (2018) [S256] · TRAP Confusing with management consultants

17. What's the difference between institutional and wholesale? Industry

TESTS Channel knowledge · STRUCTURE Buyer, gatekeeper, vehicle, cycle, rules · WEAVE IN Part 6 diagram · TRAP Treating them as the same

18. What is Consumer Duty? Industry

TESTS Regulatory literacy · STRUCTURE Principle; four outcomes; dates · WEAVE IN PS22/9; 31 Jul 2023 / 2024 [S241] · TRAP Saying it only applies to banks

19. What is changing in fund disclosure? Industry

TESTS Live issue · STRUCTURE CCI replaces KIIDs; dates · WEAVE IN 8 Jun 2027 [S244] · TRAP Not knowing

20. How would AI change this team? Industry

TESTS Practical thinking · STRUCTURE One use case, the controls, the limit · WEAVE IN BCG warning on broken models [S4] · TRAP Pasting client data into public tools

21. Talk me through markets right now Markets

TESTS Macro fluency · STRUCTURE Energy → inflation → rates → asset classes · WEAVE IN Brent ~\$102; BoE 3.75%; 10y gilt 5.37% [S236] [S233] · TRAP Stale facts

22. Pitch me an asset class for 2027 Markets

TESTS Conviction with risk · STRUCTURE Thesis, two facts, risk, who it suits · WEAVE IN High starting bond yields [S236] · TRAP No risks

23. Why might a UK pension fund want EM exposure? Markets

TESTS Client lens · STRUCTURE Growth, diversification, valuation; risks · WEAVE IN EM AUM +55% y/y at LAM [S50] · TRAP Ignoring currency and political risk

24. What is listed infrastructure? Markets

TESTS Product · STRUCTURE Definition; inflation link; LAM's approach · WEAVE IN 'Preferred infrastructure', OECD only [S330] · TRAP Confusing with private infrastructure

25. Walk me through how you'd build a prospect list Role

TESTS Method · STRUCTURE Universe → filters (fit, access, timing) → score → validate · WEAVE IN LGPS pools, DC megafunds · TRAP Size only

26. How would you update a 60-slide pitchbook in a day? Role

TESTS Process and control · STRUCTURE Numbers from source, commentary check, compliance · WEAVE IN COBS 4.6 [S420] · TRAP Skipping review

27. A salesperson wants a client brief by tomorrow. What's in it? Role

TESTS Usefulness · STRUCTURE One page: client, holdings, consultant, news, questions · WEAVE IN n/a · TRAP Ten pages

28. How would you analyse a competitor fund? Role

TESTS Analytics · STRUCTURE Periods, risk-adjusted, fees, flows, team, process, 'so what' · WEAVE IN AoV peer approach [S193] · TRAP One-year returns

29. What would you automate first, and how? Role

TESTS Initiative with control · STRUCTURE High-frequency, rule-based task; reconciliation step · WEAVE IN Excel Power Query, Python · TRAP Removing human sign-off

30. What does a Client Service Associate do? Role

TESTS Respect for the role · STRUCTURE Requests, reporting, retention · WEAVE IN CSA is an experienced title at LAM [S174] · TRAP Calling it admin

31. What would you do in your first week? Role

TESTS Self-management · STRUCTURE Learn the shelf, meet each team, deliver one small thing · WEAVE IN n/a · TRAP Over-promising

32. What project would you pick for the senior-management panel? Role

TESTS Commercial creativity · STRUCTURE Problem, evidence, recommendation, risks · WEAVE IN UCITS active ETFs; LGPS map · TRAP Something unrelated to LAM

33. Tell me about a time you persuaded someone Competency

TESTS Influence · STRUCTURE STAR with an outcome · WEAVE IN n/a · TRAP Manipulation story

34. Tell me about a time you worked with incomplete information Competency

TESTS Judgement · STRUCTURE What you knew, assumption, check, result · WEAVE IN n/a · TRAP Pretending certainty

35. Tell me about a time you challenged conventional thinking Competency

TESTS JD value · STRUCTURE View, evidence, how it landed · WEAVE IN JD wording · TRAP Contrarian for its own sake

36. Tell me about a time you handled several deadlines Competency

TESTS Organisation · STRUCTURE Prioritise, communicate, deliver · WEAVE IN n/a · TRAP Silent heroics

37. Tell me about a time you got feedback you disagreed with Competency

TESTS Coachability · STRUCTURE Listened, tested, changed or explained · WEAVE IN n/a · TRAP Defensiveness

38. Tell me about a time you built a relationship Competency

TESTS Relationship management · STRUCTURE Effort over time, result · WEAVE IN n/a · TRAP One-off favour

39. How many trips are there on the London Underground in a day? Curveball

TESTS Structured estimation · STRUCTURE Population, share using Tube, trips each · WEAVE IN n/a · TRAP Panic; no structure

40. Sell me this pen Curveball

TESTS Sales technique · STRUCTURE Ask about needs first · WEAVE IN n/a · TRAP Feature dump

41. What's the last book you read? Curveball

TESTS Curiosity · STRUCTURE Book, idea, how it changed your thinking · WEAVE IN n/a · TRAP A book you can't discuss

42. What would you do if you didn't get this internship? Curveball

TESTS Resilience · STRUCTURE Plan, learning, still interested in the industry · WEAVE IN n/a · TRAP Bitterness

10.1 Questions to ask (only real research could produce these)

- "H1 net flows were the best in nearly 20 years, but Q2 and August were negative. From the London seat, is that lumpy institutional redemptions or something in the channel mix?" [S101][S201]
- "The Europe ex-UK Equity Advantage launch was pitched at model-portfolio providers. Is an ETF version of Equity Advantage on the agenda for Europe, given the US ETF range?" [S212][S62]
- "How has the first-ever CIO role changed how the investment teams' views reach marketing material?" [S143]
- "With LGPS down to six pools and asset transfers running into 2027, is London pitching the pools directly or mostly through their consultants?" [S223]
- "Since Schrodgers and Janus Henderson changed ownership, have UK consultants started reviewing managers in areas where LAM competes?" [S17][S348]
- "Which of the six departments has changed most since the new Head of Product arrived in July?" [S112]
- "How is the London team preparing for CCI product summaries before June 2027?" [S244]
- "Top-10 clients were 24% of AUM at end-2025. Does that change how you prioritise prospects: fee quality versus mandate size?" [S322]
- "I read that a 2020 intern became a Sales & Marketing Associate rotating across teams before joining Alternatives. Is that still how graduates join?" [S174]

L0. "Hogbin said margins 'are not where we would like them to be'. Where does automation in marketing fit into that?" [S113]

SAY THIS IN THE INTERVIEW

Pick two questions that match the interviewer's seat: a flows question for a salesperson, a CCI or automation question for marketing, a career question for HR. Listen to the answer and ask one follow-up.

PART 11

People briefing

No interviewers have been named. These are the senior and London people who shape the business, from public professional sources only, plus how to read and adapt to each interviewer type.

SOURCE UNCERTAIN

Public professional information only. The LAM UK contact page is undated and may lag departures [S174]. Do not name anyone in an interview as a current team head without checking first. One search summary wrongly called Kelly Sliger a distribution head; LAM's own page lists her as Global Head of HR [S385].

Person	Role	Career path and education	Public voice	Type
Peter R. Orszag	CEO and Chairman, Lazard, Inc. (CEO since Oct 2023)	Joined Lazard 2016; ex-Director of the US Office of Management and Budget and of the Congressional Budget Office; ex-Citi. Princeton; PhD, LSE [S391]	Q1 2026: strategy is 'pivoting the business where active Asset Management [has] advantage' [S398]	Group strategist. Not an intern interviewer
Chris Hogbin	CEO, LAM (since Dec 2025)	BCG (London, SF, Shanghai); ~20 years at AllianceBernstein, latterly Global Head of Investments. Cambridge MA Economics; Harvard MBA. Dual US/UK citizen [S380][S383]	'I would not straight line the number from Q1 through the year' [S398]	Investor-executive. Very unlikely to interview
Jeremy Taylor	CEO, Lazard Asset Management Limited; Co-Head European Distribution; Co-CEO Europe	UBS Warburg analyst; joined Lazard 2003 as telecoms analyst, then Co-Director of Research. MSc, St Peter's College, Oxford [S386][S387]	'Being naturally inquisitive, strong in logical reasoning, self-motivated and resilient. The ability to relate the real world to numbers' (2020) [S387]	Practitioner. Possible panel member
Joanne Choi	Chief Marketing Officer, LAM (New York)	18 years at Goldman Sachs Asset Management, latterly Global Head of Marketing. Georgetown BSc Foreign Service [S392]	Responsible for 'marketing efforts and brand strategy across its global asset management client base' [S392]	Marketing leader
Keith Wosneski	Global Head of Consultant Relations (NY)	Ex-Man Group, Mackenzie, Acadian, Mercer. Joined Aug 2025 [S397]	n/a	Consultant relations practitioner
Mohit Pandya	Head of Institutions, UK & Northern Europe	In industry since 1995; Deutsche AM; Aberdeen; joined Lazard 2006 [S396]	n/a	Sales practitioner
Matt Craddock, CFA	Head of UK Institutional Sales	Ex-Allspring; ex-WTW and PwC investment consultant. MSc Warwick Business School [S396]	n/a	Sales practitioner with consultant background
Tony Maddock	Head of UK Third Party Distribution	In industry since 1984; Scottish Widows Investment Partnership, AXA IM, BNP Paribas AM, Prudential [S396]	'Our Equity Advantage funds are designed to target three outcomes: consistency of relative returns, controlled risk and a predictable style profile' (Sep 2026) [S212]	Wholesale sales practitioner
Laura Bourke	Head of Sales Support	Joined 1997 on the broker support desk [S396]	n/a	Operations-minded practitioner
Karissa Shah	VP, Alternative Investments Distribution	2020 intern → Sales & Marketing Associate → Alternatives 2022 [S174]	n/a	Your possible future; likely friendly
Kelly Sliger	Global Head of HR	Ex-GE Capital, Citi Private Bank. SUNY Stony Brook; MS New School [S384][S393]	n/a	HR

11.1 Reading the interviewer, and adapting

Interviewer type	Likely focus	How to adapt
Sales head (institutional or wholesale)	Commercial instinct, curiosity about clients, resilience, channel knowledge	Lead with the client need. Use flows and fee numbers. In role-plays, ask two diagnostic questions before pitching.
Marketing	Accuracy, writing, turning performance into narrative, RFPs, automation	Bring a polished deliverable you made under deadline. Mention compliance review unprompted.
Client Service Associate	Reliability, juggling requests, follow-through	STAR stories about competing deadlines; ask how they triage at quarter-end.
Portfolio manager or product specialist	A real market view; explaining one strategy simply	One view with a reason and a risk; admit what you don't know and reason it through.
HR / early careers	Motivation, values, consistency with your online profile	Clear 'why LAM, why S&M, why London'; examples of collaboration and learning.
Senior leader on a panel	Big picture and judgement	Short answers; one sharp strategic question; let them steer.

