PART 0

How to use this pack, and the 10-minute version

Today is 5 October 2026, application day. The interview will probably fall in late October to December.

SOURCE UNCERTAIN

Apply first. The 2027 window opened at 09:00 on 5 October 2026 for 24 hours and may close early "subject to volume of applications" **Confirmed** [S1]. Everything else in this pack can wait an hour.

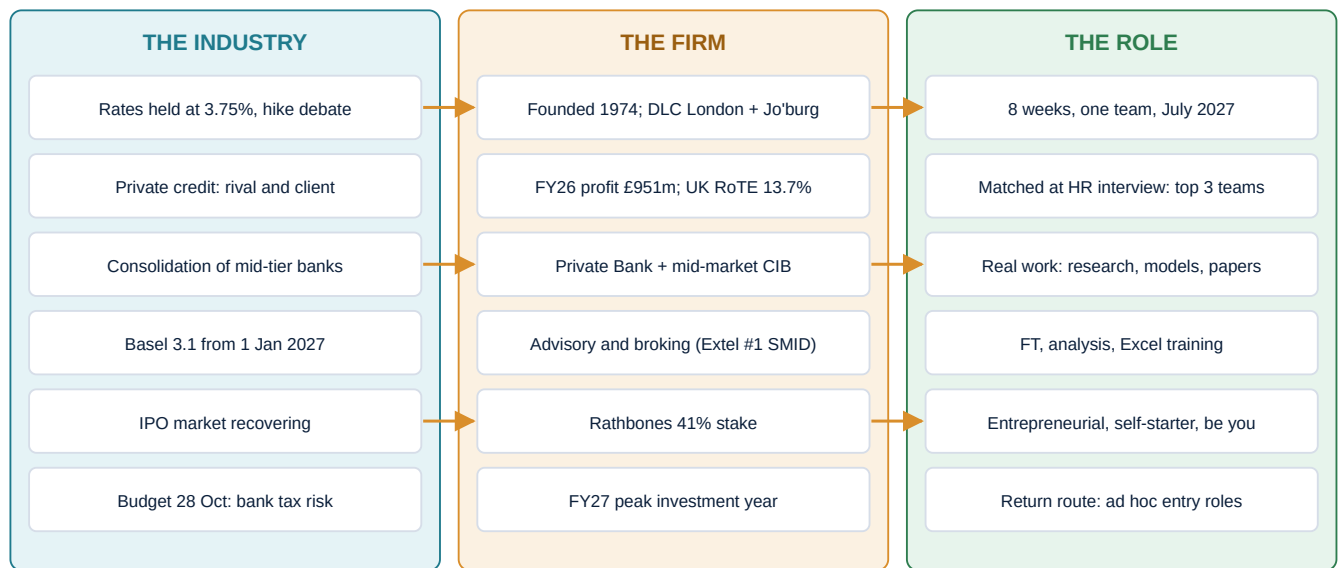

The 10-minute emergency version

- What it is:** an 8-week summer internship in one team of Investec's UK Specialist Bank, chosen with you at the HR interview. Any degree; penultimate or final year [S1].
- The process:** CV, then a HireVue (three strengths questions, one minute each), then a 30-minute HR interview (name your top three teams), then a 30-minute team panel (situational). Reported, not official detail [S7, S41].
- The firm in one line:** a UK/South African specialist bank and wealth group, founded 1974, that combines a private bank with mid-market lending, advisory and broking [S120, S121].
- Numbers:** FY26 group profit £951.0m; ROE 13.6%; UK RoTE 13.7%, below target; FY27 is the "peak investment year" [S70].
- What is changing:** a new UK Corporate Bank launching 2026; UK private bank adding current accounts and cards in H2 2027; Rathbones (41% owned) moving to Investec-led advice [S89, S120, S268].
- Your why:** one bank for the founder and the company; a business being built; a bank small enough to own real work (Part 12).
- The macro:** Bank Rate 3.75%, three MPC members voting to hike; Budget 28 Oct; Basel 3.1 from 1 Jan 2027 [S150, S157, S244].
- The method under pressure:** steady, sort, act, close; integrity and accuracy before speed (Part 11).
- Never:** say "best"; name Wealth & Investment as a team; quote the windfall tax as policy.
- Ask:** "What would tell you by FY28 that the UK investments are working?"

How to use the pack

If you have	Read
10 minutes	This page and the cheat sheet (Part 13)
1 hour	Parts 12, 2, 1, then the HireVue questions in Part 9
An evening	Parts 0 to 4, 9 and 11
A week	Everything, then re-read Part 7 the night before and check the dates

Confidence tags: **Confirmed** primary source or two credible outlets; **Reported** one source or a search snippet; **Inferred** the author's reasoning. Every [Sxx] resolves in Part 15.

Figure 1 The master map: industry, firm and role, connected**YOUR ANSWER CONNECTS ALL THREE**

Industry pressure → Investec's integrated, relationship-led bet → why an intern in a team being built learns fastest

Summary of Parts 1 to 7; sources there.

PART 1

The role, decoded line by line, and the team mapped

What each sentence of the job description really means, a day in the seat, and the people behind the process.

The job description, line by line

The 2027 posting is requisition 14049, London, 30 Gresham Street; Department People & Organisation; Division IBP Business Enablement; eight weeks from July; any degree; penultimate or final year Confirmed [S1, S7]. A parallel posting (14116) runs the same programme with the 10,000 Interns Foundation for Black students Confirmed [S2]. The body text is almost identical to the 2025 edition Confirmed [S12, S1], so past candidates' reports are a fair guide.

SOURCE UNCERTAIN

The application window opened at 09:00 on 5 October 2026 for 24 hours "subject to volume of applications" Confirmed [S1]. In the 2025 cycle it ran a week (7 to 13 October 2024) Reported [S12]. The window is shrinking, which points to rising volume Inferred . Apply first, prepare second.

D1. "Become part of a team within our Specialist Bank (we will discuss the best aligned team for you during your HR interview from the range of business areas hosting an Internship position)"

What it really means	Counterparties	What good looks like	What it reveals about the firm
You are not on a rotation. You join one team for eight weeks. Which team is decided with you at the HR interview, from whichever areas have put up an intern position that year Confirmed [S1]. Candidates report being asked for their top three teams and why Reported [S40, S41].	The early-careers team, then the hiring manager of the host team.	A ranked, reasoned list of three teams, each tied to what the team actually does.	The bank is a set of specialist teams that each hire for themselves. No central analyst pool Inferred .

D2. "You will gain insight into our culture and the opportunity will provide you with exposure to our senior leaders"

What it really means	Counterparties	What good looks like	What it reveals about the firm
Talks and Q&As with senior people; in a bank of about 2,400 people you will see the CEO and heads of business in person Confirmed [S278] Inferred .	Senior leaders, programme organisers.	One good question per session; a short note afterwards.	Scale: the UK bank is small enough that seniors meet interns Inferred .

D3. "As an intern, you will be given real responsibilities and have an opportunity to contribute and deliver to whichever team you join"

What it really means	Counterparties	What good looks like	What it reveals about the firm
Day-to-day work for the team: research, spreading financial statements into models, sections of credit papers, client meeting packs, data clean-up, a project to present at the end Inferred .	Analysts and associates on your team; your manager; sometimes a client-facing banker.	Accurate work, delivered on time, with your assumptions stated. Asking early when unclear.	Teams are lean; an extra pair of hands matters Inferred .

D4. "Although embedded into one team we aim to provide you with a clear overview of our entire business"

What it really means	Counterparties	What good looks like	What it reveals about the firm
Speaker sessions, shadowing, and conversations across Private Banking, Corporate & Investment Banking and the centre Confirmed [S1] Inferred .	Other interns; people in other teams.	You can explain how your team fits into the bank and its money flow (Part 2).	One Investec: the firm wants people who see across businesses Confirmed [S120].

D5. "Presentations and talks from experienced Investec employees across our business... a number of networking opportunities"

What it really means	Counterparties	What good looks like	What it reveals about the firm
A speaker series and social events through the summer Confirmed [S1].	Speakers, other interns, alumni of past cohorts.	Prepared questions; follow-ups within a day.	Relationship culture: networking is part of the job, as it is with clients Inferred .

D6. "Gain insight into how you can absorb complex information easily from the Financial Times and how to immerse yourself in financial analysis"

What it really means	Counterparties	What good looks like	What it reveals about the firm
A session on reading the FT efficiently, and a session on financial analysis Confirmed [S1].	Trainers; your team.	A daily habit: one story, why it matters to Investec, your view.	The firm expects commercial awareness from day one Inferred .

D7. "Don't forget the fun and engaging Excel courses"

What it really means	Counterparties	What good looks like	What it reveals about the firm
Excel training: formulas, lookups, pivot tables, probably simple modelling Confirmed [S1] Inferred .	Trainers.	Clean, labelled spreadsheets with inputs separate from calculations.	Excel is still the working tool of credit and finance teams Inferred .

D8. "Entrepreneurial thinker: we want to hear your fresh ideas!"

What it really means	Counterparties	What good looks like	What it reveals about the firm
In interviews: evidence you have started or changed something. In the internship: suggesting a better way to do a task Confirmed [S1].	Interviewers; your manager.	An idea that is small, testable and specific.	Founded by entrepreneurs; culture of "material ownership" and "freedom to operate with accountability" Confirmed [S278].

D9. "Self-starter: show us your ability to take a project and make it your own!"

What it really means	Counterparties	What good looks like	What it reveals about the firm
Owning a task end to end without being chased Confirmed [S1].	Your manager.	You scope it, you chase inputs, you deliver, you report back.	Flat structure: less hand-holding than a big bank Reported [S132, S277].

D10. "Be you: bring your whole self to work. We want to know about your passions and interests!"

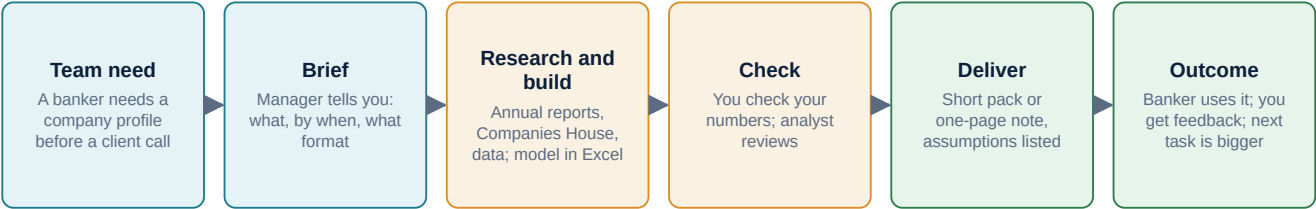

What it really means	Counterparties	What good looks like	What it reveals about the firm
The interviewers will ask about you as a person. HireVue questions reported include "Tell us one thing about yourself that we wouldn't think to ask" Reported [S41].	Interviewers.	A true, specific passion, told briefly.	Reviewers say Investec cares about "how you will fit into the Investec team" more than "what you have on paper" Reported [S41].

D11. "All interns must be in their penultimate or final year of University study"

What it really means	Counterparties	What good looks like	What it reveals about the firm
Eligibility. UK work permission is needed; no sponsorship reported Reported [S7].	Early-careers team.	Know where you would go next: the rotational graduate scheme is reported paused; return routes are ad hoc entry-level roles Reported [S8, S9].	Early careers is being redesigned Reported [S8].

The work: value chain, channels and a day

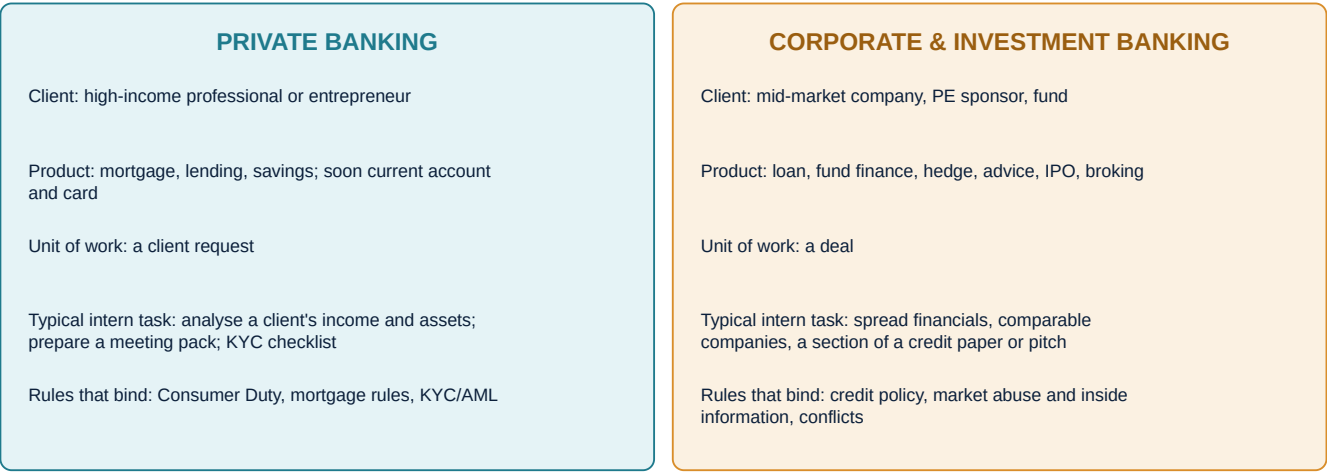

Figure 2 The intern's value chain: from team need to outcome

The loop repeats several times a week. Speed of the loop and accuracy of step 4 are what you are judged on.

Illustrative **Inferred** , based on the JD [S1] and standard junior tasks in credit and private banking [S203].

Figure 3 The two channels through which an intern's work is done

Business lines from Investec results [S120, S121]; rules from FCA and PRA sources [S167, S168]; intern tasks illustrative **Inferred** .

Figure 4 A worked day in the seat (a corporate lending team, week four)

08:30	Arrive; read the FT and the team's news alerts; note one story
09:00	Team check-in: what is due today
09:30	Main task: spread three years of accounts for a borrower into the credit model
11:30	Ask the analyst two questions you saved up
12:30	Lunch, sometimes an intern speaker session
13:30	Fix the model after review; write the summary paragraph
15:00	Sit in on a client call or internal credit discussion (listen, take notes)
16:00	Excel course or networking coffee
17:00	Send the work with a note: what you did, what you assumed, what is open
18:00	Log the day: what you learned, what to ask tomorrow

Illustrative **Inferred**. Office pattern of four days in, one remote is stated in other Investec postings **Confirmed** [S19, S277]; not stated in the internship posting.

Figure 5 The life of a request through an intern

Illustrative **Inferred**.

The full taxonomy of what interns do

Activity	Format	Typical team
Company and sector research	One-page profile, slide	Any CIB team, Advisory
Spreading financial statements	Excel template	Credit, lending niches
Comparable companies / precedent deals	Excel + slide	Advisory, ECM, broking
Credit paper sections	Word memo	Lending, Fund Solutions
Client meeting packs	Slides, PDF	Private Bank, Corporate Banking
KYC and onboarding support	Checklists, systems	Private Bank, Operations
Market and rate monitoring	Daily note	Treasury, Treasury Risk Solutions
Data clean-up and dashboards	Excel, BI tools	Central functions
Process improvement idea	Short proposal	Any (this is the "entrepreneurial thinker" test)
End-of-internship presentation	Slides, 10 minutes	Programme-wide (Inferred)

All rows **Inferred**, built from the JD [S1], live postings [S269, S274, S277] and standard junior tasks [S203]. The end-of-internship presentation is common across banks but not stated in the posting.

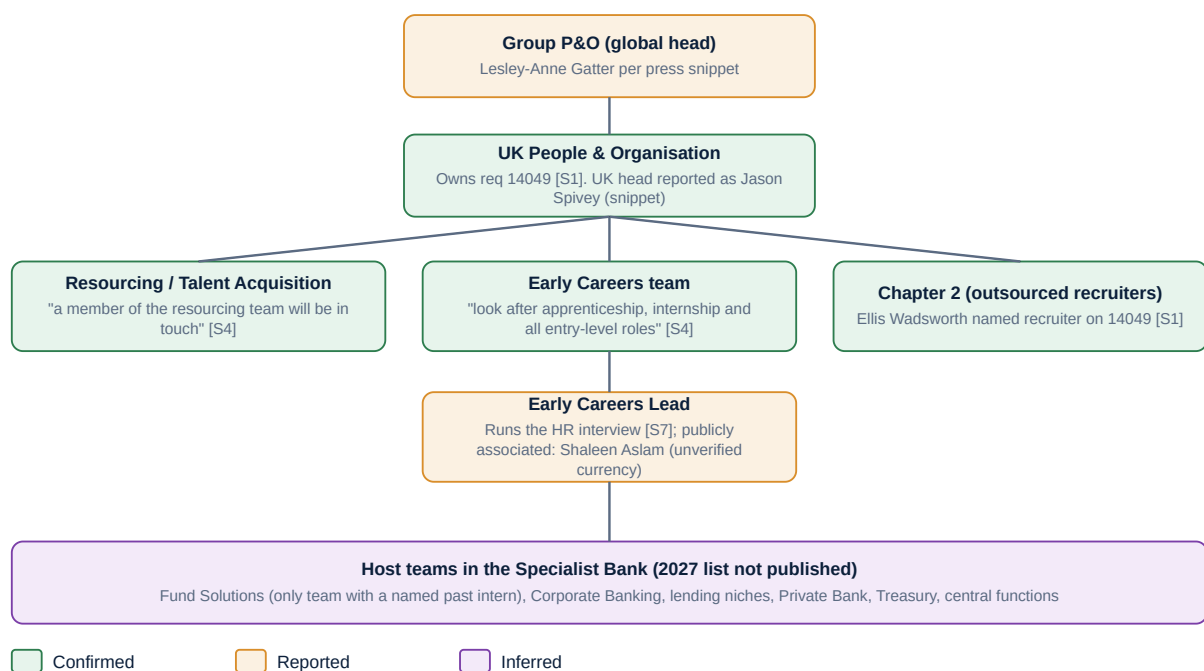

What the team judges, the control dimension, and the path

- **Judged on:** accuracy, reliability (do what you said, by when you said), judgement about when to ask, attitude with the whole team, and one piece of work people remember **Inferred**.
- **Bright lines** that bind even an intern: confidentiality of client information (UK GDPR; the bank's own policies); inside information about listed companies (UK Market Abuse Regulation); anti-money-laundering rules (KYC); the FCA Consumer Duty for retail clients; personal account dealing rules (you may need to get approval before trading shares) **Inferred** [S167, S168].
- **Say unprompted:** "I know I may see confidential or inside information. I would never discuss a client outside the team, and if unsure whether something is inside information I would ask compliance before doing anything."
- **Career path:** the UK rotational graduate programme is reported paused while early careers is redesigned. Interns have returned into specific entry-level roles, for example a 2022 intern who came back as a Fund Solutions analyst **Reported** [S8, S9, S24]. So the realistic path is: internship, then a return offer into a named team if one has a vacancy, then analyst, associate **Inferred**.

The team, mapped

Investec publishes no org chart for early careers. This reconstruction uses the posting, the careers site and public profiles. Colour shows confidence.

Figure 6 Reconstructed early-careers structure and host teams

Sources: S1, S4, S7 (Investec, Confirmed/Reported); S45-S48 (profiles, Reported); S290, S291 (P&O leaders, search snippets only, Reported). Names are public professional information; identity and currency flagged where uncertain.

Business area	Evidence it exists in the UK Specialist Bank	Evidence it hosts interns	Confidence
Fund Solutions (fund finance)	Investec team pages; Credit Hub posting supports "the wider Fund Solutions franchise" [S22, S274]	A 2022 intern returned as a Fund Solutions analyst [S24]	Reported
Corporate Banking (mid-market)	8 live roles; new Corporate Bank launching 2026 [S3, S268]	None found	Inferred
Lending niches: Direct Lending, Real Estate, Aviation, Energy & Infrastructure, Asset Finance	Investec sector pages; Aviation credit roles [S20, S22]	None found	Inferred

Business area	Evidence it exists in the UK Specialist Bank	Evidence it hosts interns	Confidence
Advisory, ECM, corporate broking	About 110 listed clients; Extel #1 SMID broker 2026 [S129, S130]	None found	Inferred
Private Bank	4 live roles; 8,200 UK clients [S3, S124]	None found	Inferred
Treasury and Bank Funding Group	Dealer and funding roles live [S21, S272]	None found	Inferred
Central functions	Business Enablement 19 open roles by site category [S3]	Springpod module on Technology in Banking [S16]	Inferred

Headcount estimate for "the team". There is no single intern team. The relevant numbers: Investec Bank plc employs 2,425 people **Confirmed** [S278]; the summer cohort size is not published [S131]. Method tried **Inferred** : no public count of host teams or past cohorts exists, so any number would be invented. The honest answer is "a small cohort inside a 2,400-person bank". Ask at the HR interview how many interns there will be.

Do the interviewers sit on the team? Round one (HR interview) is with early careers, reported as two people for about 30 minutes. Round two is with one or two people from the team you are matched to, sometimes including an analyst **Reported** [S41]. So the second interviewer may be your future manager.

Benchmark. Close Brothers runs six-week placements with upReach for students from lower socio-economic backgrounds **Reported** [S141]. No peer publishes cohort sizes [S131].

PART 2

The firm as a business, from the inside

How Investec was founded, how it makes money, what it promises each kind of client, how it controls risk, and what it has got wrong.

A. The founding insight

Investec started in Johannesburg in 1974 as a small leasing and finance company called Investors, Technical and Executors **Reported** [S83]. Founder lists vary between sources. The safe line is: founded in 1974 by a small group led by Ian Kantor; Bernard Kantor joined in 1978 and Stephen Koseff in 1980 **Reported** [S83, S85].

What the founders did before matters, because it explains the design. Ian Kantor was an electrical engineer with an MBA who had worked at IBM and came from Lease Plan International. Leasing experience gave the firm its first idea: lend into a niche you understand better than the big banks do **Reported** [S83]. Stephen Koseff was a chartered accountant who joined when the firm had about 8 people **Reported** [S83, S84]. The firm got its banking licence in 1980 and entered the UK in 1992 **Reported** [S83].

Kantor describes a founding rule in which each founder had a veto: "This thing of 'you can do anything you like as long as there is consensus' became the basis of Investec's culture" **Reported** [S83]. Three habits trace back to that start **Inferred**: decisions made by consensus after challenge (the "dedicated partnership" value), lending into niches learned in leasing, and moving money offshore to diversify away from South African rand risk, which led to London.

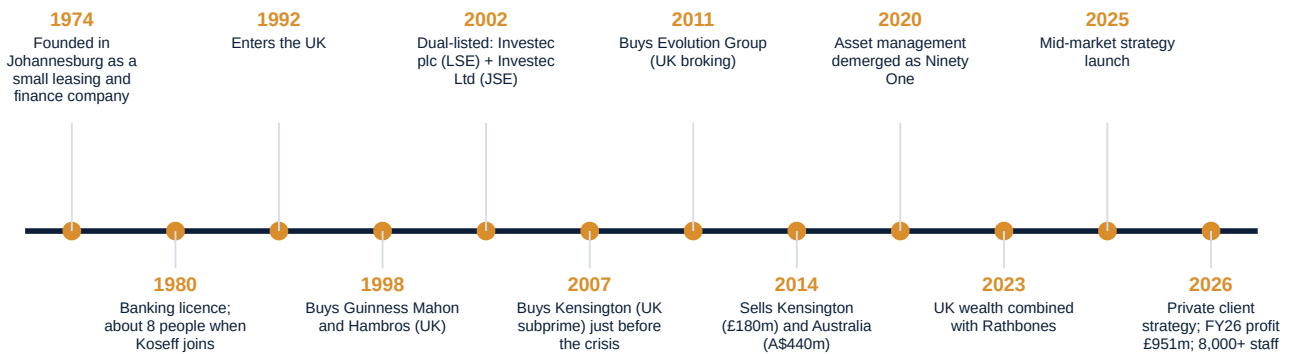

KEY TERM

Dual-listed company (DLC): two separately listed parent companies that run as one economic group with one board. Investec plc is listed in London and Investec Limited in Johannesburg, since July 2002. There are no cross-guarantees between them, so the UK bank's creditors rely on the UK side only **Confirmed** [S70, S120].

Purpose and values. Investec states its purpose as "to create enduring worth" and pairs it with the brand promise "Out of the Ordinary" **Reported** [S107]. Fani Titi used the purpose line in the FY26 results **Confirmed** [S70]. The four values are **Client focus, Cast-iron integrity, Distinctive performance, Dedicated partnership** **Reported** [S106]. The names are well corroborated, but investec.com blocked direct reading, so paraphrase the descriptions rather than quoting them.

SAY THIS IN THE INTERVIEW

"What I find interesting is that the culture has a mechanism behind it. Ian Kantor says the founders each had a veto, so you could do anything as long as there was consensus. That is where the dedicated partnership value comes from: test your idea, invite challenge, then own the result."

Figure 7 Investec in twelve dates, 1974 to 2026

Events evenly spaced; not to time scale.

Sources: S83, S84, S85 (founding, milestones: Reported); S102, S103 (2014 disposals); S78 (Rathbones 2023); S70 (FY26). JSE listing year is disputed (1986 or 1988) and is left off. Staff numbers: "about 8 people" in 1980 [S83] and "about 8,000" in 2026 [S70] (Reported).

B. How the firm makes money

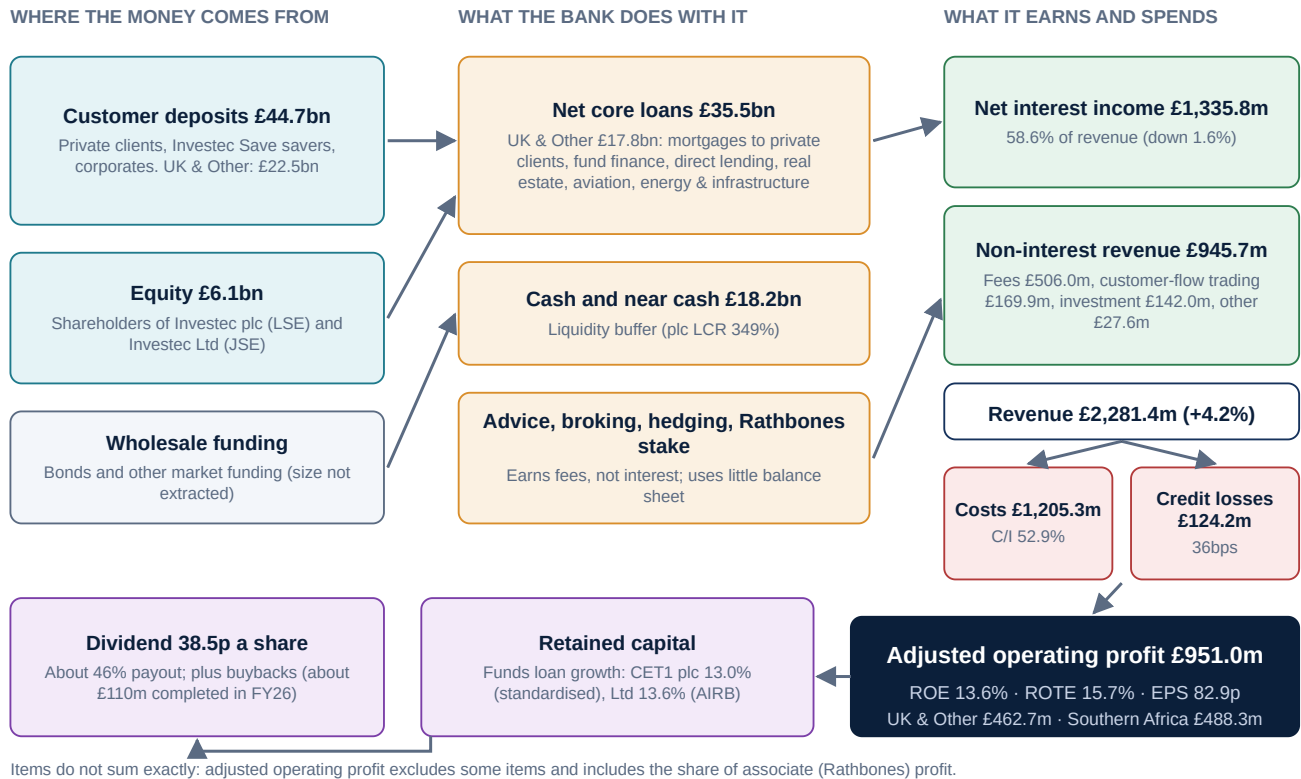

A bank borrows money cheaply (deposits from savers), lends it at a higher rate, and keeps the difference. That difference is **net interest income**. It also charges fees for advice, arranging deals, hedging and broking, which are **non-interest revenue**. Take away staff and system costs, and the money set aside for loans that go bad, and what is left is profit

Confirmed [S70].

In the year to 31 March 2026 (FY26) the group earned revenue of £2,281.4m. Net interest income was £1,335.8m (58.6%) and non-interest revenue £945.7m (41.4%). Costs were £1,205.3m, so the cost-to-income ratio was 52.9%. Credit losses were £124.2m, a credit loss ratio of 36 basis points. Adjusted operating profit was £951.0m, up 3.4%

Confirmed [S70].

Two things moved. Net interest income fell 1.6% as UK rates came down. Fees rose 14.7% to £506.0m **Confirmed** [S70]. The mix is shifting toward fees, which fits a strategy to depend less on interest rates **Inferred**.

Figure 8 The money flow through Investec, FY26 (year to 31 March 2026)

Source: Investec Final Results 31/03/2026, RNS 21 May 2026 [S70] (Confirmed; key figures re-checked against the RNS on 5 Oct 2026). Group figures unless marked UK & Other. Wholesale funding size not extracted.

Metric (FY26)	Group	Investec plc (UK & Other)	UK & Other Specialist Bank
Adjusted operating profit	£951.0m (+3.4%)	£462.7m	£401.6m (-2.1%)
ROE / ROTE	13.6% / 15.7%	10.8% / 13.7%	n/a
Cost-to-income	52.9%	52.5%	54.0%
Credit loss ratio	36bps	n/a	57bps
Net core loans	£35.5bn	n/a	£17.8bn
Customer deposits	£44.7bn	£22.5bn	£22.5bn
CET1 ratio	n/a (each entity reports its own)	13.0% (standardised)	n/a

Sources: S70, S120 **Confirmed**. Southern Africa earned £488.3m and an ROE of 18.2%, far above the UK. The UK earns lower returns than South Africa. That gap is the central tension in the strategy **Confirmed** [S70] **Inferred**.

KEY TERM

Basis point (bp): one hundredth of one percent. A credit loss ratio of 57bps means the bank set aside 0.57p for bad debts for every £1 of loans in the year.

KEY TERM

ROE and ROTE: return on equity is profit divided by shareholders' money in the business. ROTE strips out goodwill and other intangibles. Investors compare it with the cost of that money, often around 10 to 13% for banks **Inferred**.

C. The "contracts": what each client group gives and gets

Client group	What Investec gives	What Investec gets	Evidence
Private clients (high-income professionals, entrepreneurs, HNW)	Mortgages and lending tailored to complex incomes, savings, a named relationship manager. From H2 2027: current accounts, a first UK credit card, rewards, advice with Rathbones	Interest margin on mortgages, sticky deposits, and the chance to be the client's main bank	S89, S92, S123 [C/R]
Mid-market companies	Specialist and structured lending, advisory and ECM, broking, FX and rate hedging, and (from Nov 2025) transactional banking	Lending margin, fees (IBP fee income +28% in H1 FY26), operational deposits	S75, S90, S121 [C/R]
PE sponsors and funds	Fund finance (subscription and NAV lines), acquisition finance	Fees and secured lending to institutions	S120, S22 [C/R]
Savers (Investec Save)	Above-high-street rates on easy access, notice and fixed-term deposits, sold online and through platforms such as Raisin	Branchless, stable retail funding for niche lending	S88, S133 Reported
Shareholders	Dividend (38.5p FY26), buybacks	Capital to lend against	S70 Confirmed

Ryan Tholet, head of UK Private Banking: "Our shift from mortgage banker to relationship manager enables a greater offering at the source of any lending, increasing our relevance" **Reported** [S89]. Andy Hart, head of Corporate Banking: "We see a clear strategic growth opportunity to extend our offering and bring a private client banking experience to UK mid-market corporates" **Reported** [S90].

The deal with savers is simple **Inferred**. Investec pays above-high-street rates for a stable, branchless deposit base. That funds niche lending without the cost of branches. The price is a higher cost of funds than the clearing banks pay. The UK bank's deposits (£22.5bn) exceed its loans (£17.8bn), so it is not stretched for funding **Confirmed** [S70].

D. The risk and control architecture

Investec Bank plc is authorised by the PRA and regulated by the FCA and PRA, firm reference number 172330 **Reported** [S88]. Its Companies House number is 00489604, incorporated 1950, registered at 30 Gresham Street, London EC2V 7QP **Confirmed** [S86].

The group describes a board-approved risk appetite framework, three lines of defence, and a rule to lend to "clients we know and understand". An older annual report gives single-name limits of 7.5% of CET1 for Investec plc and a global credit committee meeting twice a week **Reported** [S111]. That source dates from about 2017, so treat the exact limits as possibly out of date.

The through-the-cycle credit loss range for the group is 25 to 45bps. The UK runs higher: 57bps in FY26 **Confirmed** [S70]. That is the price of lending to niches the big banks avoid. The bank charges more for that risk, and needs good credit judgement to keep losses inside the price **Inferred**.

KEY TERM

Three lines of defence: the business that takes the risk (first line) owns it; independent risk and compliance teams (second line) set limits and check; internal audit (third line) tests whether the whole system works.

KEY TERM

Standardised vs IRB: under the standardised approach the regulator sets how much capital each loan needs. Under internal ratings-based (IRB) models the bank uses its own approved models, often needing less capital for good-quality loans. Investec plc uses standardised; Investec Ltd uses advanced IRB. The UK business says it is "on its journey" to IRB **Confirmed** [S174]. This is part of why UK returns trail South Africa **Inferred**.

SAY THIS IN THE INTERVIEW

"The UK credit loss ratio of 57 basis points is above the group's 25 to 45 range. I read that as the cost of lending into niches. The question I would want to understand is how the bank prices that risk and when it walks away."

E. The UK business mix, and what has grown

- **Private Banking.** Mortgages and lending to high-income and HNW clients, savings and transactional banking. Residential mortgages were the fastest-growing book in H1 FY26, at 9.6% annualised **Confirmed** [S75]. About 8,200 UK private clients **Reported** [S124].
- **Corporate & Investment Banking.** Specialist lending (Fund Solutions, Direct Lending, growth and leveraged finance, real estate, aviation, energy and infrastructure, asset finance), Treasury Risk Solutions, and advisory, ECM and corporate broking. Investec bought Evolution Group in 2011, which built the broking arm **Reported** [S85]. About 110 listed broking clients **Reported** [S129]. Ranked first overall in the Extel UK small and mid-cap broker rankings for the fourth year in 2026 **Reported** [S130].
- **Wealth.** Investec Wealth & Investment UK combined with Rathbones on 21 September 2023 in an all-share deal valued at about £839m **Confirmed** [S78]. Investec now holds 29.9% of the votes and about 41% of the economics, and books a share of Rathbones' profit (£76.6m in FY26) [C/R] [S70, S80].
- **What grew:** mortgages, fund and direct lending, fees. **What shrank:** net interest income as rates fell, and UK profit (FY26 -2.1%; H1 FY27 guided 2 to 6% lower) because FY27 is the "peak investment year" **Confirmed** [S70, S71].

F. Listed status, and what it means for research

Investec is listed, which is good news for research: almost every number in this pack comes from published results. There are four report sets: the combined group results; Investec plc and Investec Limited (each with its own capital ratio); and Investec Bank plc's own annual and half-year reports **Confirmed** [S70, S74, S75]. Investec plc trades on the LSE as INVP, Companies House 03633621 **Confirmed** [S86]. Its index membership (FTSE 100 or FTSE 250) was disputed between sources on 5 Oct 2026; check the FTSE Russell list before quoting it **Reported** [S85, S113].

SOURCE UNCERTAIN

Index membership (FTSE 100 or 250) and the JSE listing year (1986 or 1988) were not confirmed from a primary source. Avoid stating them as facts. Confirmed instead: the group says "8,000+ employees" **Confirmed** [S282]; Investec Bank plc had 2,425 employees at 31 March 2026 **Confirmed** [S278]; Ruth Leas is IBP chief executive per its 2026 annual statements **Confirmed** [S278].