Signals: the job title in the invite, the opening question (a markets question suggests a PM; "walk me through your CV" suggests HR or sales) and the depth of follow-ups. Adapting means choosing which true examples to lead with. It never means changing your story.

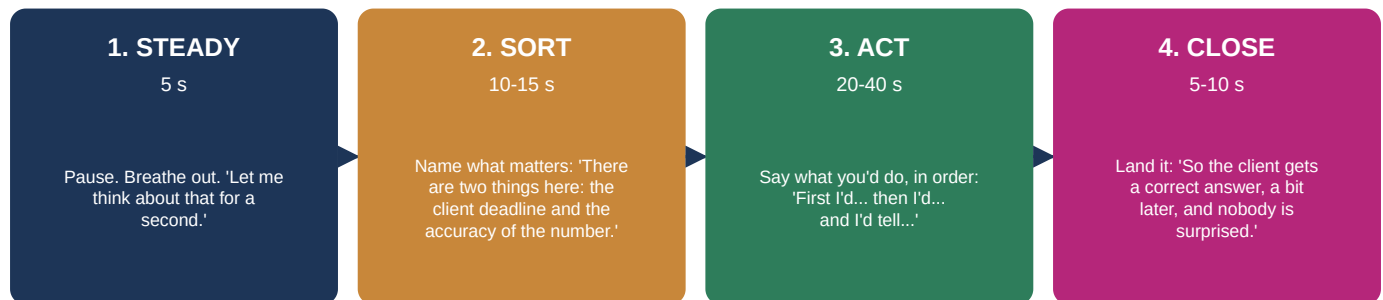

PART 12

The scenario playbook

A method for holding your frame under pressure, 54 scenario cards across every JD line, skill line and team, a composure set with decision trees, and a CV grill.

12.1 The frame-holding method

The four-step answer protocol: 45 to 75 seconds

The four-step answer protocol

Source: Author's method **Inferred**. Timing target 45-75 seconds per scenario answer.

Step	Phrases that execute it
Steady	'That's a good one. Let me think for a second.' · 'Can I check I've understood: ...?'
Sort	'There are two things in tension here: X and Y.' · 'The first question I'd ask is whether a rule applies.'
Act	'First I'd ... then I'd ... and I'd make sure [person] knows by [time].'
Close	'That way the client gets the right answer and nobody is surprised.' · 'And I'd change the process so it doesn't recur.'

Priority order when good things collide

Priority order for collisions

Source: Author's framework **Inferred**, anchored on COBS 4 [S240], Consumer Duty [S241], UK MAR [S422] and LAML's 'Robust Marketing review and sign off policies' [S136].

Eight ways interviewers break a frame, and the counter to each

1. Interruption Looks like: 'Sorry, but that's wrong.' Counter: Stop, acknowledge, finish your point in one line	2. Flat contradiction Looks like: 'I disagree completely.' Counter: 'Fair. Here's the evidence I'm using...' then ask what they see
3. Silence Looks like: They say nothing after you finish Counter: Don't fill it with backtracking. Add one fact or ask 'Would it help if I went deeper on X?'	4. Escalation Looks like: 'Now the client is threatening to leave.' Counter: Same priority order; bring in the senior person sooner
5. Authority squeeze Looks like: 'The MD says skip compliance.' Counter: 'I'd still need sign-off; I can make it faster by...'	6. False choice Looks like: 'Late or wrong: pick one.' Counter: Find the third option: on time without the unverified slide
7. Knowledge trap Looks like: A fact you don't know Counter: 'I don't know. Here's how I'd find out, and my best reasoning.'	8. Invitation to badmouth Looks like: 'Isn't Schrodgers finished now?' Counter: Stay factual about rivals; turn to what it means for clients

Eight frame-breaking tactics and counters

Source: Author's framework Inferred

Staying physically calm

- **Before:** two minutes of slow breathing, out for longer than in. Water within reach. Notes face down.
- **In person:** feet flat, hands still on the table, look at the questioner, then around the panel when you close.
- **On camera:** camera at eye level, light in front of you, look at the lens when you answer, not your own face. Plain background.
- **When pushed:** slow your speech down by a third. A two-second pause reads as thought, not panic.

12.2 The scenario ladder

The scenario ladder: every JD line, skill line and team area, three rungs each

Duty 1 Work with marketers to understand LAM's client base and...	First-day product map	Two marketers, two descriptions	The product nobody wants to talk about
Duty 2 Research major industry trends to drive sales channel...	Pick one trend	Trend versus data	The trend that hurts us
Duty 3 Prioritise extensive prospect lists based on firm...	500 names, one afternoon	Data you shouldn't use	Retail on an institutional list
Duty 4 Work alongside Client Service Associates to complete...	The data request	Two requests, one hour	You spot an error already sent
Duty 5 Analysis with internal and external research tools to...	Before the meeting	The relationship that is quiet	The insight you heard
Duty 6 Update quarter-end presentations for PMs and sales reps	The 60-slide refresh	The PM wants a better period	Deadline versus doubt
Duty 7 Automate marketing functions to streamline processes	The copy-paste job	AI to write commentary	Your automation broke something
Duty 8 Competitive analysis using qualitative and quantitative...	Peer table	We look worse	Confidential competitor deck
Skill Thirst for learning and challenging conventional thinking	Challenge something	Challenge your boss	You were wrong
Skill Logical and analytical thought process	Estimate	Explain a move	Bad data
Skill Interpersonal and collaborative	Team of strangers	Credit grab	Conflict between teams
Skill Passion for client servicing, sales support and...	Why client-facing?	Angry client	Client asks for a promise
Team Third Party Distribution	Fund selector meeting prep	Platform wants a cheaper share class	Retail end investor calls
Team Institutional Marketing	RFP question bank	RFP deadline clash	RFP asks for a claim we can't support
Team Direct Sales	Call notes	Client hints at a search	Gift offered
Team Consultant Relations	Database update	Consultant downgrade	Consultant asks for hospitality
Team Alternative Marketing	Explain an alternative	Who can buy	Performance fee question
Team Central Marketing Services	LinkedIn post	Event no-shows	Brand misuse

easy → medium → hard

The scenario ladder

Source: 54 scenarios built from the JD's 8 duty lines, 4 skill lines and 6 departments [S152]. Full cards follow.

Duty 1 · Work with marketers to understand LAM's client base and products

EASY	First-day product map
SETUP	Your mentor asks you to build a one-page map of LAM's main strategies for a new joiner. You have a day.
TRAP	Copying the website list without structure, or guessing at numbers.
SAY	"I'll group by asset class and client channel, use only the latest published factsheets and the 10-K for sizes, date every number, and check it with you before it goes anywhere."
WHY	Structure plus dated, sourced numbers is how marketing material is built. Anything shared can become a financial promotion, so accuracy comes first [S240].
TWIST	"The website numbers are three months old. Just use what you remember from the PM call." Hold: "I'll flag them as at the date shown, and ask the PM's team for the current figure in writing."

MEDIUM Two marketers, two descriptions

SETUP	Two marketers describe the same strategy differently: one says 'quality growth', the other 'GARP'. You are writing the summary.
TRAP	Picking the one you like, or blending them into mush.
SAY	"I'd go to the approved source: the strategy's official description in the current factsheet or pitchbook. If they still differ, I'd raise it with both and the product specialist, because consistent wording across channels is part of our control."
WHY	Marketing language must match the fund's documents. Inconsistent claims are a Consumer Duty and financial promotion risk [S241] [S240].
TWIST	"The senior one says use his version, it sells better." Hold: "I'll use his version if it matches the approved wording. If not, I'll show him the gap. It protects him too."

HARD The product nobody wants to talk about

SETUP	While mapping products you notice a strategy with years of outflows. A marketer says 'skip it, we don't push that one'.
TRAP	Ignoring it, or lecturing the marketer about it.
SAY	"I'd include it with a neutral line, because the map is for understanding the full shelf. Then I'd ask why it's in outflow: performance, a style out of favour, or a team change. That's the most useful thing I can learn."
WHY	Understanding why money leaves is as important as why it arrives. Lazard's own filings discuss net outflows openly [S322].
TWIST	"So would you close it?" Hold: "I don't know enough. I'd want capacity, fees, client concentration and whether the style is cyclical before I had a view."