G. Leadership's view of the future

Fani Titi has been group chief executive since 2018 **Reported** [S85]. Henrietta Baldock became group chair on 6 August 2026, and Stephen Koseff retired from the board the same day **Confirmed** [S73]. With Koseff gone, no founder-era figure remains on the board **Inferred**.

Targets: ROE 13 to 17% and ROTE 14 to 18% over the medium term; about 16% ROE and 18% ROTE by FY2030. FY27 is "the peak investment year", with earnings growth expected to pick up from FY28. UK & Other ROTE is guided at 12.5 to 13.5% for FY27, near the bottom of its range **Confirmed** [S70].

Titi in May 2026: "We are hiring within the UK corporate mid-market and looking to launch a fully functional service in the second half of 2027. We will go much harder at the affluent sector" **Reported** [S89]. On private clients: "We regard private client as a heritage franchise for us. This is where we developed who we are" **Reported** [S92].

YOUR OPINION GOES HERE

The author's inference from hiring and moves **Inferred**: Investec UK is converting from a specialist lender into a primary bank for two client types, the affluent professional and the mid-market company. A 2027 summer intern arrives exactly as the "fully functional" UK mid-market service and the new private-client current accounts are due. Your view: is the extra cost worth it, and what would prove it by FY28?

H. Recent moves, October 2024 to October 2026

Date	Move	Source
5 Aug 2025	After the Supreme Court motor finance ruling, Investec says its £30m provision "remains adequate"	S96 Confirmed
20 Nov 2025	Half-year results plus the corporate mid-market strategy: a unified mid-market division, transactional banking	S72, S90, S121 [C/R]
30 Mar 2026	FCA confirms motor finance redress scheme; Investec keeps the £30m provision	S70 Confirmed
21 May 2026	FY26 results: profit £951.0m, dividend 38.5p, about £110m buyback completed; private client strategy; FY2030 targets	S70, S89, S92 [C/R]
16 Jun 2026	Rathbones discloses an FCA-prompted review found Consumer Duty and compliance weaknesses; £60m remediation; shares fell 16 to 19%	S81, S82 Reported
12 Jul 2026	Terry Koizou hired as head of client relationship management, UK Corporate Banking; team to grow past 40 relationship managers	S226 Reported
13 Jul 2026	Rathbones ends its buyback because Investec's voting stake reached the 29.9% cap	S80, S227 Reported
6 Aug 2026	AGM: Henrietta Baldock becomes chair; Philip Hourquebie and Stephen Koseff retire	S73 Confirmed
18 Sep 2026	Pre-close statement: UK H1 FY27 profit guided 2 to 6% lower; interim results on 19 Nov 2026	S71, S222 Confirmed

I. The skeletons, told straight

Nothing here should surprise you in an interview. Know it, and say it calmly if asked.

- **Kensington (2007 to 2014).** Investec bought UK subprime mortgage lender Kensington on 8 August 2007, just before the crisis. Impairments followed for years. Koseff later said "the timing of the Kensington deal was very unfortunate". It was sold to Blackstone and TPG in September 2014 for £180m Reported [S84, S102].
- **2008: no bailout.** Koseff: "seven of the 10 big UK banks had to get a government bailout. We survived that crises without any help from anyone" Reported [S84].
- **Investec Australia.** Losses led to a sale to Bank of Queensland for A\$440m, completed 31 July 2014. With Kensington, the sales were expected to lift Investec plc's CET1 from 8.8% to about 11.3% Reported [S102, S103].
- **UK motor finance.** Investec entered in 2015 and had a £555m book (about 1% market share) by 2021. It took a £30m provision in FY24 and has kept it [R/C] [S95, S70]. Close Brothers holds about £320m Confirmed [S140].
- **Cum-ex (Germany).** News24 reported in 2021 that Investec's Dublin office allegedly financed cum-ex trades in 2008 to 2012. Investec said no employee or the bank had been charged. It is disclosed as a contingent liability. No outcome after 2021 was found Reported [S98].
- **South Africa AML fine.** In August 2016 the SARB fined Investec Bank Limited R20m for weak anti-money-laundering controls. The SARB said the banks had not facilitated money laundering Reported [S99].
- **Steinhoff.** Investec first called its exposure negligible and ultimately lost about R220m (reported May 2018) Reported [S100].
- **FSA undertaking (2013).** Investec Bank plc agreed to change terms in a structured product after the FSA said some terms might be unfair. It was an undertaking, not a fine Confirmed [S87].
- **Rathbones (2026).** Investec's largest associate is under FCA-prompted remediation, a risk to the advice model at the centre of the May 2026 private client plan Reported [S81] Inferred.

SAY THIS IN THE INTERVIEW

"Kensington is the lesson I took from reading the history. Buying into a market at the top cost years of impairments. Selling Kensington and Australia in 2014, and folding wealth into Rathbones in 2023, show a firm that will simplify when something is not working."

DON'T SAY THIS

Do not raise cum-ex or the SARB fine unprompted, and never describe allegations as findings. If asked, state the facts, the date and the source, and move on.

PART 3

Why Investec is built this way

Structure, collaboration, what clients actually buy, and the size and wiring of the centre.

1. Why one specialist bank, not a lender plus a separate private bank?

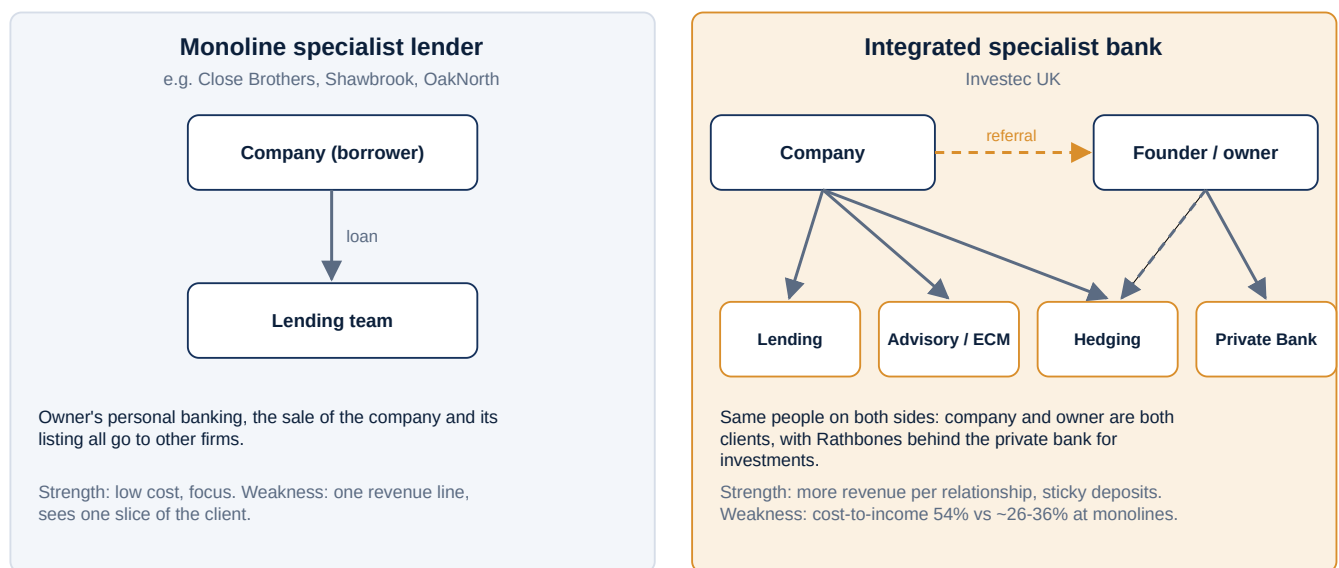

Most UK competitors do one thing. Close Brothers, Shawbrook and OakNorth lend. Peel Hunt, Panmure Liberum and Deutsche Numis advise and broke. Coutts and C. Hoare run private banks. HSBC, Barclays and Santander offer everything at mass scale **Confirmed** [S140-S149, S305-S308].

Investec puts a private bank and a mid-market corporate and investment bank under one roof. Its own description: "the only integrated and diversified mid-market focused specialist bank, providing the capabilities of global investment banks to the corporate mid-market" **Confirmed** [S121]. Ruth Leas in 2022: "the only bank providing a combined offering across the personal and business journeys of our target clients" **Confirmed** [S125].

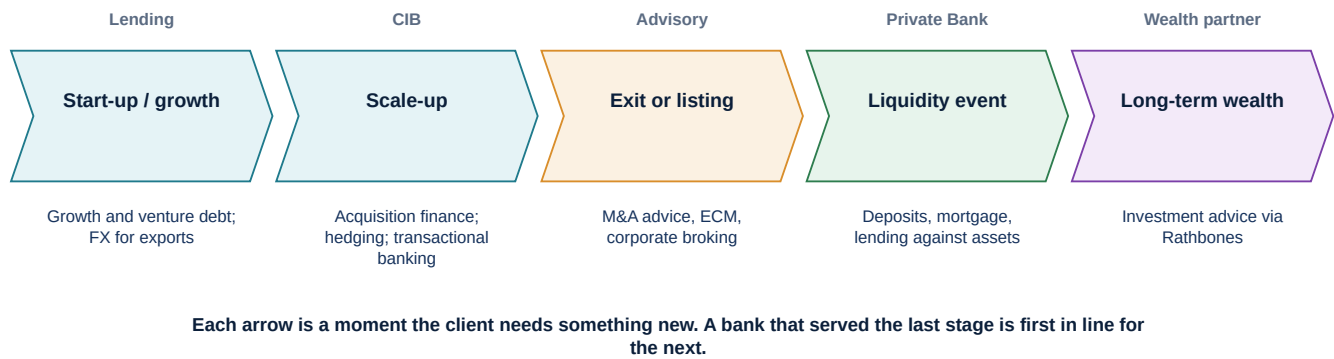

The theory **Inferred**. The same person is often both clients. A founder needs growth debt for the company, then advice on a sale or listing, then a mortgage, deposits and wealth advice when the money arrives. If one bank serves each stage, it knows the client better, wins referrals at low cost, and holds deposits that stick. The business also balances itself: fees from advice rise in good markets; interest income holds up when deals are scarce.

What it costs **Inferred**. Running many small specialist teams is expensive: Investec UK's cost-to-income ratio is 54.0%, against about 26% at OakNorth and 36% at Shawbrook **Confirmed** [S120, S144, S240]. Specialist teams can depend on a few people. And integration is only worth paying for if clients really cross between businesses, which Investec does not publish for the UK **Confirmed** [S120].

Figure 9 Monoline lender vs integrated specialist bank

Sources: Investec HY Sep-2025 and FY26 RNS [S120, S121]; peer results [S140, S142, S144]. Client journey is illustrative **Inferred**.

Figure 10 One client, one bank: the founder lifecycle

Illustrative **Inferred**, built from the products Investec lists in its results [S120, S121] and Leas's "personal and business journeys" [S125]. Investec does not publish how many UK clients use more than one business.

2. How do the businesses work together, and where does collaboration actually live?

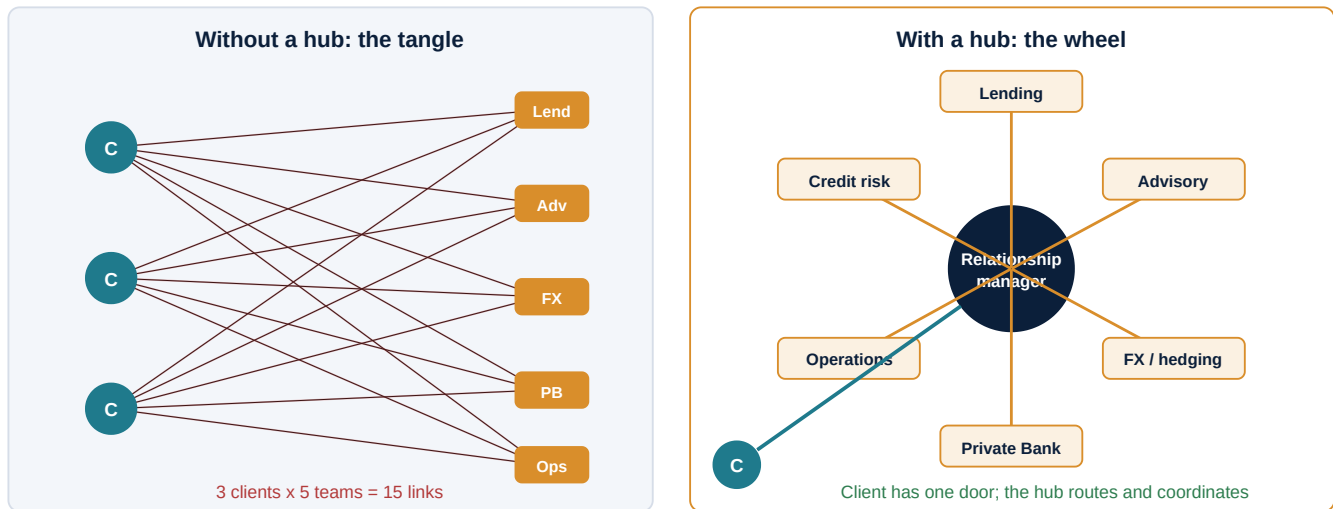

Investec's own wording, read precisely:

- "the power of One Investec" (FY26, describing Private Client) **Confirmed** [S120].
- "further entrench clients in our ecosystem, grow market share and drive cross-divisional and cross-border collaboration" (HY Sep-2025) **Confirmed** [S121].
- "we completed an internal restructuring to create a unified Corporate mid-market division that is focused on a single integrated strategy" (HY Sep-2025) **Confirmed** [S121].
- "we are evolving our strategic partnership [with Rathbones] from a referral-based model to an integrated assets-under-advice model. Investec will now lead the client relationship and advice" (FY26) **Confirmed** [S120].

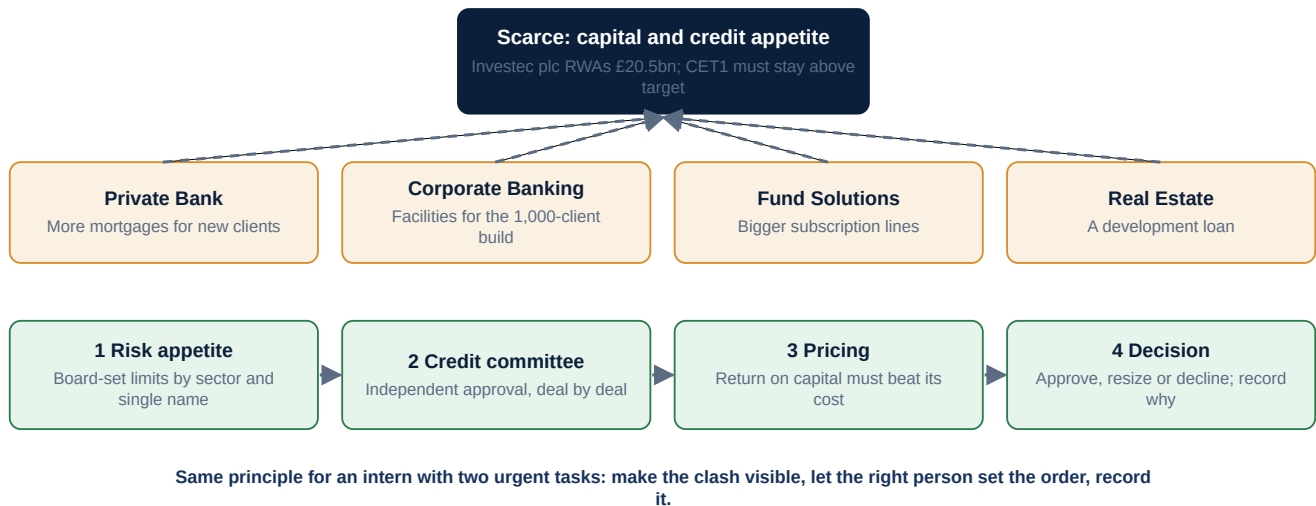

Read the verbs. "Entrench", "drive", "evolving": these describe an aim, not a finished state **Inferred**. The concrete evidence is structural: a single mid-market division, a corporate banking team built to "feel like private banking" (Andy Hart) **Reported** [S226], and the Rathbones relationship moving from referral to Investec-led advice.

Collaboration lives in three places **Inferred**: (1) the **relationship manager**, who is the client's single door into the bank; (2) **credit**, where every lending team draws on the same risk and capital; (3) **referral routes**, between corporate bankers, private bankers and Rathbones.

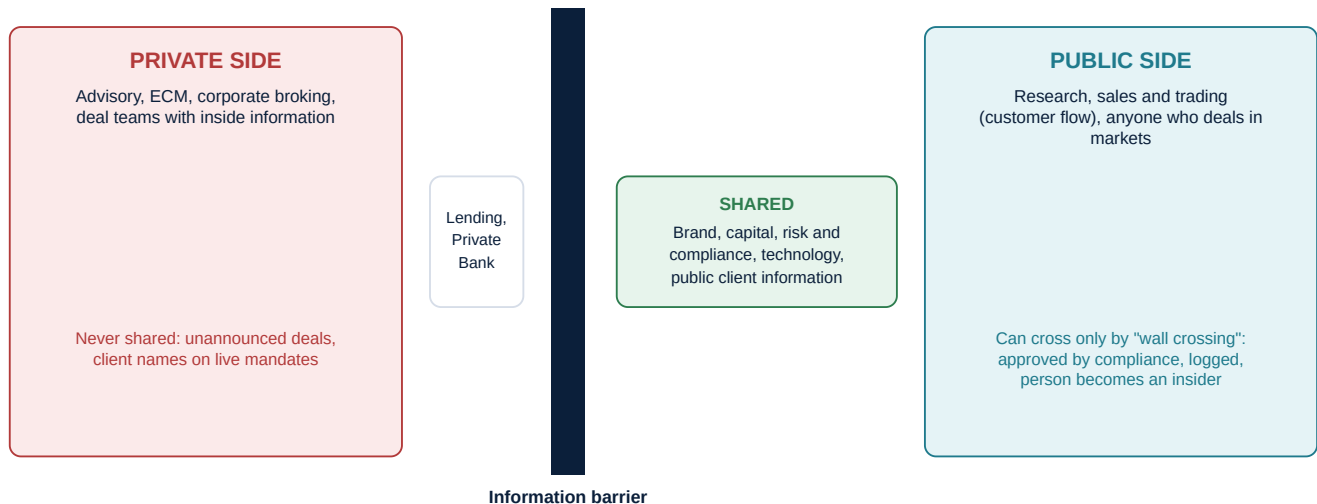

The honest counter-case: HSBC UK also measures cross-selling. Referrals from its commercial bank to its private bank rose 8% in 2025 **Confirmed** [S149]. So the edge is not the idea of collaboration. It is doing it in the mid-market, with lending, advice and broking together, at a size where people know each other **Inferred**.

Figure 11 The hub: why a relationship model needs a centre

Illustrative **Inferred**. Left: without a single door, every client deals with every product team. Right: the relationship manager routes needs to specialist teams and keeps the relationship.

Figure 12 The scarce-resource collision: how the bank allocates capital and people

Illustrative **Inferred**. Capital figures: Investec plc CET1 13.0% (31 Mar 26) and RWAs £20.5bn (30 Jun 26) [S70, S77]; credit committee and limits [S111, older source]. The same logic applies when two seniors compete for an intern's time (Part 11).

Figure 13 The walls between businesses: what is shared, what is never shared

Information barriers are a standard regulatory requirement for firms that advise listed companies (UK Market Abuse Regulation; FCA rules on conflicts) **Inferred**. Specific Investec procedures were not published in sources read.

KEY TERM

Inside information: precise, non-public information that would likely move a listed company's share price if it were known, such as an unannounced takeover. Using or passing it on is a crime. A bank that advises listed companies keeps those teams behind an information barrier (a "Chinese wall") on the "private side".

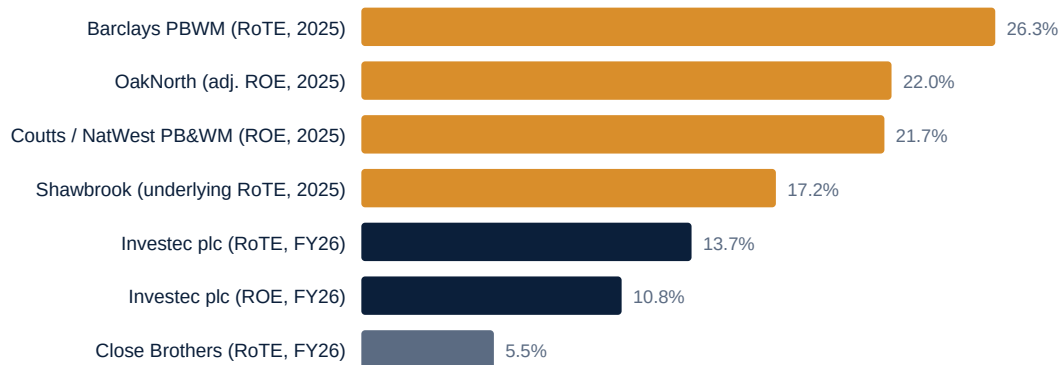

3. What do clients actually buy, and why do they accept the price?

Private clients. In 2018 the UK private bank targeted people earning about £300,000 a year or more with net assets above £3m: corporate executives, entrepreneurs, internationals and professionals **Confirmed** [S123]. Its head said: "We are not always especially useful to high net worth individuals who are simply looking to preserve their wealth" **Confirmed** [S123]. The 2026 strategy adds the affluent segment through an omni-channel model **Reported** [S124]. The thresholds date from 2018 and may have changed.

What they buy **Inferred**: a lender who can underwrite complex income (bonuses, carried interest, business ownership) that a high-street mortgage algorithm cannot; speed; a named person. Titi's standard: "if a client calls in, the phone should not ring for more than three rings" **Reported** [S225].

Mid-market companies buy "the capabilities of global investment banks" at a size bulge-bracket banks under-serve **Confirmed** [S121]. Leas: "the midmarket space is particularly underserved by the bulge bracket banks" **Confirmed** [S125].

Why accept the price? Specialist credit costs more than a commodity loan. Clients pay because the alternative is no loan, a slower loan, or a loan from a bank that does not understand the asset **Inferred**.

Figure 14 What a client gets elsewhere: returns and efficiency of the alternatives

Sources: S120 (Investec plc FY26), S142 (Shawbrook FY25 underlying RoTE), S144 (OakNorth 2025 adjusted ROE, company-defined), S146 (NatWest PB&WM 2025 ROE), S148 (Barclays PBWM 2025 RoTE), S140 (Close Brothers FY26 RoTE). Measures differ (ROE vs RoTE; adjusted vs statutory). Not like-for-like.

YOUR OPINION GOES HERE

The counter-case, with numbers from both sides: Coutts and Barclays Private Bank earn returns of 22 to 26% with bigger balance sheets **Confirmed** [S146, S148]. OakNorth and Shawbrook lend at far lower cost **Confirmed** [S144, S142]. HSBC UK was named Euromoney Best Bank for Corporates in the UK **Confirmed** [S149]. Investec's case depends on depth of relationship and integration, not on price or scale. Decide where you stand.

4. The non-core side: the centre

The internship requisition sits in Department "People & Organisation", Division "IBP Business Enablement" **Confirmed** [S1]. The same division label appears on central-function jobs such as an operations junior analyst **Confirmed** [S19]. So the label is an administrative home, not a sign that interns work in HR **Inferred**.

How big is the centre? Investec Bank plc had 2,425 employees at 31 March 2026 (2,367 permanent), up from 2,374 a year earlier. Staff costs were £411.8m, about £174,000 per average permanent employee fully loaded **Confirmed** [S278]. The bank does not disclose a split between front office and support. The only proxy is the mix of open roles: 38 of 52 live vacancies (73%) carry a non-client-facing role category **Confirmed** [S261, S277]. That is a flow, not a stock, so do not quote it as the share of staff **Inferred**.

How it is organised. Postings use two meanings of "Business Enablement". As a role category it means any non-client-facing job. As a division, "IBP Business Enablement" is narrower: it holds People & Organisation (this internship and a Senior Reward Manager), Company Secretarial, Lending Operations, Finance & Tax, marketing operations, and a credit hub in Mumbai. Technology ("IBP Digital and Technology") and second-line risk ("IBP Risk & Compliance") are posted as separate divisions **Confirmed** [S277].

Who sits at the top. The IBP board as at 12 June 2026: Ruth Leas (CEO), Kevin McKenna (Chief Risk Officer), Marlé van der Walt (Finance Director, also responsible for Operations) and Fani Titi (Group CEO) as executive directors; Vivek Ahuja chairs the bank since 20 March 2026 **Confirmed** [S278]. The UK executive committee beyond the board was not published in sources read.

Hub and spoke. 15 of 52 live roles (29%) are in Mumbai at Investec Global Services India, including a 25-person "credit centre of excellence" **Confirmed** [S268, S277]. London owns and leads; Mumbai delivers at scale **Inferred**.

How the centre is wired to the front line, in the postings' own words:

- Deal Manager: "Acting as a key partner to the lending businesses... You will work closely with Relationship Managers and stakeholders across Treasury, Client Services, Legal Risk, Group Risk, Financial Control, Settlements, Credit Services, and Financial Crime and Fraud" **Confirmed** [S269].
- Head of Transactional Banking Technology: owns features "on the core banking platform only, while relying on specialist enterprise platforms and teams for payments processing, cards, digital channels, onboarding" **Confirmed** [S270]. That is embedded technology resting on firm-wide utilities.

- First-line operational risk: "Reporting to the Chief Operating Officer, this role will partner closely with business and functional leaders... across our corporate banking activities" **Confirmed** [S271]. Risk embedded in the business.
- Credit Hub: "providing independent credit support to Private Markets, Private Clients, TRS and Credit across the Group... Investec is also establishing a new Corporate Bank, launching in 2026, which the Hub will support" **Confirmed** [S268].
- Senior Reward Manager: "partners closely with senior business leaders, People & Organisation colleagues, Finance and governance forums" **Confirmed** [S264]. A connective role.
- Company Secretarial: "not simply an administrative function" **Confirmed** [S265].

Figure 15 How a front-line team is wired into the centre: embedded, connective, utility

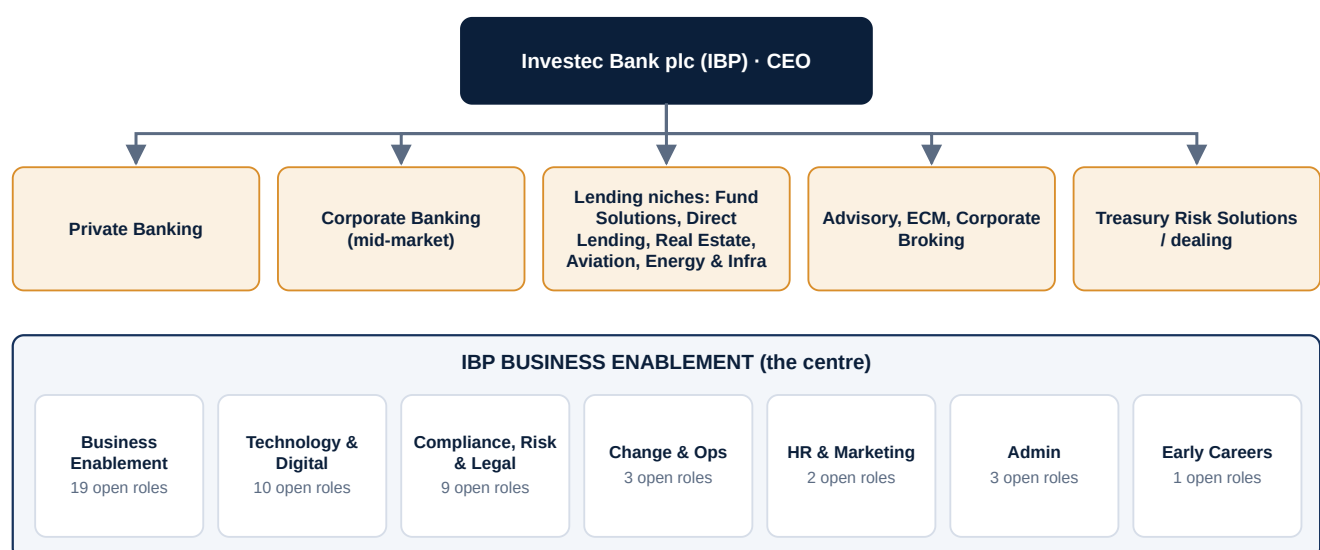

Classification by the author **Inferred** from posting text [S264, S265, S268, S269, S270, S271, S277].

SAY THIS IN THE INTERVIEW

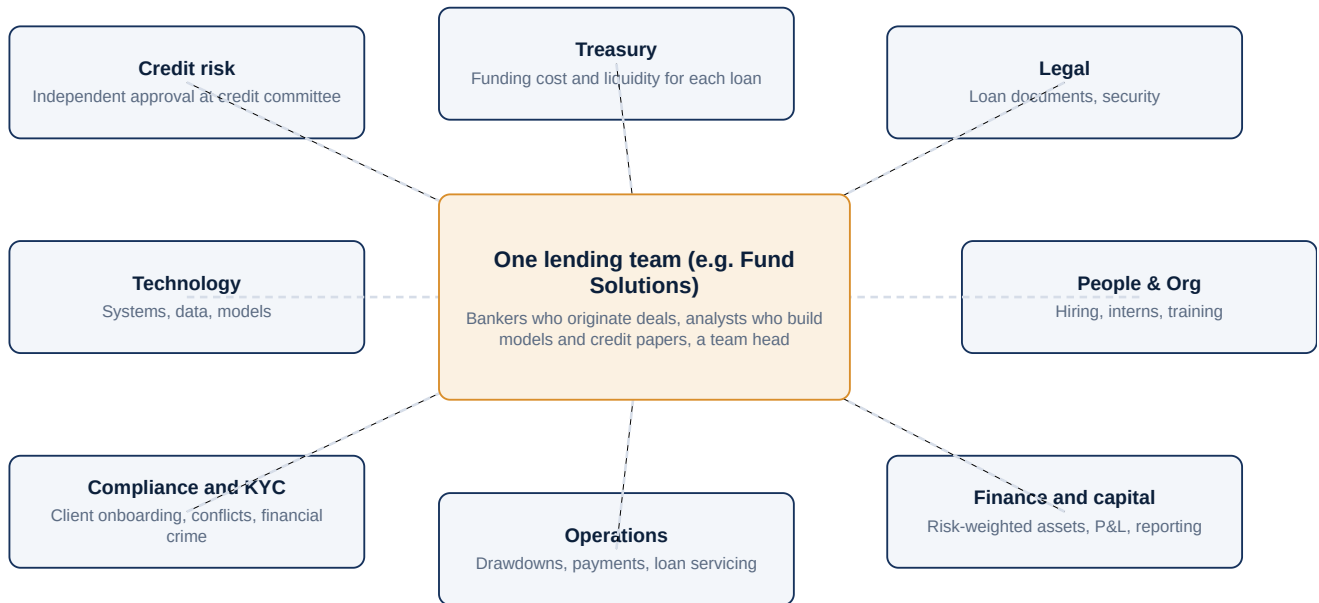

"I noticed the internship sits in IBP Business Enablement under People & Organisation, and that most of the central hiring right now supports the new Corporate Bank. I would be interested in how a team like Lending Operations scales for a thousand new mid-market clients."

Figure 16 The centre as the careers site organises it

Open-role counts: Investec careers site categories, 5 Oct 2026 [S3]. Front-line labels from results and postings. Not an official org chart.

Source: Investec careers home page category counts, 5 Oct 2026 [S3, Confirmed]. Not an official org chart; categories are the site's own labels.

Figure 17 Anatomy of one front-line team and what it draws from the centre

Illustrative **Inferred**, built from standard bank control functions and the roles listed on Investec's careers site [S3, S21].

PART 4

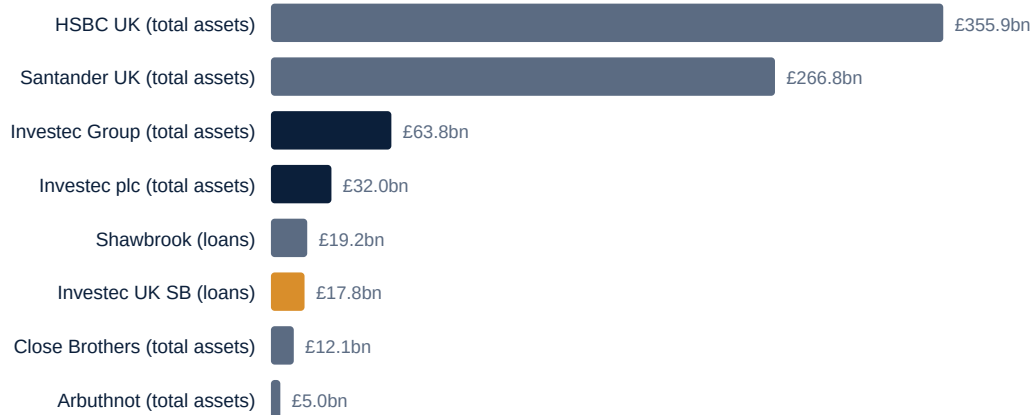

How Investec stands out, and what only it can claim

Eight to ten peers, the design choices where Investec sits at one end of a spectrum, and where it does not lead.

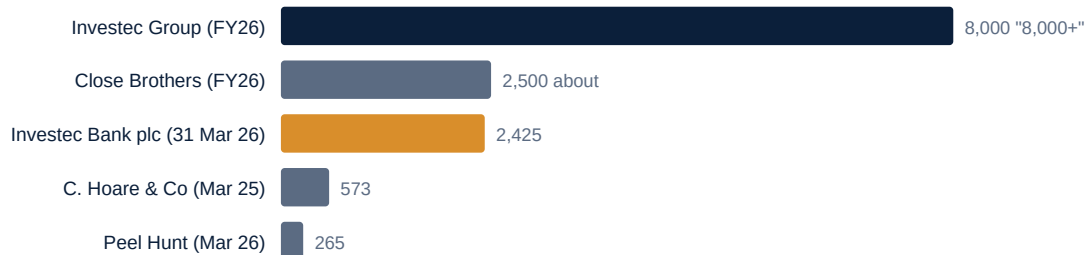

The peer table

Firm	Owner / listing	Size (dated)	Model	Recent results	vs Investec
Investec UK	DLC: plc LSE, Ltd JSE	UK loans £17.8bn; plc total assets £32.0bn (31 Mar 26)	Private bank + mid-market CIB + broking	Investec plc RoTE 13.7%, ROE 10.8% (FY26)	"Only integrated and diversified mid-market focused specialist bank" (its claim) [S121]
Close Brothers	LSE	Loans £9.5bn; ~2,500 staff (31 Jul 26)	Specialist lender; sold asset management and Winterflood	Adj. op. profit £120.3m (~17%); RoTE 5.5%; ~£320m motor provision	Closest "merchant bank" analogue, now a pure lender [S140]
Shawbrook	LSE since Oct 2025	Loans £19.2bn (31 Dec 25)	SME, real estate, consumer lender, savings-funded	Underlying RoTE 17.2% (FY25); 18.1% (H1 26)	Bigger UK loan book, higher returns, no private bank or advisory [S142, S240]
OakNorth	Private	Facilities £7.2bn (2025)	Digital lender to lower mid-market, UK and US	PBT £223m; adj. ROE 22%; efficiency 26%	Same growth-company lending at far lower cost [S144]
Arbuthnot Latham	AIM; family-controlled	Total assets £5.0bn (31 Dec 25)	Private and commercial bank, asset finance, wealth	PBT £24.2m (2025)	"Private bank for entrepreneurs" at about a seventh of Investec UK's size [S145]
Coutts (NatWest)	Part of NatWest	AUMA £58.5bn; >£127bn with Evelyn	Private bank and wealth	PB&WM ROE 21.7% (2025)	Biggest UK private-bank brand; higher returns; no mid-market IB [S146, S147]
Barclays Private Bank	Part of Barclays	Deposits £72.0bn (31 Dec 25)	Private bank and wealth with an IB next door	RoTE 26.3% (2025)	Full universal-bank shelf [S148]
HSBC UK commercial	Ring-fenced HSBC sub	CMB loans £76.2bn	Full commercial bank; mid-market £15-350m turnover	CMB PBT £3,424m; C/I 30.5%	Targets the same mid-market; also measures cross-selling [S149]
Santander UK CCB	Banco Santander	CCB loans £18.9bn	Corporate & commercial in a retail bank	CCB PBT £324m (2025)	Same-sized corporate book inside a mass bank [S300]
Peel Hunt / Panmure Liberum / Deutsche Numis	AIM / private / Deutsche	Peel Hunt 147 retained clients	Research, broking, ECM, M&A	Peel Hunt revenue £143.5m, PBT £21.1m (FY26)	Compete for broking mandates but cannot lend [S305, S306, S307]
Rothschild & Co	Family-controlled; delisted 2023	Revenue ~€3.0bn (2025)	Independent advisory + wealth	Net profit €413m (2025)	Far bigger in M&A; does not lend to mid-market [S302]

All figures **Confirmed** from the cited results unless the source column of WS3 marks them Reported (Rothschild, Coutts+Evelyn AUMA, Panmure, Numis). Measures differ between firms: check like-for-like before comparing aloud.