Duty 2 · Research major industry trends to drive sales channel business**EASY Pick one trend**

SETUP	"What industry trend should our UK wholesale team care about most?"
TRAP	Naming a buzzword (AI, ESG) with no link to sales.
SAY	"Active ETFs. Money is moving from mutual funds into the ETF wrapper, including active strategies. For a wholesale team it changes which buyers we reach and on which platforms. Lazard has launched active ETFs in the US, so the question is how that lands in Europe."
WHY	Mechanism (wrapper shift) to channel (platforms, model portfolios) to firm (Lazard's own launches) [S326].
TWIST	"ETFs are for passive. Why would an active house care?" Hold: "The wrapper and the strategy are different things. Active ETF inflows are growing from a small base; the data is in the trend section."

MEDIUM Trend versus data

SETUP	A salesperson wants a slide claiming 'pension schemes are leaving equities'. Your data shows UK DB schemes de-risked but DC schemes are growing equity-heavy.
TRAP	Writing what the salesperson wants.
SAY	"I'd show both halves: DB de-risking and DC growth. The honest version is more useful because it tells us which clients to call about what."
WHY	Accuracy beats a neat story. Misleading summaries can't go to clients [S240]. The DB/DC split is the real UK picture [S2].
TWIST	"There's no time, just one line." Hold: "One line: 'DB schemes are de-risking; DC is where equity demand is growing.' Same length, correct."

HARD The trend that hurts us

SETUP	You find data showing active managers in our main asset class underperform passive over 10 years. The team asks for 'positive trends'.
TRAP	Hiding the data, or presenting it as a gotcha.
SAY	"I'd include it, because clients and consultants already know it. Then I'd show where active has a better record: less efficient markets, specialist areas, and periods of dispersion. Sales needs to be ready for the objection."
WHY	Active versus passive data is public (SPIVA, Morningstar) [S361]. Preparing the counter-case is a sales skill.
TWIST	"Are you saying we should go passive?" Hold: "No. I'm saying we should be precise about where active earns its fee and lead with those strategies."

Duty 3 · Prioritise extensive prospect lists based on firm strengths and client needs

EASY 500 names, one afternoon

SETUP	You get a list of 500 UK pension schemes and must rank the top 50 for a strategy.
TRAP	Ranking by size alone.
SAY	"Three filters: fit (does the scheme invest in this asset class and is it likely to review?), access (which consultant advises them?), and timing (recent reviews, LGPS pooling changes). Size is a tiebreaker, not the main test."
WHY	Prospecting is fit, access and timing. In the UK, consultants gate most institutional decisions [S255].
TWIST	"Why not just the biggest?" Hold: "The biggest may already have three managers in this asset class. A smaller scheme starting a search is worth more this year."

MEDIUM Data you shouldn't use

SETUP	A colleague offers a spreadsheet of personal contact details 'from a friend at another firm'.
TRAP	Using it because it saves time.
SAY	"I'd say thanks but no. We can't use personal data we don't have a lawful basis for. I'll build from our CRM and public sources."
WHY	UK GDPR and PECR govern prospect data and direct marketing [S423]. Data taken from a competitor could also breach confidentiality.
TWIST	"Everyone does it." Hold: "Maybe. It's still the firm's name on the email. I'd rather be slower and clean."

HARD Retail on an institutional list

SETUP	Your list includes some individuals who look like private investors, flagged as 'high net worth'.
TRAP	Treating them like professional investors.
SAY	"I'd flag them and check with compliance. Marketing to retail clients has different rules: different documents, different funds, and Consumer Duty applies. They may not be the right audience at all."
WHY	Client categorisation drives what you can send [S240] [S241].
TWIST	"They're rich, they're professional." Hold: "Wealth isn't the test. Categorisation follows the rules, and compliance decides."

Duty 4 · Work alongside Client Service Associates to complete client requests

EASY The data request

SETUP	A client's consultant asks for the fund's sector weights at quarter end. The CSA asks you to pull them.
TRAP	Pulling from the wrong date or an unofficial file.
SAY	"I'll take them from the official quarter-end data source, check the date and total to 100%, and send to the CSA for review before it goes out."
WHY	Client data must be accurate and from the official record. Four-eyes checking is standard practice Inferred .
TWIST	"The client wants it in an hour." Hold: "An hour is fine for a checked number. I'll tell the CSA now if anything risks that."

MEDIUM Two requests, one hour

SETUP	Two clients need things by 5pm. You can only do one well.
TRAP	Doing both badly or picking the bigger client silently.
SAY	"I'd tell the CSA straight away and ask which one goes first, with a realistic time for the second. The client hearing 'tomorrow 10am' at 3pm is better than an error at 5pm."
WHY	Fair treatment of every client and early escalation. Consumer Duty's 'consumer support' outcome reflects this for retail [S241].
TWIST	"Just pick." Hold: "Then the one with a regulatory or contractual deadline first, then the one with a meeting attached."

HARD You spot an error already sent

SETUP	You notice yesterday's report to a client had the wrong performance figure.
TRAP	Fixing it quietly or hoping no one notices.
SAY	"I tell the CSA and my mentor now, with the correct figure and how it happened. They decide how to tell the client. I check whether the same error is in other reports."
WHY	Errors are escalated, not hidden. Performance figures are the most sensitive numbers a manager publishes [S257].
TWIST	"It's tiny, 0.1%." Hold: "Small errors still go through the process. The size decides the fix, not whether we report it."

Duty 5 · Analysis with internal and external research tools to develop client relationships**EASY** Before the meeting

SETUP	A salesperson meets a pension fund next week and wants a client brief.
TRAP	Just pasting the client's website.
SAY	"One page: who they are, size and asset mix from their annual report, their consultant, what they hold with us and performance since inception, recent news, and three questions the salesperson could ask."
WHY	Client briefs combine CRM history with public data. eVestment and similar databases are standard tools [S183].
TWIST	"Can you add what other managers they're talking to?" Hold: "Only from public sources, like the scheme's own reports or press. Not from rumours."

MEDIUM The relationship that is quiet

SETUP	A large client hasn't been contacted in six months, according to the CRM.
TRAP	Assuming the data is right, or blaming the salesperson.
SAY	"I'd check the CRM is complete first. If it is, I'd flag it to the team with a suggested reason to reconnect, like a quarterly review or a new piece of research."
WHY	Retention is cheaper than new business. CRM data quality is half the job Inferred .
TWIST	"The salesperson is senior, will he be offended?" Hold: "I'd frame it as data, not criticism, and send it to my mentor first."

HARD The insight you heard

SETUP	In a meeting you hear Lazard's advisory side is working on a deal involving a company in one of LAM's funds.
TRAP	Mentioning it to the PM 'to be helpful'.
SAY	"I don't pass it on to anyone. I tell compliance what I heard. Advisory and asset management sit behind information barriers for exactly this reason."
WHY	Inside information rules (UK MAR) and Lazard's information barriers [S422] [S322].
TWIST	"It's not confirmed, so it's not inside information." Hold: "I'm not the judge of that. Compliance is. My job is to report it and say nothing else."

Duty 6 · Update quarter-end presentations for PMs and sales reps**EASY** The 60-slide refresh

SETUP	You must update a 60-slide pitchbook with new quarter-end numbers by Friday.
TRAP	Updating numbers without checking the commentary still matches.
SAY	"Numbers first from the official source, then I'd read every sentence that describes performance to make sure it still matches the new numbers, then compliance review."
WHY	Commentary that no longer matches the figures is misleading [S240].
TWIST	"Compliance takes ages, can we send it first?" Hold: "No, but I can get it to them earlier by sending the slides that don't change today."

MEDIUM The PM wants a better period

SETUP	A PM asks you to show performance from the start date that looks best.
TRAP	Cherry-picking periods.
SAY	"I'd show the standard periods (1, 3, 5 years and since inception) as our policy requires, and if the PM wants an extra period I'd ask compliance whether it can go alongside."
WHY	Past performance rules require standard periods and fair presentation [S240] [S257].
TWIST	"Everyone picks their best period." Hold: "The rules exist because of that. The standard set protects the PM's credibility."

HARD Deadline versus doubt

SETUP	An hour before sending, you notice one benchmark figure doesn't match last quarter's file.
TRAP	Sending anyway, or freezing.
SAY	"I flag it now to the owner of the deck with both numbers. If it can't be resolved in time, the deck waits or that slide comes out. A late correct deck beats an on-time wrong one."
WHY	Accuracy and the record outrank speed.
TWIST	"The client meeting is in an hour." Hold: "Then we present without that slide and send the confirmed figure after."

Duty 7 · Automate marketing functions to streamline processes**EASY The copy-paste job**

SETUP	Every month someone copies 40 numbers from a spreadsheet into factsheets by hand.
TRAP	Promising to automate everything in a week.
SAY	"I'd map the steps, automate the data pull and the checks first (for example with Excel Power Query or a Python script), and keep a human sign-off at the end."
WHY	Automation should cut errors, not remove controls Inferred .
TWIST	"Can you do it without telling IT?" Hold: "I'd rather involve them. Unapproved tools touching client data create risk."

MEDIUM AI to write commentary

SETUP	A manager suggests using a public AI chatbot to draft fund commentaries.
TRAP	Pasting confidential holdings into a public tool.
SAY	"Good idea for speed, but only on an approved internal tool, never with non-public data in a public one, and every draft still goes through the PM and compliance."
WHY	Data protection and confidentiality. The FCA expects firms to stay accountable for AI outputs [S424].
TWIST	"It's only public data." Hold: "Then the risk is lower, but it's still a financial promotion, so it still gets reviewed."

HARD Your automation broke something

SETUP	Your new macro put last month's figure in one factsheet.
TRAP	Defending the macro.
SAY	"I say so immediately, stop the macro, check every output it produced, and fix the check that should have caught it."
WHY	Owning errors fast is the most valued intern behaviour Inferred .
TWIST	"Will you trust automation again?" Hold: "Yes, with a reconciliation step that fails loudly."