Figure 18 Size: where Investec sits against peers

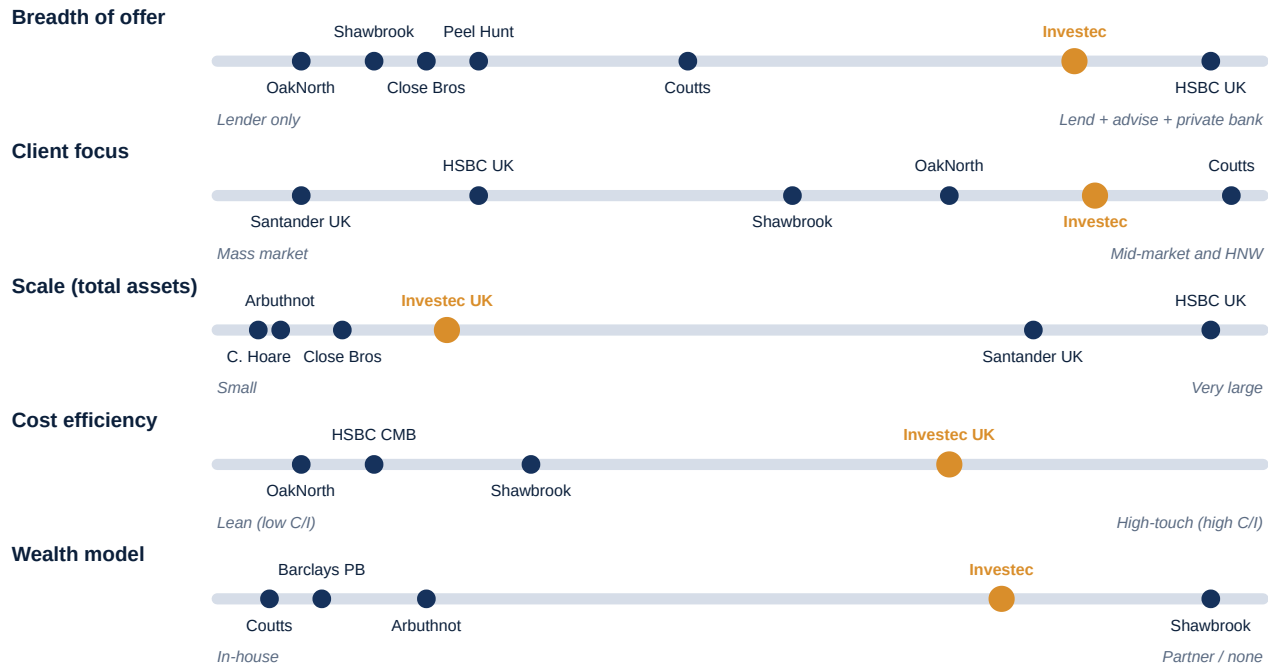

Sources: S149 (HSBC UK, 31 Dec 25), S300 (Santander UK, 31 Dec 25), S120 (Investec, 31 Mar 26), S142 (Shawbrook, 31 Dec 25), S140 (Close Brothers, 31 Jul 26), S145 (Arbuthnot, 31 Dec 25). Mixed measures (total assets vs loans) as labelled; not like-for-like.

Figure 19 Staffing: Investec against peers

Sources: S282 (Investec "8,000+", 21 May 26), S278 (IBP 2,425 at 31 Mar 26), S140 (Close Brothers ~2,500, FY26; Wikipedia gives ~3,000 [S299]), S308 (C. Hoare 573, Mar 25), S305 (Peel Hunt 265, Mar 26). Group figure is a floor ("8,000+").

The design choices: where Investec sits at one end

Figure 20 The competitive spectrum: five design axes

Positions are the author's judgement **Inferred** from the peer data above [S120-S149, S300-S308]. Not a measured scale. Cost efficiency axis uses reported cost-to-income or efficiency ratios.

Six things only Investec can claim

Claim	Evidence	Why it matters
A UK private bank, mid-market lending and its own ECM, M&A and broking arm, in one bank	Lenders do not advise (Close, Shawbrook, OakNorth); brokers do not lend (Peel Hunt, Numis); private banks do not do IB (Coutts, Hoare) [S140-S145, S305-S308]	One relationship can earn lending, fee and deposit income over a client's whole life
#1 in Extel UK small and mid-cap broker rankings, four years running (2026)	S130 Reported	Proof that "investment bank capabilities for the mid-market" is real, not a slogan
The only UK bank in this set with a UK/South Africa dual-listed structure, no cross-guarantees	S120, S121 Confirmed	Diversification across two economies; also complexity
Private-client definition led by income and entrepreneurship, not just wealth	"We are not always especially useful to HNW individuals who are simply looking to preserve their wealth" (2018) [S123]	Targets people who need capital, not just safekeeping
UK wealth delivered through a 41% stake in Rathbones, with Investec now leading the advice relationship	S120, S80 [C/R]	A partnership model instead of owning a wealth manager outright
A new UK Corporate Bank launching 2026, built to feel like private banking	Credit Hub posting [S268]; Andy Hart quote [S226]	Interns in 2027 join a business being built, not a mature one

Where Investec does not lead

- Returns.** Investec plc ROE 10.8% and RoTE 13.7% (FY26), below Shawbrook, OakNorth, Coutts and Barclays PBWM; above Close Brothers **Confirmed** [S120, S140-S148].

- **Efficiency.** UK cost-to-income 54.0% against about 26% (OakNorth), 30.5% (HSBC UK CMB) and 36% (Shawbrook) **Confirmed** [S120, S144, S149, S240].
- **Scale.** UK loans £17.8bn, smaller than Shawbrook's £19.2bn **Confirmed** [S120, S142].
- **Credit.** UK credit loss ratio 57bps, above the group's 25 to 45bps range **Confirmed** [S120].
- **Outlook.** FY27 is the "peak investment year"; UK H1 profit guided 2 to 6% lower **Confirmed** [S71].
- **Awards.** The 2025 Euromoney UK best private bank was Standard Chartered, not Investec **Confirmed** [S136].

DON'T SAY THIS

"Investec is the best private bank in the UK" or "Investec has the highest returns." Neither is true. Say "distinctive", and show the mechanism.

PART 5

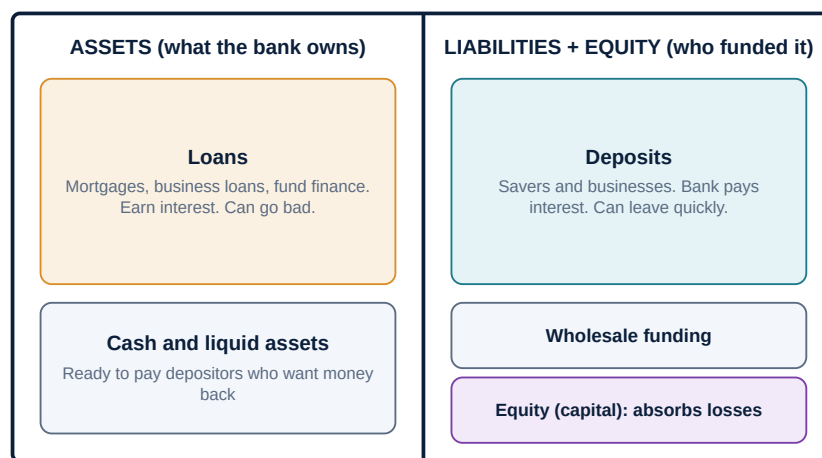

The industry from zero

What a bank is, the types of UK bank, the products, the vocabulary, and the forces reshaping the sector.

What a bank actually does

A bank does five things **Inferred** [S150-S205 background]. It **takes deposits**, money it owes back. It **lends** that money out, which earns interest. It **keeps the spread**: interest received minus interest paid is net interest income. It **earns fees** for advice, arranging deals, managing investments and hedging. And it **holds capital**, shareholders' money that absorbs losses before depositors lose anything. Regulators set how much capital it needs for each pound of risky loans.

Figure 21 A bank's balance sheet in one picture

$$\text{Profit} = \text{interest on loans} - \text{interest on deposits} + \text{fees} - \text{costs} - \text{bad debts}$$

Generic illustration **Inferred**. Investec figures for each box are in Figure 2.

KEY TERM

Net interest margin (NIM): net interest income divided by the assets that earn interest. It is the bank's "spread". It usually widens when rates rise (loans reprice faster than deposits) and narrows when rates fall.

Types of UK bank, and where Investec fits

Type	What they are	Examples
Large ring-fenced banks	Must separate retail deposits from investment banking once core deposits pass £35bn	Barclays, HSBC, Lloyds, NatWest, Santander UK [S161]
Building societies	Mutuals owned by members; mortgages and savings	Nationwide, Coventry
Challenger banks	Smaller banks on mainstream products	TSB, Metro [S186]
Specialist banks	Focus on specialist lending	Paragon, Shawbrook, Close Brothers [S186]
Digital banks	Technology-led	Starling, Zopa, Monzo [S186]
Private banks	Lending, deposits and service for wealthy individuals	Coutts, C. Hoare, Investec Private Bank
Investment banks	Advice, capital markets, trading	Goldman Sachs, JPMorgan, Barclays IB

Investec is a mid-sized specialist bank that also runs a private bank and an advisory and broking arm. It is far below the £35bn ring-fencing threshold **Confirmed** [S120, S161]. That makes it a hybrid: specialist lender, private bank and small

investment bank in one **Inferred**.

Private banking vs wealth management vs retail

- **Retail banking:** mass-market current accounts, savings, mortgages, cards, standardised at scale.
- **Private banking:** balance-sheet products for wealthy individuals (bespoke mortgages, lending, deposits, FX), relationship-managed. Earns interest.
- **Wealth management:** managing and advising on investments for a fee, usually a percentage of assets. Needs little capital.
- Investec UK keeps private banking in-house and delivers wealth through Rathbones **Confirmed** [S120].

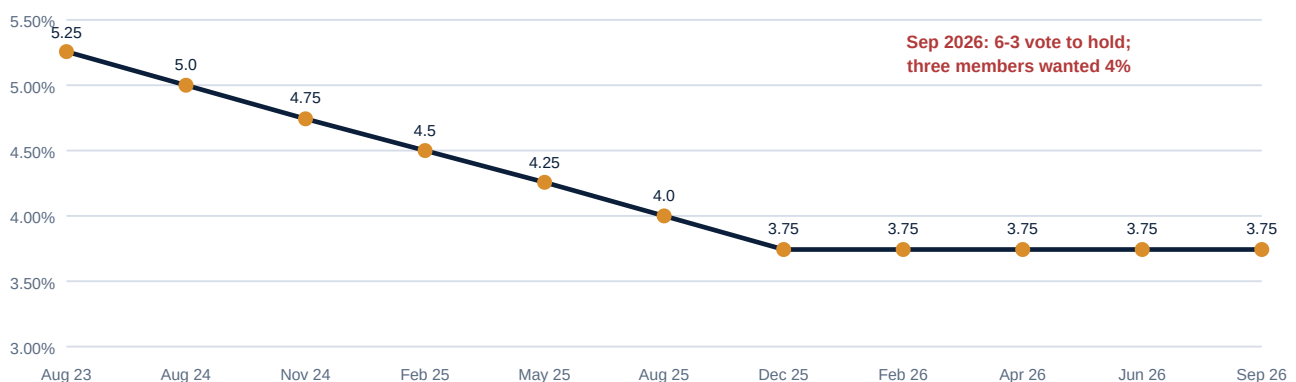

Corporate and investment banking for the mid-market

Product	Plain English	Investec UK team
Fund finance	Loans to investment funds, secured on investors' promises to invest (subscription lines) or on the fund's assets (NAV loans)	Fund Solutions
Direct lending / growth and leveraged finance	Loans to companies, often owned by private equity, sized against earnings	Direct Lending, Growth & Acquisition Finance
Real estate lending	Loans secured on property; loan-to-value measures risk	Real Estate
Aviation, energy and infrastructure	Loans secured on aircraft, power plants, infrastructure	Specialist sectors
Asset finance	Leasing and hire-purchase for equipment and vehicles	Asset Finance (Reading)
Advisory / M&A	Fees for advising on buying or selling companies	Advisory
ECM and corporate broking	Helping companies raise equity; being a listed company's link to investors	ECM, Corporate Broking
Hedging	FX forwards, rate swaps and caps for clients	Treasury Risk Solutions

Product definitions [S150-S205]; team names from Investec pages and postings [S22, S120, S277] (Reported where from snippets).

The rate cycle, verified

Figure 22 Bank of England Bank Rate, August 2023 to September 2026

Sources: Bank of England MPS pages [S150-S156, S230-S235]. Aug 2023 to Nov 2024 levels are background, not re-fetched. Feb 2025 was a cut to 4.5% (some aggregators wrongly say hold) [S152]. September 2026 vote checked on the BoE page on 5 Oct 2026. Next decision 5 Nov 2026.

Rates were cut from 5.25% to 3.75% between August 2024 and December 2025. Since then the Monetary Policy Committee has held at 3.75% at every meeting of 2026, and the debate has turned toward hiking. In September 2026 the vote was 6 to 3, with Megan Greene, Catherine Mann and Huw Pill voting for 4% **Confirmed** [S150, S230]. The Bank blames

"protracted conflict in the Middle East" pushing energy prices up. CPI inflation was 3.1% in August 2026 and is expected above 4% in early 2027 **Confirmed** [S230].

What it means for a bank like Investec **Inferred** : a pause in cuts protects net interest income, which fell in FY26 as rates came down. But higher-for-longer rates and an energy shock put pressure on leveraged borrowers and property, where a specialist lender is exposed.

The forces reshaping the sector

Figure 23 The industry shift map

Sources: S150 (rates), S188 (private credit, FSB, 6 May 2026), S193-S196 (consolidation), S157, S161, S165 (regulation), S176, S198 (FSCS, ISA), S199 (wealth transfer, industry estimate), S183 (IPOs, EY data via secondary), S191 (AI, Deloitte). Arrows show influence, not measured size.

- **Consolidation.** Nationwide bought Virgin Money (completed 1 Oct 2024), Barclays bought Tesco Bank (1 Nov 2024), Coventry bought Co-operative Bank (1 Jan 2025), Santander UK bought TSB for £2.65bn (completed 30 Apr 2026) [R/C] [S193-S196, S242]. EY: "M&A across this segment is poised to accelerate" **Confirmed** [S187].
- **Mid-tier squeeze.** EY found the challenger and specialist cohort's ROE fell to 6.9% in 2024 from 8.8%; specialists 5.5% **Confirmed** [S187].
- **Mid-tier banks matter.** Small and mid-tier banks provide about 60% of UK SME lending, "a doubling over the last decade" **Confirmed** [S186].
- **Private credit.** The FSB estimates non-bank direct lending to mid-sized firms at \$1.5 to 2tn globally (end-2024); the UK is the third-largest market. Banks also lend to these funds: about \$220bn of credit lines in member data, possibly more than twice that **Confirmed** [S188].
- **Growth agenda.** The Leeds Reforms (15 July 2025) aim to make the UK "the number one destination for financial services companies by 2035" **Reported** [S197].

Where it goes in three to five years: four views

View	Argument	Evidence	What it means for Investec Inferred
A. Private credit eats the mid-market	Post-crisis rules and faster non-bank lenders pull riskier lending off bank balance sheets	FSB cites bank regulation and demand for "fast execution" [S188]; McKinsey names asset classes where private credit gains [S190]	Pressure on direct lending and leveraged finance margins

View	Argument	Evidence	What it means for Investec Inferred
B. Frenemies	Banks lend to funds, sell risk to them, partner on origination	~\$220bn+ bank lines to funds [S188]; McKinsey on partnering [S189]	Fund Solutions is the bridge: Investec earns from the boom
C. Tailwinds favour scaled specialists	Basel 3.1 SME adjustments, higher MREL thresholds, IRB help for mid-sized banks, consolidation	S157, S158, S178, S187	Reaching IRB and scale lifts UK returns
D. Margin squeeze	Rate cuts and cost inflation squeeze the middle; lending growth slows	EY ROE data [S187]; EY ITEM sees lending growth of 2.2% in 2027 [S185]	UK cost-to-income of 54% leaves little room

YOUR OPINION GOES HERE

A defensible synthesis **Inferred** : B plus C. Banks keep the relationship, hedging, deposits and fund finance, and pass the riskiest tranches to private credit. Mid-tier banks consolidate. Winners have cheap sticky deposits, capital-efficient models and fee streams. Where do you land, and what evidence would change your mind?

PART 6

The role's own industry and its regulation

For an intern in a UK specialist bank, the "sub-industry" is UK bank regulation. Dates and instrument names checked against the Bank of England, FCA and Treasury.

Get these dates exactly right. They are the highest-leverage technical points you can make, and most candidates get them wrong.

Figure 24 UK bank regulation timeline, 2013 to 2028

2013	PRA and FCA created (1 Apr)	Jan 26	PS1/26 Basel 3.1 final; PS4/26 small banks (20 Jan)
2016	SM&CR for banks (7 Mar)	Mar 26	Motor redress PS26/3 £9.1bn (30 Mar)
2019	Ring-fencing in force (1 Jan)	Apr 26	SM&CR first wave (22 Apr)
2023	Consumer Duty (31 Jul)	May 26	Ring-fencing review: 10% growth allowance (18 May)
Feb 25	Ring-fence threshold £35bn (4 Feb)	Jul 26	Tribunal partly suspends motor scheme
Jul 25	Leeds Reforms; MREL £25-40bn; Basel dates (15 Jul)	Jan 27	Basel 3.1 and small-bank capital regime in force (1 Jan)
Aug 25	Supreme Court motor ruling (1 Aug)	Jan 28	Basel 3.1 market-risk models
Dec 25	FSCS £120k (1 Dec); FPC benchmark 13% (2 Dec)		

Sources: S157, S158, S159, S161, S165, S167, S169, S172, S173, S176, S178 (BoE, PRA, FCA, HMT; Confirmed except Supreme Court date, Reported via law firms). 2013 to 2019 dates are background. Orange = live in the next 12 months.

Who regulates a UK bank

- **PRA** (part of the Bank of England): safety and soundness. Capital, liquidity, governance.
- **FCA**: conduct. Fair treatment of customers (Consumer Duty), markets, listing rules, consumer credit.
- **Financial Policy Committee** (Bank of England): the whole system. Countercyclical buffer (2%), stress tests **Confirmed** [S178, S179].
- **HM Treasury**: writes the laws (FSMA 2000 and 2023; ring-fencing orders).
- Dual regulation began on 1 April 2013 [background].

Basel 3.1

The PRA published its final rules, **PS1/26**, on **20 January 2026**. They apply from **1 January 2027**, except the internal model approach for market risk, from **1 January 2028** **Confirmed** [S157]. The output floor stops banks using models from cutting risk-weighted assets below 72.5% of the standardised figure, phased in to 2030 **Reported** [S157]. SME and infrastructure adjustments are meant to ensure that removing old support factors "does not cause an increase in overall capital requirements" **Confirmed** [S157].

SAY THIS IN THE INTERVIEW

"Basel 3.1 goes live on 1 January 2027 under PS1/26. For Investec plc, which is on the standardised approach and says it is on its journey to IRB, the revised standardised risk weights and the route to IRB matter directly to how cheaply it can lend."

Ring-fencing

The threshold rose from £25bn to **£35bn** of core deposits on **4 February 2025**, through SI 2025/30. This was the "Smarter Ring-Fencing Reforms", not the Leeds Reforms **Confirmed** [S161, S163]. The Ring-Fencing Review published on **18 May 2026** kept £35bn, set reviews every three years from **Q2 2028**, and proposed a **growth allowance** of up to 10% of

Pillar 1 credit-risk RWAs, which could unlock "up to £80 billion of financing" **Confirmed** [S161, S162]. Investec's UK deposits (£22.5bn) are well below the threshold, so it is very likely not ring-fenced, but no Investec statement saying so was found **Inferred** [S120].

Small and mid-sized banks

- **Strong and Simple:** a simpler regime for banks with no more than £20bn of total assets; simplified capital from **1 January 2027** under PS4/26 **Confirmed** [S159]. Investec is too large and pursues IRB, so it is not eligible **Inferred**.
- **MREL** (bail-in debt): indicative thresholds raised to £25 to 40bn of total assets, effective 1 January 2026 [C/R] [S158, S164].
- **FPC benchmark:** system Tier 1 capital benchmark cut from about 14% to about 13% of RWAs on 2 December 2025 **Confirmed** [S178].

Conduct: Consumer Duty and motor finance

Consumer Duty (PS22/9): in force 31 July 2023 for open products and 31 July 2024 for closed ones. "A firm must act to deliver good outcomes for retail customers." Four outcomes: products and services; price and value; consumer understanding; consumer support **Confirmed** [S167, S168].

Motor finance. The Supreme Court ruled on 1 August 2025 that dealers were not fiduciaries, but upheld one claim of an unfair relationship under s.140A of the Consumer Credit Act **Reported** [S173]. The FCA consulted (CP25/27, 7 Oct 2025), then confirmed a redress scheme in **PS26/3 on 30 March 2026**: 12.1m agreements, £7.5bn of redress, £9.1bn total cost **Confirmed** [S169]. On 2 July 2026 the Upper Tribunal partly suspended it pending challenges; hearing 14 to 18 December 2026 or 16 to 26 February 2027 **Confirmed** [S172, S237]. Investec: "its existing £30 million provision... remains appropriate" **Confirmed** [S70].

Accountability, deposits and listings

- **SM&CR:** applies to banks since 7 March 2016. First wave of reforms confirmed 22 April 2026: about 15% fewer certification roles, thresholds raised 30% **Confirmed** [S165].
- **FSCS:** deposit protection rose from £85,000 to **£120,000 on 1 December 2025** **Confirmed** [S176].
- **Listing Rules:** single ESCC category from 29 July 2024 **Reported** [S181]. **PISCES** sandbox opened June 2025 **Reported** [S182]. Seven UK IPOs raised £577m in H1 2026, up 215% **Reported** [S183].

SOURCE UNCERTAIN

The SM&CR commencement date is given as 22 April 2026 (FCA press release date) in one source and 24 April in another. The Santander/TSB completion is 30 April 2026 per Santander [S242]. The £173bn figure for UK banks' private-markets exposure was seen only in a snippet; do not quote it.

PART 7

What is happening right now

Twelve stories from the last nine months, each with why it matters and a question to raise. Check every one again before the interview.

SOURCE UNCERTAIN

The 2026 backdrop is different from most interview guides: a Middle East conflict pushed Brent to \$106 a barrel on 14 Sep 2026; Bank Rate has been held at 3.75% all year; Andy Burnham became Prime Minister on 20 Jul 2026 **Confirmed** [S230, S244]. The bank windfall tax is a press report, not policy **Reported** [S246]. Dates to watch: Budget 28 Oct; MPC 5 Nov; Investec interims 19 Nov; motor finance tribunal Dec 2026 or Feb 2027; Basel 3.1 1 Jan 2027.

1. Investec FY26: steady growth, "peak investment year" ahead

Investec RNS, 21 May 2026 · [S220]

What happened: Adjusted operating profit up 3.4% to £951.0m; ROE 13.6%; dividend 38.5p. Southern Africa grew faster than the UK. Management calls FY27 the peak investment year, with UK RoTE guided 12.5 to 13.5%, near the bottom of the 13 to 17% range.

Why it matters to Investec: The UK earns below its own range; the investment programme is the plan to close the gap. **Inferred**

Why it matters to you: New roles and projects sit in UK private banking and the mid-market corporate bank.

Raise: "Which investments matter most for getting UK returns back into range, and how will you know by FY28 that they are working?"

2. Pre-close update: South Africa strong, UK behind

Investec RNS, 18 Sep 2026 · [S222]

What happened: UK adjusted operating profit for the half to 30 Sep 2026 guided 2 to 6% behind; Southern Africa up to 6% ahead in rand. Loans £37.0bn, deposits £46.0bn. Interim results on 19 Nov 2026.

Why it matters to Investec: UK profit falls while spending continues. **Inferred**

Why it matters to you: The latest official numbers you can quote. Re-read on 19 Nov.

Raise: "Loans are growing faster than deposits. Is the new private bank current account meant to close that funding gap?"

3. Investec's UK private bank push

City AM and Reuters, 21 May 2026 · [S225, S224]

What happened: £30m to expand the UK private bank; current accounts and a first UK credit card, full service in H2 2027. City AM reports doubling from 8,000 to 16,000 households; Reuters reports about 5,000 extra UK clients. The figures conflict.

Why it matters to Investec: The main UK growth bet, built with Rathbones. **Inferred**

Why it matters to you: The 2027 cohort arrives just before launch.

Raise: "How do you win affluent clients' current accounts against Coutts and NatWest-Evelyn without competing on price?"

4. Rathbones stops its buyback at Investec's 29.9% cap

Alliance News via AJ Bell, 13 Jul 2026 · [S227]

What happened: Rathbones ended its buyback because Investec's voting stake reached the 29.9% agreed in 2023 (41.25% economic). 30% is where the UK Takeover Code normally forces a bid.

Why it matters to Investec: Rathbones is a big profit source and the investment engine of the private client plan. **Inferred**

Why it matters to you: Shows how deal structure (votes vs economics) shapes strategy later.

Raise: "Is the Rathbones stake strategic or financial, now that votes are capped and Rathbones is in FCA remediation?"

5. Corporate banking that "feels like private banking"

Bdaily, 12 Jul 2026 · [S226]

What happened: Terry Koizou hired to lead client relationship management in UK Corporate Banking; the team is to grow past 40 relationship managers. Andy Hart: "corporate banking that feels like private banking."

Why it matters to Investec: The second half of the UK investment programme. *Inferred*

Why it matters to you: An internship could place you here. Learn the pitch.

Raise: "OakNorth and Shawbrook lend at lower cost. What is the edge beyond service?"

6. Bank of England: holding at 3.75%, three votes to hike

Bank of England, 17 Sep 2026 · [S230]

What happened: Vote 6 to 3 to hold; Greene, Mann and Pill wanted 4%. CPI 3.1% in August, seen above 4% in early 2027. Energy prices driven up by conflict in the Middle East. Next decision 5 Nov 2026.

Why it matters to Investec: Supports interest income; tests credit quality. *Inferred*

Why it matters to you: Know the rate, the direction and the date.

Raise: "In February the debate was when to cut. By September a third of the MPC wanted a hike. For a lender, does that become wage inflation or credit losses?"

7. Budget on 28 October: are banks a target?

LBC citing The Telegraph, 29 Aug 2026; IfG, 7 Sep 2026 · [S246, S244]

What happened: The Chancellor is reported to be considering a windfall tax on banks and oil companies. Not confirmed. Banks already pay a 3% surcharge on top of 25% corporation tax. Andy Burnham became Prime Minister on 20 July 2026; John Healey is Chancellor.

Why it matters to Investec: Investec plc is a UK bank; design of any tax decides whether mid-sized banks are hit.

Inferred

Why it matters to you: Likely the news story around interview time.

Raise: "A blunt windfall tax hits specialists that fund SME lending harder than the big four, and cuts against the growth agenda." Present as a debate.

8. Motor finance redress: confirmed, then partly frozen

FCA, 30 Mar and 2 Jul 2026 · [S236, S237]

What happened: £7.5bn redress over 12.1m agreements; Upper Tribunal partly suspended the scheme on 2 Jul 2026 after challenges by lenders and a consumer group. Hearing Dec 2026 or Feb 2027. Investec's provision: £30m.

Why it matters to Investec: Small exposure; but a test of UK regulatory predictability. *Inferred*

Why it matters to you: Links law, regulation and capital.

Raise: "Does the saga argue for more predictable, less retrospective redress, or for stronger conduct rules?"

9. Consolidation: NatWest buys Evelyn; Santander completes TSB

NatWest, 9 Feb 2026; Santander UK, 1 May 2026 · [S243, S242]

What happened: NatWest buying Evelyn Partners for £2.7bn (combined AUM ~£127bn). Santander completed TSB for £2.65bn, "the single largest investment in the sector for over 15 years".

Why it matters to Investec: A much bigger rival in the affluent and HNW segment Investec targets. *Inferred*

Why it matters to you: Textbook strategic-rationale cases.

Raise: "Scale is winning in UK wealth. Is Investec's partnership model as strong as owning a wealth manager?"

10. Close Brothers: turnaround under motor finance pain

Close Brothers RNS, 29 Sep 2026 · [S239]

What happened: Adjusted operating profit down 17% to £120.3m; statutory loss £60.3m; motor provision about £320m; no final dividend. "Close Brothers decided not to challenge the scheme."

Why it matters to Investec: Shows the value of Investec's diversification. *Inferred*

Why it matters to you: The obvious peer to compare.

Raise: "Close is shrinking to its core while Investec invests to grow. Which strategy wins if rates stay high and credit turns?"

11. Shawbrook one year after IPO; the IPO market

Shawbrook RNS, 5 Aug 2026; EY data, 8 Jul 2026 · [S240, S254]

What happened: Shawbrook H1 2026: underlying RoTE 18.1%, cost-to-income 36.4%. UK IPOs: seven deals raised £577m in H1 2026, up 215%.

Why it matters to Investec: The benchmark investors use for Investec UK; a recovering IPO market helps broking and ECM. **Inferred**

Why it matters to you: London listings are a common interview topic.

Raise: "Is Shawbrook's 18% RoTE a fair benchmark for a higher-touch model?"

12. Regulation 2026: Basel 3.1, ring-fencing, SM&CR, private credit warnings

PRA 20 Jan; HMT 18 May; FCA 22 Apr; BoE FPC Sep 2026 · [S249-S252]

What happened: Basel 3.1 from 1 Jan 2027; ring-fencing growth allowance; lighter SM&CR; the FPC says "risk-taking in parts of private markets and risky credit markets remained elevated."

Why it matters to Investec: Capital rules for SME and property lending change; private credit is both rival and client. **Inferred**

Why it matters to you: The growth agenda is the policy theme of 2026.

Raise: "Is risk moving back into banks as rules ease, or just out of sight into private credit?"

PART 8

Forming your own view: both sides of every argument

Eight live debates. For each, the case for and against with sources, and a space for your own view.

Is One Investec a real edge or a slogan?

The case for	The case against
Real: unified mid-market division, Rathbones moving to Investec-led advice, Extel #1 broking alongside lending [S121, S120, S130].	Slogan: no UK cross-holding figure is published; HSBC UK also grows cross-referrals 8% [S149].

YOUR OPINION GOES HERE

Write your one-sentence view, the strongest evidence for it, and what would change your mind.

Is the UK investment programme worth it?

The case for	The case against
Yes: fees grew 14.7%; primary-bank relationships give sticky deposits and fees that survive rate cuts [S70].	Not yet: UK RoTE guided 12.5 to 13.5%, UK H1 profit 2 to 6% lower; cost-to-income already 54% [S70, S71].

YOUR OPINION GOES HERE

Write your one-sentence view, the strongest evidence for it, and what would change your mind.

Should Investec own its UK wealth business again?

The case for	The case against
Yes: Coutts-Evelyn shows scale wins; owning 100% captures all the fees [S243].	No: the 41% stake gives profit (£76.6m) without full capital and conduct risk; Rathbones' 2026 remediation shows that risk [S70, S81].

YOUR OPINION GOES HERE

Write your one-sentence view, the strongest evidence for it, and what would change your mind.

Is private credit a threat or an opportunity?

The case for	The case against
Threat: takes leveraged lending; faster and more flexible [S188].	Opportunity: fund finance lends to those funds; FSB counts ~\$220bn+ of bank lines [S188].

YOUR OPINION GOES HERE

Write your one-sentence view, the strongest evidence for it, and what would change your mind.

Is the DLC structure a strength?

The case for	The case against
Strength: diversification; South Africa (ROE 18.2%) carried FY26 [S70].	Weakness: complexity, two capital regimes, harder valuation Inferred .

YOUR OPINION GOES HERE

Write your one-sentence view, the strongest evidence for it, and what would change your mind.

Should banks face a windfall tax?

The case for	The case against
For: higher rates lifted bank margins without extra effort.	Against: hits specialist SME lenders harder; contradicts the growth agenda [S246, S247].
YOUR OPINION GOES HERE Write your one-sentence view, the strongest evidence for it, and what would change your mind.	

Is Basel 3.1 good for Investec?

The case for	The case against
Good: SME and infrastructure adjustments, clearer path to IRB [S157].	Bad: output floor and new standardised weights could raise capital for some books Inferred .
YOUR OPINION GOES HERE Write your one-sentence view, the strongest evidence for it, and what would change your mind.	

High-touch vs low-cost lending?

The case for	The case against
High-touch: clients with complex needs pay for judgement and speed [S123, S125].	Low-cost: OakNorth (efficiency 26%) and Shawbrook (C/I 36%) earn more [S144, S240].
YOUR OPINION GOES HERE Write your one-sentence view, the strongest evidence for it, and what would change your mind.	

SAY THIS IN THE INTERVIEW

Formula for any opinion: "On balance I think X, because [one fact with a source]. The best counter-argument is Y. What would change my mind is Z."

PART 9

The interview: process, question bank, questions to ask

What each stage looks like, 45 questions with what they test, and ten questions only a researcher could ask.

Figure 25 The 2027 process, with your position marked

Sources: S1 (window, Confirmed); S7, S8 (official stages, investec.com snippets, Reported); S40, S41, S44 (Glassdoor and WSO anecdotes, Reported). No source mentions online tests or an assessment centre; one aggregator that does is unreliable [S26].

Stages **Reported** [S7, S8]: "You submit your CV on the application portal... If shortlisted, you will receive a link to complete a video application. Selected candidates are then invited to an interview with the Early Careers Lead, followed by a panel interview with the respective team you have chosen to join."

Reported texture **Reported** [S40, S41]: video questions are "mostly strengths based with no technical questions"; the HR round is "general motivational questions and personality questions"; the team round is "nothing technical, just situational questions"; "more of a conversation than an interview". Glassdoor difficulty 2.1 out of 5; average 52 days to hire. These are forum anecdotes.

Timeline **Inferred**: HireVue invitations in October; HR and team interviews likely late October to December 2026. That puts the Budget (28 Oct), the MPC (5 Nov) and Investec's interim results (19 Nov) inside your window.

PRIORITY

Since today is application day, the order of work is: (1) submit the application now; (2) prepare five HireVue answers (Part 11 and the questions below marked HireVue); (3) build your top-three teams answer; (4) read Parts 2, 3 and 12.

The question bank

Motivation and fit

1. Why Investec?

Tests: Have you understood what is distinctive about this firm, as a mechanism? **Structure:** 30-second version from Part 12: one bank for the founder and the company; mid-market; a business being built. **Weave in:** "Only integrated and diversified mid-market focused specialist bank" [S121]; new Corporate Bank 2026 [S268]; private-client plan [S89]. **Trap:** Adjectives ("prestigious", "entrepreneurial") with no fact behind them.

2. Why banking, and why now?

Tests: Motivation and self-knowledge. **Structure:** One moment that drew you in, what you tested since, why an internship is the right next test. **Weave in:** FT session in the JD [S1]. **Trap:** "Because it pays well."

3. Why would you give up your summer for an internship?

Tests: Reported HireVue question [S41]: energy and honesty. **Structure:** What you want to learn, why eight weeks inside a team beats reading about it. **Weave in:** "Real responsibilities" [S1]. **Trap:** Sounding reluctant.

4. Which three teams would you like to join, and why?

Tests: Reported HR-round question [S41]. Research depth. **Structure:** Rank three; for each, what the team does and why it fits you. **Weave in:** Fund Solutions, Corporate Banking, Private Bank, a lending niche (Part 1 table). **Trap:** Naming Wealth & Investment (now Rathbones) [S78].