Duty 8 · Competitive analysis using qualitative and quantitative metrics**EASY Peer table**

SETUP	Compare our EM equity fund with five peers.
TRAP	Using only one-year returns.
SAY	"Returns over several periods, risk-adjusted (Sharpe, information ratio), fees, fund size and flows, team stability, and how each describes its process. Same share class basis, same date."
WHY	Like-for-like comparison is the core of fund selection [S363].
TWIST	"Which is best?" Hold: "Depends on what the client wants. I'd say who suits which client."

MEDIUM We look worse

SETUP	The analysis shows we're bottom quartile over 3 years.
TRAP	Hiding it or changing the peer group.
SAY	"Show it. Then explain the drivers: style headwind, specific positions, or a process issue, and what the longer record says. Sales needs to hear this from us before the client says it."
WHY	Consultants will see the same data. Credibility depends on honesty [S255].
TWIST	"Could we use a different peer group?" Hold: "Only if it's genuinely more appropriate, and we say why."

HARD Confidential competitor deck

SETUP	Someone shares a competitor's confidential pitchbook they got from a client.
TRAP	Using it.
SAY	"I wouldn't use it and I'd tell my mentor or compliance. Using confidential material from another firm is a legal and reputational risk."
WHY	Integrity and confidentiality.
TWIST	"The client gave it to us." Hold: "Possibly in breach of their own agreement. Compliance decides."

Skill · Thirst for learning and challenging conventional thinking**EASY** Challenge something

SETUP	"Tell me a conventional view in asset management you disagree with."
TRAP	Picking something you can't defend.
SAY	"That active management is dead. Passive wins in large efficient markets, but in emerging markets and specialist areas the evidence is more mixed. The real question is where active is worth its fee."
WHY	Shows nuance backed by data [S361].
TWIST	"So active is better?" Hold: "Not in general. In specific places, at a fair fee."

MEDIUM Challenge your boss

SETUP	Your mentor's slide says 'clients want ESG'. Recent flow data shows ESG fund outflows.
TRAP	Silently fixing it or publicly correcting them.
SAY	"I'd send the data privately with a question: 'Should we nuance this?'"
WHY	Challenge with evidence, privately, as a question.
TWIST	"He says he's been in the industry 20 years." Hold: "Then he'll know why the data moved. I'd ask him."

HARD You were wrong

SETUP	Your recommendation in a project was challenged and you realise it was wrong.
TRAP	Doubling down.
SAY	"I'd say: 'You're right, I missed X. Here's what changes.' Updating fast is the point."
WHY	Intellectual honesty is what 'challenge conventional thinking' requires of yourself too.
TWIST	"So should we ignore your other points?" Hold: "No. Point two still holds because of Y."

Skill · Logical and analytical thought process**EASY** Estimate

SETUP	"How many UK pension schemes might buy an emerging markets equity fund?"
TRAP	Giving a number with no structure.
SAY	"Start with the number of schemes, cut to those big enough to have dedicated EM allocations, then those reviewing this year. I'd show the steps and say which numbers are guesses."
WHY	Structured estimation is what's tested.
TWIST	"Your first number's wrong." Hold: "Thanks, then the answer scales down; the method holds."

MEDIUM Explain a move

SETUP	"Our AUM rose 5% but revenue fell. How?"
TRAP	Saying 'markets'.
SAY	"Mix shift: if growth came from lower-fee products or lower-fee clients, revenue can fall. Or performance fees fell. Or the AUM rise came at quarter end, so the average was lower."
WHY	Revenue = average AUM × fee rate + performance fees.
TWIST	"Which is most likely?" Hold: "I'd check the average fee rate first; it's disclosed."

HARD Bad data

SETUP	Your analysis shows one fund's fee is negative.
TRAP	Presenting it.
SAY	"It's a data error until proven otherwise. I'd trace it to source before showing anyone."
WHY	Sense-checking is analysis.
TWIST	"No time." Hold: "Then I remove it and footnote that it's being checked."

Skill · Interpersonal and collaborative**EASY Team of strangers**

SETUP	Rotating across six teams, you meet new people each week.
TRAP	Being passive.
SAY	"Learn what each team is measured on, ask what would help them this week, and deliver one small thing well."
WHY	Collaboration starts with understanding others' goals.
TWIST	"What if they ignore you?" Hold: "I'd ask my mentor who to approach and keep it short."

MEDIUM Credit grab

SETUP	A fellow intern presents your analysis as theirs.
TRAP	Public confrontation.
SAY	"Talk to them privately first. In future share work in writing with clear ownership."
WHY	Calm, private, fact-based.
TWIST	"It happens again." Hold: "Then I raise it with my mentor, factually."

HARD Conflict between teams

SETUP	Sales wants a slide one way, marketing another, both ask you.
TRAP	Choosing sides.
SAY	"Put both versions to both people together and ask who owns the final call."
WHY	Clarify ownership; don't arbitrate above your seat.
TWIST	"Just decide." Hold: "I'll recommend one with reasons, but the owner signs off."

Skill · Passion for client servicing, sales support and relationship management**EASY Why client-facing?**

SETUP	"Why sales and marketing rather than investing?"
TRAP	Saying 'I'm not good enough for investing'.
SAY	"Because it's where the investment work meets the client's problem. I like translating something technical into a decision someone can make."
WHY	Positive motivation for the function.
TWIST	"Don't you want to be a PM?" Hold: "I want to understand investing deeply, and the best salespeople do."

MEDIUM Angry client

SETUP	A client is upset about a quarter of poor returns.
TRAP	Defending or apologising for the market.
SAY	"Listen, acknowledge, explain the drivers honestly with data, and say what the process does next. Bring in the PM if needed."
WHY	Retention through honesty.
TWIST	"They want to fire us." Hold: "Then make sure they decide on full information, and stay professional."

HARD Client asks for a promise

SETUP	A client asks you to promise the fund will beat its benchmark next year.
TRAP	Promising.
SAY	"I can't promise returns. I can explain the process, the long-term record and the risks."
WHY	No guarantees: misleading [S240].
TWIST	"Other managers say they will." Hold: "Then I'd be careful about those managers."

Team · Third Party Distribution**EASY Fund selector meeting prep**

SETUP	Prepare a one-pager for a meeting with a wealth manager's fund selector.
TRAP	Leading with marketing adjectives.
SAY	"Process, team, track record over standard periods, fees, capacity, and how it fits their model portfolio."
WHY	Selectors want comparable facts [S363].
TWIST	"They only care about fees." Hold: "Then I'd show value for money, not just the fee."

MEDIUM Platform wants a cheaper share class

SETUP	A platform asks for a cheaper 'clean' share class.
TRAP	Promising it.
SAY	"I'd note the request and pass it to the product team. Pricing decisions sit above my seat."
WHY	Pricing is governed and linked to value assessments [S242].
TWIST	"Can you hint yes?" Hold: "No. I can say we'll come back by a date."

HARD Retail end investor calls

SETUP	An end investor calls asking whether to buy the fund.
TRAP	Giving advice.
SAY	"I can't give advice. I can point them to the fund documents and suggest a financial adviser."
WHY	Advice is a regulated activity; Consumer Duty consumer understanding [S241].
TWIST	"Just say if it's good." Hold: "I'm not allowed to, for your protection."

Team · Institutional Marketing**EASY RFP question bank**

SETUP	Answer 20 standard RFP questions from the library.
TRAP	Writing new answers from scratch.
SAY	"Use the approved answer library, update dates and numbers, flag anything stale."
WHY	RFP libraries keep answers consistent and approved Inferred .
TWIST	"This question isn't in the library." Hold: "I'll draft and route to the subject expert."

MEDIUM RFP deadline clash

SETUP	Two RFPs due the same day.
TRAP	Working through the night silently.
SAY	"Tell the RFP lead early, agree what goes first, ask for help on the standard sections."
WHY	Early escalation.
TWIST	"Everyone is busy." Hold: "Then the lead decides what gets less polish."

HARD RFP asks for a claim we can't support

SETUP	RFP asks if our ESG integration is 'best in class'.
TRAP	Saying yes.
SAY	"Describe what we actually do with evidence, not superlatives."
WHY	Anti-greenwashing rule [S245].
TWIST	"Competitors say it." Hold: "Our answer has to be provable."

Team · Direct Sales**EASY Call notes**

SETUP	Write up a sales meeting into the CRM.
TRAP	Vague notes.
SAY	"Who, what was discussed, client needs, next steps with dates."
WHY	CRM discipline.
TWIST	"Do it later." Hold: "Same day, while it's accurate."

MEDIUM Client hints at a search

SETUP	A client says they may review their EM manager.
TRAP	Telling everyone.
SAY	"Log it, tell the salesperson, keep it confidential."
WHY	Client confidentiality.
TWIST	"Can we call the consultant?" Hold: "The salesperson decides."

HARD Gift offered

SETUP	A client offers you event tickets.
TRAP	Accepting.
SAY	"Thank them, check the gifts and entertainment policy, declare."
WHY	Inducements and conflicts rules [S421].
TWIST	"It's small." Hold: "Still declared."

Team · Consultant Relations**EASY Database update**

SETUP	Update eVestment with quarter-end data.
TRAP	Late or inconsistent data.
SAY	"On time, matching official data, reconciled."
WHY	Consultants screen managers through these databases [S183].
TWIST	"Can we skip a quarter?" Hold: "Gaps look bad in screens."

MEDIUM Consultant downgrade

SETUP	A consultant downgrades a strategy rating.
TRAP	Arguing.
SAY	"Understand why, share facts, ask what would change their view."
WHY	Long relationship.
TWIST	"Clients will leave." Hold: "Then speed and honesty matter more."