5. Why not a bulge-bracket bank?

Tests: Did you choose Investec? **Structure:** Placement in one team, small enough to see seniors, mid-market clients. **Weave in:** Bank of about 2,400 [S278]. **Trap:** Badmouthing big banks.

6. Why not Close Brothers or Shawbrook?

Tests: Competitive knowledge. **Structure:** They lend; Investec lends, advises, brokers and banks the founder. Admit their efficiency. **Weave in:** S140, S142, S121. **Trap:** Claiming Investec has higher returns. It does not.

7. What does "Out of the Ordinary" mean to you?

Tests: Have you looked past the slogan? **Structure:** Link to the consensus-veto story and to "material ownership" culture. **Weave in:** S83, S278. **Trap:** Reciting the tagline.

8. Tell us about yourself.

Tests: Structure and story. **Structure:** Present, past, why here, in 60 to 90 seconds. **Weave in:** One Investec-specific line at the end. **Trap:** A chronological CV recital.

Strengths and behaviour (JD lines)

9. Tell us about a project you made your own.

Tests: Self-starter [S1]. **Structure:** STAR with numbers and what you personally did. **Weave in:** "Take a project and make it your own" [S1]. **Trap:** "We" throughout.

10. Give us a fresh idea for Investec.

Tests: Entrepreneurial thinker [S1]. **Structure:** Who it helps, the problem, the smallest test, the measure. **Weave in:** Private-client launch H2 2027 [S225]; mid-market build [S226]. **Trap:** "Use AI more."

11. Tell us about a time you juggled several deadlines.

Tests: Reported team-round question [S41]. **Structure:** Situation, how you prioritised, who you told, outcome. **Weave in:** Priority order (Part 11). **Trap:** Saying you never miss deadlines.

12. Tell us one thing about yourself we would not think to ask.

Tests: Reported HireVue question [S41]. Be you. **Structure:** A specific, true passion with one detail. **Weave in:** "Bring your whole self" [S1]. **Trap:** A humblebrag.

13. Who inspires you, and why?

Tests: Reported HireVue question [S41]. Values. **Structure:** One person, one quality, one way you act on it. **Weave in:** Values: dedicated partnership, cast-iron integrity [S106]. **Trap:** A celebrity with no reason.

14. If you could have dinner with anyone, who?

Tests: Reported HireVue question [S41]. Curiosity. **Structure:** Who, what you would ask, why it matters to you. **Weave in:** - **Trap:** Overthinking it.

15. Tell us about a time you failed.

Tests: Honesty and learning. **Structure:** Real failure, your part in it, what you changed. **Weave in:** Kensington as the firm's own lesson (Part 2). **Trap:** A disguised strength.

16. Tell us about a time you disagreed with someone.

Tests: Respectful challenge. **Structure:** The disagreement, how you raised it, the outcome. **Weave in:** Consensus culture [S83]. **Trap:** Making the other person the villain.

17. Tell us about working in a team.

Tests: Dedicated partnership. **Structure:** Your role, a conflict or problem, what you did. **Weave in:** Value names [S106]. **Trap:** Describing a team where nothing went wrong.

18. What would your friends say is your weakness?

Tests: Self-awareness. **Structure:** Real weakness, evidence you are working on it. **Weave in:** - **Trap:** "I'm a perfectionist."

Commercial awareness**19. What news story have you followed recently?**

Tests: Commercial awareness; the JD names the FT [S1]. **Structure:** What happened, why it matters to Investec, your view, what would change it. **Weave in:** Part 7 cards. **Trap:** A headline with no view.

20. How does Investec make money?

Tests: Basic bank economics. **Structure:** NII 58.6%, non-interest revenue 41.4%; costs; credit losses; profit £951.0m. **Weave in:** S70. **Trap:** Guessing numbers.

21. How do interest rates affect Investec?

Tests: Two-sided thinking. **Structure:** Margin up when rates rise; credit stress and deposit cost too. NII fell 1.6% in FY26. **Weave in:** S70, S230. **Trap:** "Higher rates are good for banks", full stop.

22. What is the biggest risk to Investec's UK business?

Tests: Judgement. **Structure:** Pick one (credit in niches, execution of the investment programme, Rathbones conduct); give evidence. **Weave in:** UK CLR 57bps; FY27 peak investment year; Rathbones remediation [S70, S81]. **Trap:** Listing five risks with no ranking.

23. What is private credit, and is it a threat?

Tests: Industry knowledge. **Structure:** Define; threat to leveraged lending; opportunity in fund finance. **Weave in:** FSB \$1.5-2tn; ~\$220bn+ bank lines [S188]. **Trap:** Calling it purely a threat.

24. What do you think of the UK IPO market?

Tests: Capital markets awareness. **Structure:** Recovering from a low base; listing reforms; matters to broking and ECM. **Weave in:** H1 2026 +215%, £577m [S183]; Extel #1 [S130]. **Trap:** Overclaiming a boom.

25. What is the motor finance issue?

Tests: Regulation and conduct. **Structure:** Hidden commissions; Supreme Court Aug 2025; FCA scheme £9.1bn; tribunal suspension; Investec £30m. **Weave in:** S169, S172, S70. **Trap:** Getting the dates wrong.

26. What is Basel 3.1?

Tests: Technical depth. **Structure:** Capital rules; PS1/26; from 1 Jan 2027; standardised vs IRB. **Weave in:** S157, S174. **Trap:** Saying it starts in 2025 or 2026.

27. Should banks pay a windfall tax?

Tests: Balanced opinion. **Structure:** Both sides; your view; label it as a view. **Weave in:** S246 (reported only). **Trap:** Stating it as decided policy.

28. What is happening to UK bank consolidation?

Tests: Market structure. **Structure:** TSB, Virgin, Co-op, Tesco Bank; why scale matters. **Weave in:** S193-S196, S242. **Trap:** Inventing deals.

29. Compare Investec with one competitor.

Tests: Analysis. **Structure:** One axis at a time: model, returns, cost, clients. **Weave in:** Part 4 table. **Trap:** A list of facts with no conclusion.

30. What is the Rathbones relationship?

Tests: Firm knowledge. **Structure:** 2023 combination; 41% economic, 29.9% votes; profit share; advice model evolving. **Weave in:** S78, S80, S120. **Trap:** Saying Investec owns Rathbones.

Situational**31. Two people give you urgent work due at the same time. What do you do?**

Tests: Collision handling. **Structure:** Tell both, let the senior or your manager order it, deliver, update. **Weave in:** Part 11 card D3.3. **Trap:** Choosing silently.

32. You spot a mistake in work already sent. What do you do?

Tests: Integrity and accuracy. **Structure:** Decision tree in Part 11. **Weave in:** Cast-iron integrity [S106]. **Trap:** Hoping nobody notices.

33. A senior asks you to send client data to your personal email.

Tests: Bright lines. **Structure:** Polite no; offer an alternative; tell your manager. **Weave in:** Confidentiality rules. **Trap:** Doing it "this once".

34. You overhear what might be inside information.

Tests: Market abuse awareness. **Structure:** Do not act, repeat or write it down; tell compliance. **Weave in:** Part 3 walls figure. **Trap:** Telling a friend.

35. You are given a vague task. How do you start?

Tests: Self-starter in ambiguity. **Structure:** Ask what decision it informs; send a one-page plan. **Weave in:** Part 11 card D9.3. **Trap:** Starting without scope.

36. Your manager is away and the client wants an answer.

Tests: Judgement. **Structure:** Never give advice yourself; find the next senior person; tell the client when they will hear back. **Weave in:** - **Trap:** Improvising an answer.

Technical-lite (be ready, not expected)**37. What is net interest margin?**

Tests: Vocabulary. **Structure:** Spread between interest earned and paid, as a share of earning assets. **Weave in:** Glossary. **Trap:** -

38. What is a covenant?

Tests: Credit basics. **Structure:** A promise in a loan agreement, e.g. debt below 4x EBITDA. **Weave in:** Glossary. **Trap:** -

39. What is loan-to-value?

Tests: Real estate lending. **Structure:** Loan divided by property value; lower is safer. **Weave in:** Glossary. **Trap:** -

40. What does a CET1 ratio of 13% mean?

Tests: Capital basics. **Structure:** Highest-quality capital is 13% of risk-weighted assets. **Weave in:** Investec plc 13.0% [S70]. **Trap:** -

41. Walk me through a company's three statements.

Tests: Accounting basics. **Structure:** P&L, balance sheet, cash flow, and how profit flows into each. **Weave in:** - **Trap:** Bluffing.

Curveballs**42. If you ran Investec UK, what would you change?**

Tests: Strategic judgement under limits. **Structure:** Admit limits; name the test (return over cost of capital); pick one area with public evidence. **Weave in:** Part 11 card D4.3. **Trap:** Pretending to know internal numbers.

43. Sell me Investec in one sentence.

Tests: Concision. **Structure:** The 30-second line, cut to one sentence. **Weave in:** Part 12. **Trap:** Rambling.

44. What would make you turn down an offer from us?

Tests: Honesty. **Structure:** A real factor (e.g. no chance to own work), handled positively. **Weave in:** - **Trap:** "Nothing."

45. What do you think we do badly?

Tests: Courage with tact. **Structure:** A sourced weakness: cost-to-income 54%, UK returns below range. **Weave in:** S70. **Trap:** Personal criticism.

Questions to ask them

1. How are intern host teams chosen each year, and how many interns will there be in 2027?
2. The UK graduate programme is reported as paused while early careers is redesigned. How do interns usually return, and what does that redesign look like?
3. You have called FY27 the peak investment year. What would tell you by FY28 that the UK private client and mid-market investments are working?
4. How does a team like Lending Operations or the Mumbai Credit Hub scale for a new Corporate Bank aiming at about 1,000 clients?

5. With Rathbones moving to an assets-under-advice model led by Investec, how does a private banker's day change?
6. How is your team thinking about private credit: as a competitor, a client through fund finance, or both?
7. How does the move from the standardised approach toward IRB change how the UK bank prices loans?
8. What does an intern in your team typically own by week eight?
9. How do London teams work day to day with the Mumbai hub?
10. What does "material ownership" look like for the most junior person on your team?

DON'T SAY THIS

Do not ask about pay, hours or holiday in the interview. Do not ask anything answered on the posting.

PART 10

Interviewer briefing

No interviewers are named. Here is who you are likely to meet, from public professional information only.

Person (public professional info)	Role	Evidence	Confidence
Ellis Wadsworth	Named "Meet the recruiter" on req 14049 and 14116; Talent Partner delivered by Chapter 2 (an outsourced recruitment firm) since Sept 2024; earlier recruitment roles at hackajob and insightsoftware	S1, S2 (Confirmed); S45, S46 (profiles, Reported)	High that this is the named recruiter; career details medium
Early Careers Lead (publicly associated: Shaleen Aslam)	Runs the HR interview per investec.com; a LinkedIn headline reads "Early Careers Lead and Recruitment Programme Consultant", Investec Bank plc	S7 (Reported); S47, S48 (snippets)	Currency not verified: may not be in role in Oct 2026. Do not name them unless they introduce themselves
UK Head of People & Organisation	Reported as Jason Spivey, joined Feb 2026	S290 (snippet only)	Low. Use the title, not the name
Your team panel	1 or 2 people from the matched team, sometimes an analyst	S41 (Reported)	Practitioners: pitch answers to the work

Reading the interviewer live

Type	How to tell	How to pitch
Early-careers / HR	Asks about motivation, values, teams you want; takes notes against a scorecard	Clear structure; values language; show you read the JD; be warm
Business practitioner	Asks about deals, clients, the market; follows up on detail	Concrete examples; one opinion with a source; ask about their work
Analyst on the panel	Close to your age; asks how you would handle the work	Show you would be easy to work with: clarity, accuracy, asking early
Silent or hard to read	Few signals	Keep answers to 60 to 90 seconds; check "Would you like more detail on any part?"

DON'T SAY THIS

Do not mention that you looked anyone up unless they bring it up. Never refer to anything personal. If you are unsure whether a name is right, use the job title.

PART 11

The scenario playbook

A method for holding your frame under pressure, three scenarios for every line of the job description, a composure set and a CV grill.

The four-step protocol

Figure 26 The four-step answer protocol

Total: 45 to 75 seconds. Stop talking after the close. Let them come back to you.

Method by the author **Inferred**.

Step	Phrases that execute it
Steady	"Let me make sure I have this right..." · "So the situation is..." · one breath before you start
Sort	"There are two things in tension: X and Y." · "What matters most here is..."
Act	"First I would... then..." · "I would tell [manager/compliance] because..." · "By [time] I would..."
Close	"The principle I would hold to is..." · "So in short: integrity and accuracy first, then speed."

Figure 27 The priority order when good things collide

- 1 Rules, confidentiality and Investec's name**
Never traded. Cast-iron integrity is a stated value; a bank lives on trust and regulation.
- 2 The client and the team's commitments**
What the team has promised a client or a senior colleague comes before your own preferences.
- 3 Accuracy and the record**
Check the numbers, keep the file tidy, say what you did and did not verify.
- 4 Speed**
Matters, but only inside the three lines above. Fast and wrong costs more than slow and right.

"I would never trade integrity or accuracy for speed. Inside those lines I move as fast as the team needs, and I flag early."

Method by the author **Inferred**, anchored to Investec's stated value "cast-iron integrity" [S106] and the FCA Consumer Duty [S168].

Figure 28 Eight ways interviewers break a frame, and the counter to each**1. Interruption***They cut in mid-answer.*

Counter: Stop. "Of course." Answer their point in one line, then: "To finish the thought..." and land your close.

2. Flat contradiction*"That's wrong."*

Counter: "Help me see it. Which part?" If they are right, concede the fact, keep the principle. If not, restate calmly with the reason.

3. Silence*They say nothing after you finish.*

Counter: Do not fill it with a new answer. Wait three seconds, then: "Is there a part you would like me to go deeper on?"

4. Escalation*"And now the MD is furious."*

Counter: Same frame, higher stakes. Repeat the priority order out loud and add who you would tell, faster.

5. Authority squeeze*"A senior person told you to. Do it."*

Counter: "I would want to help them get the outcome, and I would check the one thing I am unsure about with them or my manager first."

6. False choice*"Option A or B. Pick one."*

Counter: "If those are truly the only options, A, because... But I would first check whether C exists, for example asking for ten minutes."

7. Knowledge trap*A technical question you cannot answer.*

Counter: "I do not know that precisely. Here is how I would reason about it... and I would check it with..." Never bluff a number.

8. Invitation to badmouth*"What do you think of [rival / your old boss]?"*

Counter: Stay generous and factual: "They are strong at X. What draws me to Investec is Y." Never criticise a person.

Method by the author **Inferred**.**Staying calm physically**

- Before: feet flat, slow breath out (longer out than in), water nearby, notes face-down.
- During: pause before answering; it reads as thought, not panic. Write the question's key word on paper.
- On video: look at the camera when making your key point; keep hands visible; light in front of you.
- If you blank: "Can I take a moment?" Then use the protocol from step 1.

The scenario ladder**Figure 29** Every JD line, three rungs

JD line		Easy	Medium	Hard
D1	Team allocation	D1.1	D1.2	D1.3
D2	Culture & seniors	D2.1	D2.2	D2.3
D3	Real work	D3.1	D3.2	D3.3
D4	Whole business	D4.1	D4.2	D4.3
D5	Talks & networking	D5.1	D5.2	D5.3
D6	FT & analysis	D6.1	D6.2	D6.3
D7	Excel	D7.1	D7.2	D7.3
D8	Fresh ideas	D8.1	D8.2	D8.3
D9	Own a project	D9.1	D9.2	D9.3
D10	Be you	D10.1	D10.2	D10.3
D11	Year & degree	D11.1	D11.2	D11.3

Ladder built from the eleven JD lines in Part 1 [S1].

D1. Join a team within the Specialist Bank, aligned at your HR interview

D1.1 "Which part of the business would you like to join?"

EASY

- Setup** The HR interviewer asks where you want to be placed.
- Trap** Naming one team only, or saying "anywhere" with no reason.
- Say** "My first choice is [Private Banking / a CIB team], because [mechanism, e.g. it serves both entrepreneurs and the businesses they own]. I would be equally keen on [second], because [reason]. What I want most is a team where I own a piece of work."
- Why it works** The JD says the team is chosen with you at the HR interview, so a ranked, reasoned answer helps them place you. [S1]
- Twist** "And if we place you in Operations?" Hold: "Then I would learn how the bank actually works, which most front-office interns never see. I would ask to sit in on a credit committee too."

D1.2 "Why not apply to a bulge-bracket bank?"

MEDIUM

- Setup** They test whether you chose Investec or just applied everywhere.
- Trap** Badmouthing big banks or saying "smaller is easier".
- Say** "Big banks run interns through a fixed rotation. Investec places you in one team with real work, in a bank small enough that you see senior people. I also like that the private bank and the corporate bank serve the same entrepreneurs."
- Why it works** Mechanism, not adjectives: team placement, scale, the combined client. [S1] **Inferred**
- Twist** "But big banks pay more and have bigger names." Hold: "True. I am choosing where I will learn fastest in eight weeks."

D1.3 "You have no finance background. Why should a credit team take you?"

HARD

- Setup** A non-finance candidate is pushed on fit.
- Trap** Apologising, or pretending to know more than you do.
- Say** "The JD says any degree, and I take that at face value. I bring [skill from degree, e.g. structured argument / data handling]. I have already [specific learning step]. In week one I would learn the team's credit template before touching anything else."
- Why it works** Shows self-awareness and a concrete learning plan, which is what "self-starter" means. [S1]
- Twist** "Explain what a credit committee is." Use the definition in Part 5; if unsure, say what you know and how you would find out.

D2. Insight into culture; exposure to senior leaders

D2.1 "What do you know about our culture?"

EASY

- Setup** Opening question on culture.
- Trap** Reciting "out of the ordinary" with nothing behind it.
- Say** "The phrase is out of the ordinary, but what makes it real to me is [one structural fact from Part 2, e.g. the founders built it as an entrepreneurial bank in Johannesburg in 1974]. The values I would test myself against are [named values]."
- Why it works** Ties a slogan to a fact and to behaviour. [S70+]
- Twist** "Which value matters most to you?" Pick one and give a two-line story.

D2.2 "You get ten minutes with a senior leader. What do you ask?"