HARD Consultant asks for hospitality

SETUP	A consultant hints a dinner would help.
TRAP	Agreeing.
SAY	"Route to compliance; hospitality is controlled."
WHY	Inducements; CMA consultant order context [S255] [S421].
TWIST	"Everyone does." Hold: "Then it's in the register."

Team · Alternative Marketing**EASY** Explain an alternative

SETUP	Explain convertible arbitrage simply.
TRAP	Jargon.
SAY	"Buy a convertible bond, sell the share short, earn from mispricing while hedging share price risk."
WHY	Plain English.
TWIST	"Is it risk-free?" Hold: "No: credit, liquidity and model risk."

MEDIUM Who can buy

SETUP	A retail investor asks to invest in an alternative fund.
TRAP	Sending documents.
SAY	"Check eligibility rules; many alternatives are for professional investors only."
WHY	Client categorisation [S240].
TWIST	"They're wealthy." Hold: "Compliance decides."

HARD Performance fee question

SETUP	A client asks how the performance fee works with a high-water mark.
TRAP	Guessing.
SAY	"Explain high-water mark generally, then check the specific fund documents before confirming."
WHY	Accuracy.
TWIST	"Just ballpark it." Hold: "Exact terms matter here."

Team · Central Marketing Services**EASY** LinkedIn post

SETUP	Draft a LinkedIn post on a new research paper.
TRAP	Performance claims.
SAY	"Summarise the idea, link to the paper, no performance claims, route for approval."
WHY	Social media posts are financial promotions [S240].
TWIST	"It's just social media." Hold: "FCA treats it the same."

MEDIUM Event no-shows

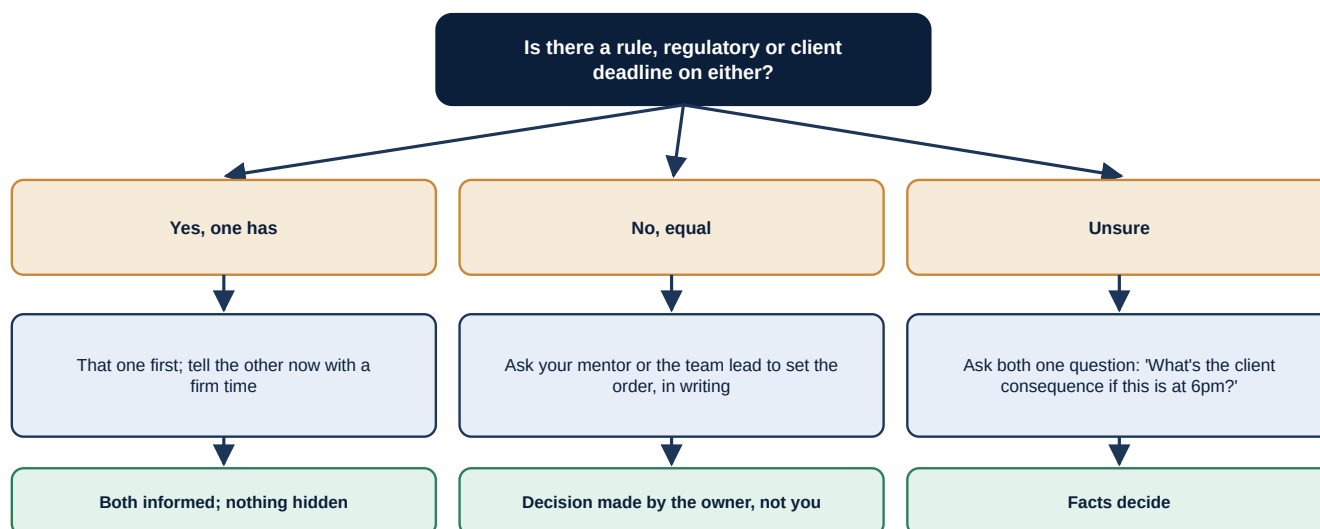

SETUP	A client event has 40% no-shows.
TRAP	Blaming invitees.
SAY	"Look at timing, audience fit, reminders; propose changes with data."
WHY	Measurement.
TWIST	"Cancel events?" Hold: "Test smaller formats first."

HARD Brand misuse

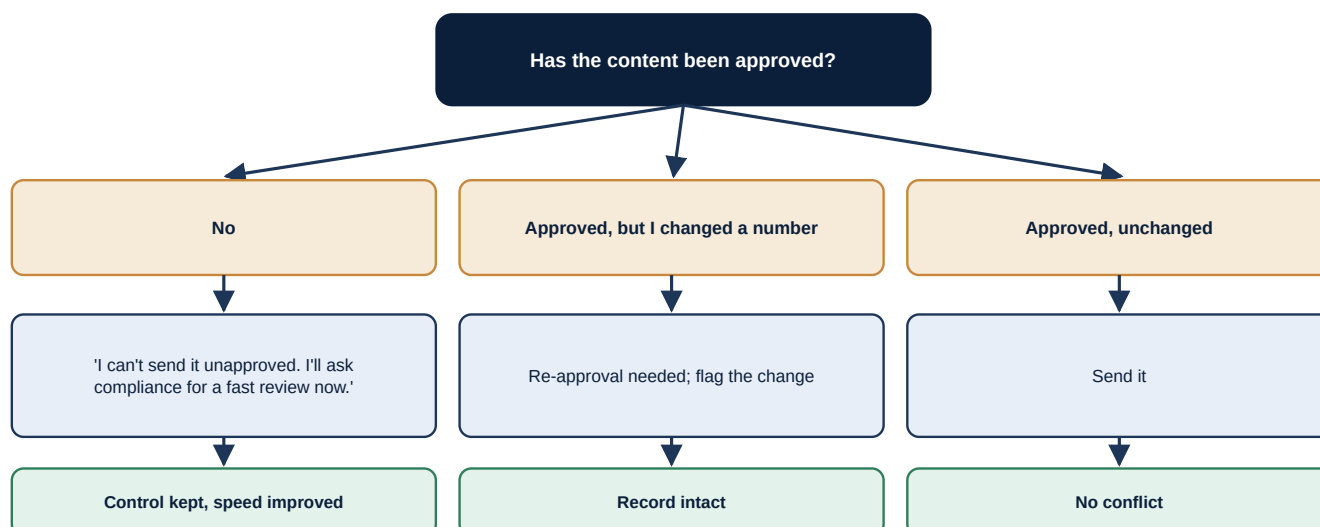

SETUP	A partner uses the Lazard logo on unapproved material.
TRAP	Ignoring.
SAY	"Flag to brand and compliance."
WHY	Brand and promotion control.
TWIST	"It's free advertising." Hold: "Unapproved claims under our name are our risk."

12.3 The composure set: five hard scenarios with decision trees

Decision tree A: two senior people, one scarce resource

Decision tree B: a senior person asks you to skip a control

Decision trees: author's framework **Inferred**, anchored on COBS 4 [S240], UK MAR Art. 10 [S422], COBS 4.6 [S420] and LAML's marketing sign-off policy [S136].

HARD Two senior people want the same scarce resource

SETUP	Two MDs each want you to finish their quarter-end deck first; both are due at 5pm.
FIRST ASK	Is there a rule, regulatory or client deadline on either?
IF	Yes, one has → That one first; tell the other now with a firm time → <i>Both informed; nothing hidden</i>
IF	No, equal → Ask your mentor or the team lead to set the order, in writing → <i>Decision made by the owner, not you</i>
IF	Unsure → Ask both one question: 'What's the client consequence if this is at 6pm?' → <i>Facts decide</i>

HARD A senior person asks you to skip a control

SETUP	'Just send the factsheet; compliance can see it after.'
FIRST ASK	Has the content been approved?
IF	No → 'I can't send it unapproved. I'll ask compliance for a fast review now.' → <i>Control kept, speed improved</i>
IF	Approved, but I changed a number → Re-approval needed; flag the change → <i>Record intact</i>
IF	Approved, unchanged → Send it → <i>No conflict</i>

HARD You hear something possibly confidential or inside information

SETUP	In the canteen you hear Advisory colleagues name a company LAM owns in a live deal.
FIRST ASK	Could it be non-public and price-sensitive?
IF	Yes or maybe → Write down what you heard; tell compliance only → <i>Wall protected; you are protected</i>
IF	Clearly public → Note the source; still mention it to your mentor if it touches a client → <i>Transparency</i>
IF	You already told someone → Tell compliance that too, now → <i>Damage limited</i>

HARD A mistake you made

SETUP	Your prospect list emailed a retail individual a professional-only document.
FIRST ASK	Has it reached anyone outside the firm?
IF	Yes → Tell your mentor and compliance immediately; they decide on contact → <i>Fast, owned, fixed</i>
IF	No, caught internally → Fix, tell the reviewer, change the process → <i>Lesson captured</i>
IF	Not sure → Assume yes and escalate → <i>No false comfort</i>

HARD Incomplete information against a deadline

SETUP	The client meeting is in an hour; one benchmark number is unverified.
FIRST ASK	Can it be verified in time?
IF	Yes → Verify, then send → <i>Correct and on time</i>
IF	No → Pull the slide; send the figure after the meeting with a note → <i>Correct, slightly later</i>
IF	Partly → Show with a clear 'to be confirmed' only if compliance agrees → <i>Honest labelling</i>

12.4 The CV grill

A three-levels-deep attack works like this. Level 1: "Tell me about X." Level 2: "Why did you do it that way?" Level 3: "What would you do differently, and what did it actually change?" Most candidates prepare level 1 only. Prepare all three for every line.

Attack	What they are testing	Frame-holding answer
'What did <i>you</i> do, not the team?'	Ownership	Name your specific actions with verbs: 'I built', 'I chose', 'I persuaded'.
'So what? What changed because of you?'	Impact	One number or one observable result. If none, the lesson.
'That sounds small.'	Composure	'It was small. What I learned was ... and that's directly relevant to quarter-end work.'
'Why did you leave / switch?'	Judgement	Pull towards something, not away from something.
'This grade/result is weak.'	Honesty	Own it in one line; show the trend since.
'You don't have finance experience.'	Learning agility	What you've done to learn (this guide's content), and a transferable skill.
'Explain this society role in one sentence.'	Clarity	Role, size, result.

Attack	What they are testing	Frame-holding answer
'What would your teammates say is your weakness?'	Self-awareness	A real one, with what you now do about it.

SAY THIS IN THE INTERVIEW

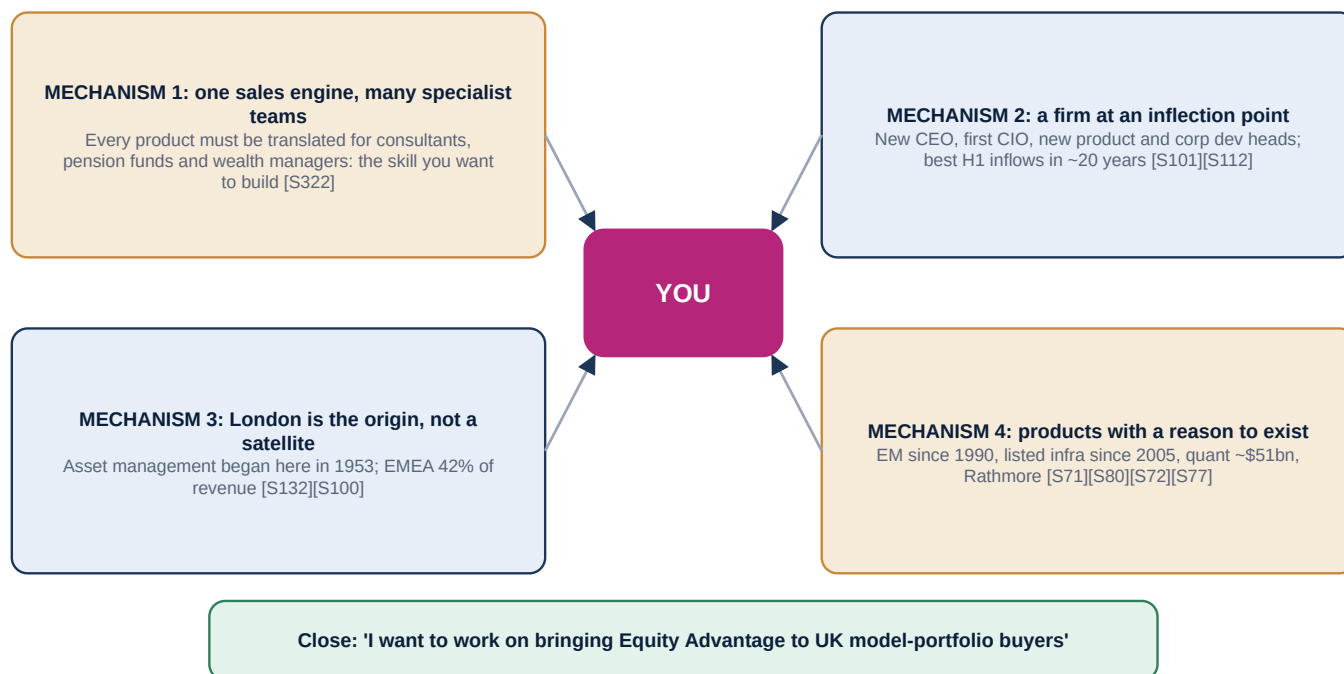

The four-line drill for every CV bullet: **(1) The situation in one sentence. (2) What I did, with verbs. (3) The result, with a number. (4) What it taught me that matters at LAM.** Write it out for each bullet, then say it aloud in under 40 seconds.

PART 13

"Why Lazard Asset Management?"

Three lengths, built from mechanism rather than adjectives. Each line depends on a fact that is true of LAM and not of its rivals.

Why Lazard Asset Management, on one page

'Why the firm' on one page

Source: Author's synthesis **Inferred** from the sources cited inside the figure.

13.1 Thirty seconds

SAY THIS IN THE INTERVIEW

"Three reasons. First, LAM runs many specialist investment teams through one shared sales and marketing engine, so the job is translating EM, listed infrastructure and quant for very different buyers. That translation is the skill I want. Second, the firm is at a turning point: a new CEO, a first-ever CIO, and the best first-half inflows in nearly 20 years. Third, London isn't a satellite. Lazard's asset management started here in 1953."

13.2 Two minutes

SAY THIS IN THE INTERVIEW

"I want to work in asset management sales and marketing because that's where the industry is now won. BCG put it bluntly this year: distribution decides who captures flows.

LAM is a specific version of that problem. It's a specialist shop. Three-quarters of its \$290 billion is active equity, and its strongest counters are things like emerging markets, which it has run since 1990, and listed infrastructure, where it launched one of the first strategies in 2005. Those are areas where the evidence for active management is stronger than in large US stocks. But the products only reach clients through one central distribution network, so the same strategy has to be explained to a consultant, to an LGPS pool and to a wealth manager building model portfolios. That's why this internship rotates across six teams, and that's what I want to learn.

It's also a moment of change. Chris Hogbin arrived in December, LAM appointed its first CIO in January and a Head of Product in July. Flows turned positive in the first half, though Q2 and August were negative, so the work of keeping that momentum is live.

And it's London. Lazard's asset management began here in 1953, the entity I'd join is that original company, and EMEA earns 42% of LAM's revenue. I'd be in the place where a lot of this gets decided."

13.3 The close: one specific thing to work on

SAY THIS IN THE INTERVIEW

"If I could choose one thing to contribute to, it would be the go-to-market for Equity Advantage in UK wholesale. The Europe ex-UK fund launched on 30 September for model-portfolio providers, the quant platform has doubled to about \$50 billion, and UK flows are going to systematic and risk-controlled strategies. I'd love to help build the prospect list and the competitor analysis for that, including the question of whether an active ETF version makes sense in Europe."

13.4 What most candidates say versus what you can say

Most candidates say	You can say	Why yours is better
'Lazard is prestigious.'	'Asset management began in London in 1953; LAML is that entity; EMEA is 42% of LAM revenue.' [S132][S100]	Specific, checkable, London-relevant
'I like the collaborative culture.'	'Many specialist teams, one shared distribution engine: the job is translating each team's edge for each channel.' [S322]	Explains why the culture has to be collaborative
'LAM is a leading global asset manager.'	'It's a mid-sized specialist at ~45 bps, between T. Rowe and Artisan.' [S353][S351]	Accurate; shows competitive analysis
'Asset management is growing.'	'Over 80% of 2025 revenue growth came from markets; flows decide winners now.' [S3]	Shows you know why sales matters
'I've read about your strong results.'	'Best H1 flows in ~20 years, but Q2 and August were negative.' [S101][S201]	Balanced; you read the numbers
'I'm interested in ESG.'	'The anti-greenwashing rule since May 2024 means every ESG claim in a deck must be provable.' [S245]	Connects interest to the job's controls

13.5 The honest counter-case

- **Flows are not yet consistently positive.** −\$35.7bn (2024), −\$18.1bn (2025), negative Q2 and August 2026 [S100][S101][S201].
- **Concentration.** Top 10 clients = 24% of AUM; one exit cost \$16.8bn [S322][S149].
- **Margins.** LAM margin 23.1% in 2025, down from 28.4% in 2023; firm comp ratio 69.9% vs ≤60% target [S100][S101].
- **Scale.** Small next to Nuveen-Schroders or AB; sub-scale in private markets [S17][S320].
- **Leadership churn.** Three LAM CEOs since 2022 [S100].

- **Small London intake.** Only one live London AM S&M posting [S150]; the rest of the team hires rarely.

YOUR OPINION GOES HERE

Why you still want it, in one sentence, despite the above: _____

PART 14

Cheat sheet

One page. Read it ten minutes before you start.

The protocol (45-75s)

- **Steady:** pause, breathe out
- **Sort:** "two things in tension: X and Y"
- **Act:** "first... then... and I'd tell..."
- **Close:** "so the client gets the right answer"

Priority order

1. Rules and the firm's name
2. Fair treatment of every client
3. Accuracy and the record
4. Speed

"Protect the client and the firm, then get it right, then get it fast."

Never

- Invent a performance number
- Pass on anything heard about Advisory
- Send unapproved material
- Promise returns
- Say "Lazard Ltd", "Evan Russo is CEO", "Stratton Street"
- Say rates are falling in 2026
- Call Schroders independent

Counters

- Interrupted → acknowledge, finish in one line
- Contradicted → "Fair. Here's my evidence..."
- Silence → add one fact; don't retreat
- Escalation → same priorities, escalate sooner
- Authority squeeze → "I still need sign-off; I can make it faster"
- False choice → find the third option
- Knowledge trap → "I don't know; here's how I'd find out"
- Badmouth → facts about rivals, then clients

Lines to have ready

- **Shop:** "A specialist shop with a famous name over the door"
- **Model:** "Many specialist teams, one shared sales engine"
- **Flows:** "Momentum, with concentration risk"
- **Active:** "Worth paying for where information is imperfect, at a fair fee"
- **Rules:** "Fair, clear, not misleading; standard periods"
- **Markets:** "An energy-shock year: Fed hiked, BoE 3.75% on hold, gilts at multi-decade highs"

Numbers if asked

- AUM \$290.3bn (31 Aug 26); record \$284.7bn (30 Jun)
- ~45 bps fee (computed)
- H1 26 net +\$7.4bn; Q1 +\$9.0bn; Q2 -\$1.6bn; Aug -\$1.8bn
- 2025: gross in \$63.2bn; net -\$18.1bn
- 75% equity; EM equity \$51.2bn (+55%)
- 82% inst./intermediary; top 10 = 24%
- EMEA 42% of LAM revenue
- 1,284 LAM staff; Lazard 3,309
- London AM since 1953; HQ 20 Manchester Square
- GLI since Oct 2005; EM since 1990; quant ~\$51bn
- UK industry £11.1tn; margin 18% (2024)
- CCI mandatory 8 Jun 2027; Consumer Duty 31 Jul 2023
- Q3 results 22 Oct 2026

People

- Orszag (Lazard CEO) · Hogbin (LAM CEO) · Van Nostrand (CIO)
- Taylor (London CEO) · Choi (CMO) · Maddock (UK TPD)

One question to ask

"The Europe ex-UK Equity Advantage fund was pitched at model-portfolio providers. Is an ETF version on the agenda for Europe?"

Sources for every number: Parts 3, 5, 6 and 7 [S100][S101][S139][S152][S212][S233][S244].

PART 15

Glossary

142 terms in plain English.

Term	Plain-English meaning
40-Act fund / N-CSR / 497 / N-14	US registered fund, its shareholder report, its prospectus filing, and its merger/reorganisation registration.
Active ETF	an actively managed strategy in an ETF wrapper.
Active ETF; mutual-fund-to-ETF conversion	an exchange-traded fund that is actively managed. A conversion is a tax-free reorganisation of an existing mutual fund into an ETF.
Active management	trying to beat a benchmark by picking securities.
Adjusted compensation ratio	adjusted comp and benefits ÷ adjusted net revenue. The Lazard 2030 target is 60% or below.
Adjusted net revenue (non-GAAP)	Lazard's revenue measure excluding items such as distribution fees passed to third parties, non-controlling interests and one-off gains (for example Edgewater).
Adjusted operating margin	adjusted operating income ÷ adjusted net revenue.
AIF / AIFMD	Alternative Investment Fund and the EU directive regulating their managers and marketing.
Alpha	Return above a benchmark that comes from the manager's skill.
Assessment of Value (AoV)	an annual published review of whether a UK fund's charges are justified (COLL 6.6.20R).
Asset manager / investment manager	a firm that invests other people's money for a fee.
AUM (assets under management)	the total market value of money a manager runs.
AUM / RAUM	assets under management. RAUM is "regulatory AUM" as defined for SEC Form ADV, which can differ from company-reported AUM.
Average AUM	the average of month-end AUM over a period. Fee revenue tracks average AUM, not ending AUM.
Basis point (bp)	0.01%. A 50bps fee = 0.50% a year.
Benchmark	The index a fund is measured against, e.g. MSCI Emerging Markets.
bps (basis points)	0.01%. LAM's implied fee rate is about 44 to 45 bps [derived].
Buy list / panel	an approved list of funds a distributor will use.
Buy-in / buy-out (bulk annuity)	a pension scheme transfers liabilities to an insurer.
Carried interest (carry)	a private-equity manager's share of profits (often 20%).
CCI (Consumer Composite Investments)	the new UK retail disclosure regime and its "product summary". Optional from 6 Apr 2026, mandatory from 8 Jun 2027.
Client Service Associate	supports existing clients with reporting, requests, meetings and RFP follow-ups.
COBS 4 / "fair, clear and not misleading"	the FCA rule for all communications and financial promotions.
Collective investment trust (CIT) / group trust	a US bank-maintained pooled vehicle for retirement plans.
Consultant / gatekeeper	an investment consultant who advises asset owners on manager selection, and the fund selectors and buy-lists of wealth managers and platforms.
Consultant Relations	the asset-manager team that manages relationships with consultants' research teams.
Consumer Duty	the FCA principle requiring good retail outcomes. Four outcomes: products and services, price and value, understanding, support.
Contextual alpha	Lazard's 2025-26 house phrase for blending macro, geopolitical and regulatory insight into advice and investing.
Contextual alpha (Lazard)	Lazard's phrase for macro, geopolitical and regulatory insight built into advice and investing.
Convertible arbitrage / hedged convertibles	long a convertible bond and short the issuer's stock. Returns come from coupon, pull-to-par, volatility trading and special situations.
Cost-income ratio	costs ÷ revenue (lower is better).
CRM (e.g. Salesforce)	software tracking clients, meetings and pipeline.

Term	Plain-English meaning
Custodian	The bank that holds a client's assets; the manager only gives instructions.
DB pension (defined benefit)	the employer promises a set income and bears the investment risk.
DC pension (defined contribution)	the member's pot depends on contributions and returns.
DDQ	due diligence questionnaire.
Declassified board	all directors stand for election annually, rather than in staggered classes. Approved by Lazard shareholders in May 2026.
DFM / MPS	discretionary fund manager / model portfolio service, i.e. ready-made portfolios used by advisers.
Edgewater Funds	a US private equity manager formerly consolidated in Lazard's AM segment. A controlling stake was sold in Feb 2026.
EMD hard vs local currency	emerging-market debt issued in USD/EUR vs. in the issuer's own currency.
Endowment	a charity's or university's long-term investment pot.
Equity Advantage	LAM's quantitative, systematic equity platform. Every trade is validated by a PM.
ETF (exchange-traded fund)	a fund traded on a stock exchange like a share.
Evergreen / semi-liquid fund	an open-ended private-markets fund with periodic, limited redemptions.
eVestment	an institutional database where managers upload strategy data for consultants and investors.
FCP / SICAV	French and Luxembourg fund legal forms (LFG uses FCPs).
Fee compression	steady decline in average fees from passive competition and buyer power.
Fiduciary management (OCIO)	the consultant or manager takes delegated control of a scheme's investments.
Financial promotion	Any communication inviting someone to invest; regulated by COBS 4.
Fixed Overheads Requirement (FOR)	one quarter of the prior year's fixed overheads. It is the binding capital requirement for the LAML Group.
FRN (Firm Reference Number)	FCA register ID (LAML 121839; LFM 122190).
FUM (funds under management)	AUM in pooled funds specifically (the IA uses this for retail funds).
Fund platform	an online administration service where advisers and investors hold funds.
Fund selector / gatekeeper	the person or team deciding which funds go on a buy list.
GIPS	Global Investment Performance Standards, a voluntary standard for presenting track records.
GP stake	ownership of the management company (general partner) of a private-markets firm (e.g. Elaia).
Great convergence	McKinsey's term for traditional and alternative managers blending.
Greenwashing	overstating the environmental or social credentials of a product.
Gross inflows / outflows / net flows	new money in, money out, and the difference. AUM change = net flows + market appreciation + FX ± acquisitions or divestitures.
ICARA	Internal Capital Adequacy and Risk Assessment, the FCA process for assessing harms and capital and liquidity needs.
IFA	independent financial adviser.
Inducements	payments or benefits from product providers to distributors, heavily restricted.
Information barrier	Controls that stop confidential information moving between parts of a firm, e.g. Advisory and AM.
Information ratio	Return above the benchmark divided by tracking error: consistency of outperformance.
Inside information	Precise, non-public, price-sensitive information; using or passing it on is illegal (UK MAR).
Institutional marketing / Direct sales	pitching directly to pension funds, insurers, SWFs, endowments and similar institutions.
Investment consultant	an adviser to pension trustees on strategy and manager selection (e.g. Mercer, WTW, Aon, LCP, Isio, Hymans Robertson, Redington).
K-factors (K-AUM, K-CMH)	capital charges tied to activity, for example 0.02% of average AUM for K-AUM.
Lazard 2030	Orszag's strategy, launched Sept 2023. Its three dimensions are Relevance, Revenue (double by 2030) and Returns (10-15% TSR).
Lazard CL	the planned third global business combining Lazard's private capital advisory with Campbell Lutyens (Advisory, not AM).

Term	Plain-English meaning
Lazard Elaia Capital	a technology growth/venture private equity platform with Elaia Partners. Lazard holds a 51% GP stake since 2026.
Lazard Group LLC	the Delaware operating holding company beneath Lazard, Inc.
LDI (liability-driven investment)	hedging a pension's interest-rate and inflation risk.
LFG / LFB / CFLF	Lazard Frères Gestion (Paris asset and wealth management, AMF-regulated) / Lazard Frères Banque / Compagnie Financière Lazard Frères (the French holding company).
LGPS	Local Government Pension Scheme; England & Wales assets are now in six pools.
LGPS / pools	the UK Local Government Pension Scheme; its assets are being consolidated into pools (now six).
Listed infrastructure	equities of infrastructure owners and operators (utilities, toll roads). A LAM specialty (GLIX).
Listed infrastructure ("Preferred Infrastructure")	Lazard's approach of buying listed owners of monopoly-like regulated assets (utilities, toll roads, rail).
Malus / clawback	reducing unvested pay / recovering paid pay after misconduct or failures.
Management fee	the annual % of AUM charged.
Management fee / incentive (performance) fee	a fee on assets (bps) or a share of outperformance against a benchmark or hurdle.
Management fee vs incentive (performance) fee	an asset-based fee vs. a share of returns above a hurdle or high-water mark (hedge funds) or carried interest (PE).
Mansion House Accord	the May 2025 voluntary pledge of 10% of DC defaults in private markets by 2030.
Master trust	a large multi-employer DC trust scheme.
Megafund	a £25bn+ DC default arrangement (Pension Schemes Act 2026).
MIFIDPRU	the FCA prudential sourcebook for UK investment firms. MIFIDPRU 8 requires public disclosure of risk, governance, own funds and pay.
Money in motion	assets expected to switch managers or products over a period.
MRT (Material Risk Taker)	staff whose activities materially affect the risk profile. Their pay is subject to malus and clawback.
Net flows	client inflows minus outflows. This excludes market and FX moves.
Net flows / net sales	money in minus money out.
Non-compensation ratio	other operating costs ÷ adjusted net revenue. The target is 16% to 20%.
Non-SNI	"not small and non-interconnected", the larger MIFIDPRU category (LAML Group).
OCF / ongoing charge	annual running cost of a UK/EU fund as a % of assets. It includes the annual management charge (AMC).
OEIC / ACD	UK open-ended investment company / its authorised corporate director (LFM is the ACD for Lazard Investment Funds).
OEIC / unit trust	UK-domiciled open-ended fund structures.
OFR / TMPR	Overseas Funds Regime / Temporary Marketing Permissions Regime for EU funds sold in the UK.
Operating margin	operating profit ÷ revenue.
Organic growth	net flows as a % of starting AUM, i.e. growth not caused by markets.
Passive / index tracking	copying an index at low cost.
PECR	the UK e-privacy rules on electronic marketing (emails, cookies).
Performance fee	an extra fee for beating a benchmark or hurdle.
PRIIPs KID / UCITS KIID	the old standardised key information documents.
Private markets / alternatives	unlisted assets such as private equity, private credit, infrastructure, real estate, plus hedge funds.
Professional client	A client category (institutions, large firms) receiving less protection than retail.
PSC (person with significant control)	the Companies House record of an entity's controlling owner (for LAML, Lazard Asset Management (UK) Holdings Ltd).
Quant / systematic ("Equity Advantage")	model-driven stock selection across many holdings; typically lower fee.
Quartile	A fund's rank within its peer group, from 1st (top 25%) to 4th.
Relative value / "financial productivity"	Lazard equity language for buying companies with high or improving returns on capital at attractive valuations.

Term	Plain-English meaning
Relative value / quality style	buying companies cheap relative to fundamentals, or with high returns and strong balance sheets. LAM's dominant equity styles, which lag in growth-led markets (10-K).
Retail client	An individual investor; gets the most protection, including Consumer Duty.
Revenue yield / fee margin	revenue ÷ average AUM, in bps.
Reverse solicitation	an investor approaching a manager unprompted. It is restricted after pre-marketing under EU rules.
RFP / DDQ	request for proposal / due diligence questionnaire, the standard documents in institutional searches.
RFP / RFI	request for proposal / information, a formal questionnaire in a manager search.
SDR	the UK Sustainability Disclosure Requirements, with four labels and the anti-greenwashing rule.
Segregated mandate	a portfolio run solely for one institutional client.
Segregated mandate / separate account	a client-specific portfolio, not pooled.
Separately managed account (SMA) / separate account	a portfolio held in the client's own name, as opposed to a pooled fund.
SFDR / SFDR 2.0	EU sustainable finance disclosure rules (Article 8/9), with a proposed redesign into Sustainable / Transition / ESG Basics.
SFDR Article 8	an EU sustainability disclosure category for funds that "promote" ESG characteristics.
Share classes A / C / J / R / S / EA	different fee and investor-eligibility tiers. Clean classes have no trail commission; lower-cost classes serve platforms and institutions.
Sharpe ratio	Return above cash divided by volatility: reward per unit of risk.
SM&CR	the Senior Managers & Certification Regime (individual accountability). Being reformed via PS26/6.
Sovereign wealth fund	a state-owned investment fund.
Sub-advisory	LAM manages a sleeve of another firm's fund (often a multi-manager mutual fund). These mandates are large, low-fee and concentrated.
Swing pricing	NAV adjustment that passes dealing costs on to the investors who are trading.
Target market (product governance)	the defined set of clients a product is designed for.
Targeted support	the new FCA regime (from 6 Apr 2026) for suggestions to groups of similar consumers, sitting between guidance and advice.
Third Party Distribution / Wholesale / Intermediary	selling through banks, platforms, wealth managers, fund selectors and RIAs, rather than directly to institutions.
Third-party distribution / wholesale	selling funds through intermediaries rather than directly.
Three Lines of Defence	business management (1st), risk and compliance oversight (2nd), internal audit (3rd).
Tier 2 / AT1 / CoCos	subordinated bank capital instruments (Lazard Credit Fi SRI's universe).
Tracking error	How much a fund's returns differ from its benchmark's.
Transfer pricing (LAML)	fee shares paid between Lazard affiliates for portfolio management, research and distribution done in London on assets booked elsewhere.
Treating Customers Fairly (TCF) / Consumer Duty	FCA conduct principles. TCF is named in LAML disclosures; Consumer Duty is the newer FCA standard (not discussed in the documents I read).
TSR (total shareholder return)	share price change plus dividends. The Lazard 2030 target is 10% to 15% a year.
UCITS	the EU regulated fund framework for retail funds; often Irish or Luxembourg domiciled.
UCITS / ManCo	EU retail-fund standard (Irish plc umbrellas); the management company here is Lazard Fund Managers (Ireland) Ltd.
UK MAR	the market abuse regulation (insider dealing, unlawful disclosure, manipulation).
Wealth manager / private bank	manages money for affluent individuals; also a buyer of funds.
Won-but-not-funded pipeline	mandates awarded but not yet transferred. They can be delayed or never fund (10-K warning).
Wrap / SMA	US broker platform separately managed accounts for which LAM provides the model or portfolio.

PART 17

Gaps and open questions

What could not be established, so you know exactly where the evidence is thin.

Area	What is missing	How to close it
Your inputs	Candidate degree, year, university, prior knowledge and stage were left blank in the brief. The guide assumes zero knowledge and the application stage.	Personalise Parts 12.4 and 13 with your own CV lines.
Deadline	Posting end date 22 Oct 2026 [S152] conflicts with a 4 Oct window shown for FA interns and one Bright Network snippet [S281][S301].	Apply immediately; email LAMUKRecruiting@lazard.com [S280].
Assessment provider	Criteria Corp is confirmed for Lazard's Netherlands FA bundle [S282]; its use for LAM London is inferred. Video question count and timings conflict (3-5 questions; 15s-2min prep).	The invitation email will name the platform.
Assessment centre	LAM-specific formats come from undated forum snippets [S296]. Virtual or in person is unclear.	Ask the recruiting team when invited.
London team	No public London lead for Consultant Relations, Institutional Marketing/RFP or Central Marketing Services. The second Co-Head of European Distribution is unidentified. Headcount 30-60 is an estimate.	LinkedIn search; ask in interview.
UK contact page	Undated; roles may be stale [S174].	Check LinkedIn before naming anyone.
LAML FY2025 accounts	Showing overdue at Companies House on 3 Oct 2026 [S132].	Re-check; would update UK revenue, profit, staff.
Q3 2026 results	Due 22 Oct 2026 [S205]; September AUM due ~10 Oct.	Update flows and AUM if the interview is later.
Peer data	Fee margins for Ninety One, Jupiter, Janus Henderson, Wellington; peer headcounts; several peer founding years (general knowledge).	Company results; treat founding years as unverified.
Products	No European UCITS active ETF found; Irish equity UCITS sizes and Japanese Strategic Equity size are snippet-only; LFG fund sizes mostly missing [S96].	LAM UK fund centre.
Named mandates	No verified 2025-26 trade-press report naming a pension fund hiring LAM; Wales Pension Partnership sub-fund unnamed [S88].	IPE / P&I (paywalled).
Regulation	MiFID II product governance and inducement details, AoV start date (2019) and SDR label start date are from background knowledge; SFDR 2.0 Parliament vote (Sept 2026) unconfirmed [S249].	FCA Handbook; EU Parliament site.
Macro	New Chancellor's identity unverified; ISA reform status under the new government unconfirmed; MSCI EM year-to-date return not sourced [S239][S231].	gov.uk, MSCI factsheet.
Controversies	Enforcement checks were by web search, not systematic register searches. No LAM-specific action found [S119].	FCA Register, SEC litigation releases.
Strategy	Whether the 2023 target of ~30% of AM revenue from alternatives, private markets and wealth survives under Hogbin [S116].	Next annual letter; ask in interview.
Paywalled	Bloomberg on Hogbin (Jul 2026) [S208]; Bloomberg on the 2018 split debate [S333][S334]; IPE interview with Jeremy Taylor [S177].	Library or free summaries.
Tools	Salesforce confirmed only for US distribution; Qvidian only at LFG; Seismic, eVestment, Morningstar Direct at LAM London unconfirmed.	Ask your mentor in week one.

17.1 Final self-check

Check	Result
Only the PDF is delivered	Yes. One PDF in /output; working files deleted after rendering.
Every figure has a source and date; estimates labelled	Yes. Every figure caption carries sources and dates. Estimates and snippet-only figures are drawn dashed and labelled 'est.' or 'snippet' on the chart.
A beginner can read Parts 1-3 without another source	Yes. Terms are defined in KEY TERM boxes at first use and in the glossary.
The shop analogy covers customers, why they buy, every range, named products, rivals and real examples	Yes (Part 2: 7 customer types, 6 personas, 4 shelves, 43 named products, 12 rivals, 5 product stories).

Check	Result
'Why LAM' is mechanism, not adjectives	Yes. Each line rests on a LAM-specific fact (1953 London entity, shared distribution engine, first CIO, EM/GLI/quant records).
Regulation is current and dated	Yes, as of 3 Oct 2026. Items from background knowledge are flagged in the timeline and in 17.
Assessment platform separates confirmed from reported	Yes (Part 9 tables and funnel colour coding).
Every JD duty line, skill line and team area has three scenarios; composure set has decision trees	Yes: 8 duties + 4 skills + 6 teams = 54 cards; five composure scenarios each with a decision tree (two also drawn as diagrams).
People sections hold only public professional information	Yes. Sources are firm pages, press releases, Companies House and published interviews.
PDF rendered; contents page numbers correct; figures checked for clipping	Yes. Two-pass render resolved every contents anchor; all diagram pages were rasterised and checked, and clipped labels were fixed and re-rendered.
What could not be found is listed	Yes, in the table above.