MEDIUM

- Setup** Tests curiosity and judgement around seniority.
- Trap** Asking something you could Google, or asking about pay or a job offer.
- Say** "I would ask how they decide which niches the bank lends into and which it stays out of, and what made them change their mind on one in the last few years."
- Why it works** A real business question shows you understand niche lending as a strategic choice. **Inferred**
- Twist** "They answer in jargon." Hold: "I would ask them to give me one example, then write it up and check my understanding with my manager."

D2.3 "A senior leader says something you think is wrong in a Q&A. What do you do?"**HARD**

Setup	Culture says challenge; hierarchy says careful.
Trap	Silent nodding, or a public "gotcha".
Say	"If it is a factual point, I would ask a curious question: 'I read X, how does that fit with Y?' If it is a judgement call, I would note it and ask my manager later."
Why it works	Respectful challenge fits an entrepreneurial culture and protects relationships. Inferred
Twist	"And if your manager says drop it?" Hold: "I would drop it, and learn why."

D3. Real responsibilities: contribute and deliver to your team**D3.1 "You are given your first task. How do you start?"****EASY**

Setup	Basic work habits.
Trap	"I would just get on with it."
Say	"I would repeat back the ask, the deadline and the format, ask what good looks like, check if there is a previous example, then send a quick draft early."
Why it works	Clarity before speed matches the priority order. Inferred
Twist	"Your manager is too busy to answer." Hold: ask an analyst on the team, then confirm with the manager by short email.

D3.2 "You finish your task early. What next?"**MEDIUM**

Setup	Self-starter test.
Trap	"I would wait to be given something."
Say	"I tell my manager it is done, offer one improvement, and ask if anyone else on the team needs a hand. If not, I use the time to learn the deal or client file."
Why it works	Shows initiative without overstepping. [S1]
Twist	"Nobody needs anything." Hold: "Then I build my overview of the wider business, which the programme says is a goal."

D3.3 "Two people on the team give you urgent work due at the same time."**HARD**

Setup	Scarce-resource collision.
Trap	Choosing silently, or doing both badly.
Say	"I would tell both of them straight away, give each the other's deadline, and ask the more senior person or my manager to set the order. Then I would deliver in that order and keep both updated."
Why it works	Transparency and a clear owner of priority is how teams resolve this. Inferred
Twist	"Both say theirs is client-facing." Hold: client commitments first, the earlier client deadline wins, and the manager decides ties.

D4. A clear overview of the entire business, not just your team**D4.1 "Describe Investec in one sentence."****EASY**

Setup	Basic firm knowledge.
Trap	A brochure line.
Say	Use the 30-second line in Part 12: a specialist bank and wealth manager serving entrepreneurs, high-income professionals and mid-market businesses, listed in London and Johannesburg.
Why it works	Precise and sourced. [S70+]
Twist	"What is a specialist bank?" Define it from Part 5.

D4.2 "How do the private bank and the corporate bank work together?"**MEDIUM**

Setup	Do you understand One Investec?
Trap	Inventing collaboration figures.
Say	"The idea is that the same people appear on both sides: a founder banks privately and their company borrows from the corporate bank. Referrals between them are the point. I would want to see how that works in practice."
Why it works	Uses the firm's own framing, flagged as their claim. [S120+]
Twist	"Isn't that a conflict of interest?" Hold: information barriers and client consent; explain in Part 3.

D4.3 "If you ran the UK bank, what would you cut?"**HARD**

Setup	Strategic judgement under pressure.
Trap	Pretending to know the internal numbers.
Say	"I cannot judge that from outside. I would ask which niches earn above their cost of capital through a full cycle, and look at the ones that rely on one or two people. From public results I would look first at [segment with weak return if reported]."
Why it works	Honest about limits, shows the right test (return over cost of capital). <i>Inferred</i>
Twist	"Just pick one." Hold: pick with a reason, labelled as an outside view.

D5. Presentations, talks and networking**D5.1 "How would you make the most of the speaker series?"****EASY**

Setup	Learning habits.
Trap	"I would attend all of them."
Say	"I would read up on each speaker's business beforehand, prepare one question, and write a five-line note afterwards on what I learned and who I want to follow up with."
Why it works	Shows a system, not enthusiasm. [S1]
Twist	"And the networking drinks?" Hold: set a target of two real conversations, not twenty business cards.

D5.2 "How do you approach networking with people more senior?"**MEDIUM**

Setup	Social confidence.
Trap	Transactional networking ("I want a job").
Say	"I ask about their work, not about jobs. I follow up within a day with a thank-you and one thing I took away."
Why it works	Respectful and memorable. <i>Inferred</i>
Twist	"Give an example from your past." Have one ready.

D5.3 "A senior person you met says 'Come and see me any time'. Do you?"**HARD**

Setup	Boundaries and judgement.
Trap	Turning up uninvited or never following up.
Say	"Yes, but on their terms. I would email to ask for fifteen minutes, keep it short, and mention it to my manager so nothing happens behind their back."
Why it works	Balances initiative with respect for line management. <i>Inferred</i>
Twist	"Your manager is annoyed." Hold: apologise, explain intent, agree how to handle it next time.

D6. Absorb complex information from the FT; immerse yourself in financial analysis**D6.1 "What did you read in the FT this week?"****EASY**

Setup	Commercial awareness, the classic.
Trap	Naming a headline without a view.
Say	Pick a story from Part 7. Structure: what happened, why it matters to a bank like Investec, your view, what would change your mind.
Why it works	The JD itself names the FT. [S1]
Twist	"Why does that matter to us specifically?" Link to a segment.

D6.2 "Explain how a rise in interest rates affects Investec."**MEDIUM**

- Setup** Basic bank economics.
- Trap** Saying "banks make more money" and stopping.
- Say** "Higher rates raise the margin on loans funded by cheaper deposits, up to a point. But depositors demand more, borrowers struggle, and credit losses can rise. Investec's results show [NIM / impairment point from Part 2]."
- Why it works** Two-sided, mechanism-based, sourced. [S70+]
- Twist** "So are falling rates good or bad?" Hold: margin squeeze vs. lower credit losses and more deal activity.

D6.3 "Here are three numbers from our results. What do they tell you?"**HARD**

- Setup** Live financial analysis.
- Trap** Freezing, or guessing.
- Say** "Let me take them one at a time... The cost-to-income ratio tells me how efficient... ROE against CET1 tells me how hard capital works..." Think aloud.
- Why it works** Thinking aloud is what they want to see. **Inferred**
- Twist** "Which is the most worrying?" Pick one and say why, labelled as a view.

D7. Excel courses**D7.1 "How good is your Excel?"****EASY**

- Setup** Honesty about skills.
- Trap** Overclaiming.
- Say** "Solid on [functions you can use: XLOOKUP, pivot tables, SUMIFS]. Less confident on [macros / financial modelling]; I am working on it via [course]."
- Why it works** Honest and specific. **Inferred**
- Twist** "Explain a pivot table." One sentence: summarises a big table by groups.

D7.2 "Your model gives a strange result an hour before it is due."**MEDIUM**

- Setup** Accuracy vs speed.
- Trap** Sending it anyway.
- Say** "I would check the inputs and the formula chain, and if I cannot find it in thirty minutes I would send it with a clear flag on the number I do not trust, and tell my manager."
- Why it works** Accuracy and the record outrank speed. **Inferred**
- Twist** "The MD needs it now." Hold: send with the flag; never hide a known problem.

D7.3 "Someone asks you to hard-code a number to make the output match."**HARD**

- Setup** Integrity in small things.
- Trap** Doing it silently.
- Say** "I would ask where the number comes from. If it is a real override, I would label it as an input with its source. I would not hide it in a formula."
- Why it works** Transparent models protect the bank and the client. **Inferred**
- Twist** "It's just a draft." Hold: drafts get forwarded; label it anyway.

D8. Entrepreneurial thinker: fresh ideas**D8.1 "Give us a fresh idea for Investec."****EASY**

- Setup** Entrepreneurial thinker.
- Trap** A vague idea ("use AI more").
- Say** Use the idea structure: who it helps, the problem, the smallest test, how you would measure it. For example, a student-run content series on the FT summaries the JD mentions.
- Why it works** Specific, testable, small. [S1]
- Twist** "Why hasn't it been done?" Hold: "Maybe it has; I would ask first."

D8.2 "Tell us about something you started."**MEDIUM**

- Setup** Evidence of entrepreneurship.
- Trap** A team project where you did little.
- Say** STAR with the numbers: what you started, what you risked, what happened, what you learned.
- Why it works** The JD asks for fresh ideas and owning projects. [S1]
- Twist** "What would you do differently?" Have one real answer.

D8.3 "Your idea would cost money and the team says no."**HARD**

- Setup** Handling rejection.
- Trap** Arguing on.
- Say** "I would ask what would make it worth trying, test a smaller version for free if possible, and drop it gracefully if not."
- Why it works** Entrepreneurs test small. **Inferred**
- Twist** "Would you go above their heads?" No, unless it is a conduct issue.

D9. Self-starter: take a project and make it your own**D9.1 "Tell us about a project you made your own."****EASY**

- Setup** Self-starter.
- Trap** Describing a group effort as solo.
- Say** Pick one; show ownership: you defined it, you chased people, you delivered. Give the result.
- Why it works** Matches the JD wording. [S1]
- Twist** "Who helped you?" Credit others.

D9.2 "Your project is going nowhere after two weeks."**MEDIUM**

- Setup** Persistence vs. judgement.
- Trap** Pretending it is fine.
- Say** "I would tell my manager early, show what I tried, and propose either a narrower scope or a different route."
- Why it works** Early honesty beats late surprise. **Inferred**
- Twist** "Your manager is away." Ask the next senior person on the team.

D9.3 "You are given a vague task: 'look into fund finance for us'."**HARD**

- Setup** Ambiguity.
- Trap** Starting without a scope.
- Say** "I would ask what decision it informs and by when, then send a one-page plan before spending a day on it."
- Why it works** Saves everyone time. **Inferred**
- Twist** "They say: just figure it out." Hold: draft the scope yourself and confirm by email.

D10. Be you: passions and interests**D10.1 "What do you do outside your studies?"****EASY**

- Setup** Be you.
- Trap** A list with no story.
- Say** One passion, one detail, one link to how you work. Keep it honest.
- Why it works** The JD explicitly asks for passions. [S1]
- Twist** "How does that help you here?" One sentence link.

D10.2 "What would surprise us about you?"**MEDIUM**

Setup	Authenticity.
Trap	A humblebrag.
Say	Something true and specific that shows character.
Why it works	Inferred
Twist	"Why does that matter?" Link to resilience or curiosity.

D10.3 "Isn't that hobby a distraction from the job?"**HARD**

Setup	Pressure on a personal answer.
Trap	Getting defensive or dropping it.
Say	"It is what keeps me sharp. During exams I scaled it down to [x], and I would do the same during the internship."
Why it works	Shows self-management. Inferred
Twist	"Prove it." Give the example.

D11. Penultimate or final year, any degree**D11.1 "Why an internship now?"****EASY**

Setup	Timing and motivation.
Trap	"Because everyone does one."
Say	"I want to test whether banking is right for me before I commit to a graduate role, and eight weeks inside a real team is the best test."
Why it works	[S1]
Twist	"And if it isn't?" Hold: then you learned it cheaply.

D11.2 "How does your degree help in a bank?"**MEDIUM**

Setup	Any-degree candidates.
Trap	Saying it does not.
Say	Name two transferable skills with evidence.
Why it works	[S1]
Twist	"Name a weakness of your degree for this job." Have one and your fix.

D11.3 "Where do you see yourself in five years?"**HARD**

Setup	Ambition and realism.
Trap	Naming a title you do not understand.
Say	"Ideally on Investec's graduate programme then in [area], having learned [skill]. I would expect that to change as I learn what I am good at."
Why it works	Inferred
Twist	"Would you leave for a hedge fund?" Hold: honest, not disloyal.

The composure set**Two seniors, one intern, both urgent****HARD**

Setup	Two people each say their task is the priority and both are due by 5pm.
Trap	Panicking, hiding it, or acting alone outside your role.
Say	Tell both at once, share the clash, ask the more senior person or your manager to set the order. Deliver in order. Keep both updated.
Why it works	Holds the priority order: rules and the client first, accuracy, then speed. Tells the right person early.
Twist	They escalate: "The MD says do it anyway." Hold: same answer, calmly, and tell your manager.

Asked to skip a control**HARD**

- Setup** A senior colleague asks you to email a client file to your personal address so you can finish it at home.
- Trap** Panicking, hiding it, or acting alone outside your role.
- Say** Say no politely: "I'm not able to send client data outside the bank, but I can finish it in the office tonight or on a bank laptop." Tell your manager. See the decision tree.
- Why it works** Holds the priority order: rules and the client first, accuracy, then speed. Tells the right person early.
- Twist** They escalate: "The MD says do it anyway." Hold: same answer, calmly, and tell your manager.

Overheard something possibly inside information**HARD**

- Setup** In the lift you hear a deal team discuss a listed company being bought.
- Trap** Panicking, hiding it, or acting alone outside your role.
- Say** Do not trade, do not repeat, do not write it down. Tell compliance or your manager that you may have heard something. Assume it is inside information until told otherwise.
- Why it works** Holds the priority order: rules and the client first, accuracy, then speed. Tells the right person early.
- Twist** They escalate: "The MD says do it anyway." Hold: same answer, calmly, and tell your manager.

Your mistake**HARD**

- Setup** You find an error in a spreadsheet already sent to a director.
- Trap** Panicking, hiding it, or acting alone outside your role.
- Say** Tell the director now with the fix and the impact. Do not wait. See the decision tree.
- Why it works** Holds the priority order: rules and the client first, accuracy, then speed. Tells the right person early.
- Twist** They escalate: "The MD says do it anyway." Hold: same answer, calmly, and tell your manager.

Incomplete information, hard deadline**HARD**

- Setup** You have to brief your team on a company by 9am, and half the data is missing.
- Trap** Panicking, hiding it, or acting alone outside your role.
- Say** Deliver what you have on time, mark clearly what is missing and what you assumed, and say how you would fill the gap.
- Why it works** Holds the priority order: rules and the client first, accuracy, then speed. Tells the right person early.
- Twist** They escalate: "The MD says do it anyway." Hold: same answer, calmly, and tell your manager.

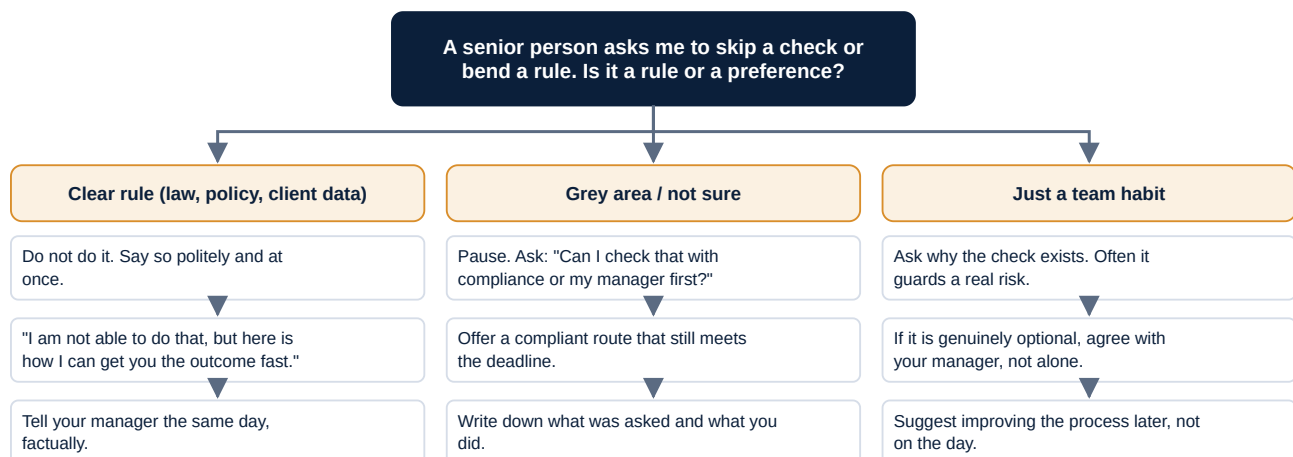

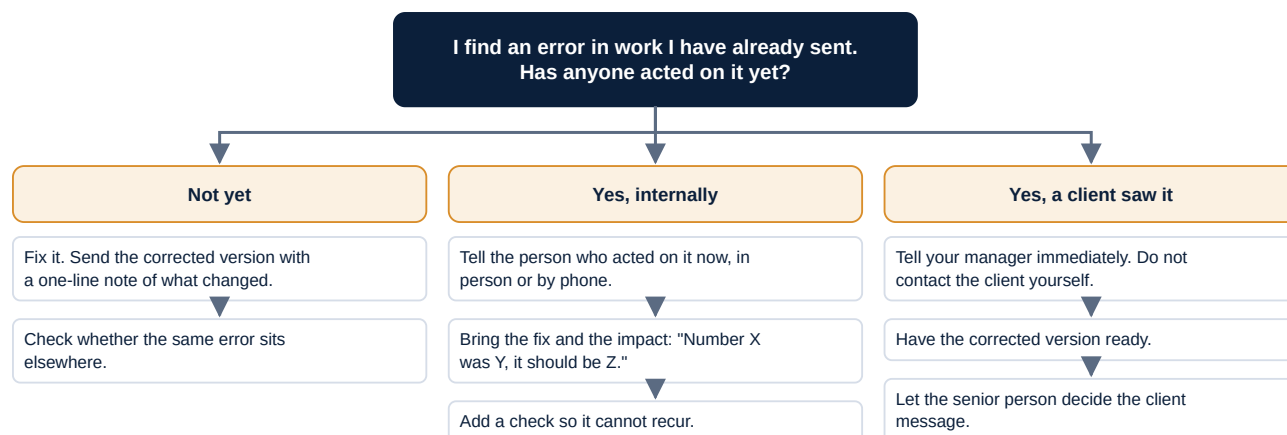

Figure 30 Decision tree: a senior asks you to skip a controlMethod by the author **Inferred** . Draw it from memory: rule, grey area, habit.

Figure 31 Decision tree: a mistake you made

Method by the author **Inferred**. Draw it from memory: not yet acted on, acted on internally, seen by a client.

The CV grill

A three-levels-deep attack goes: **what** you did, then **why** you did it that way, then **what if** it had gone differently or **what would you change**. Each level tests whether you really did it.

Attack	Frame-holding answer
"Talk me through this bullet."	State the situation in one line, your action, the result with a number.
"What exactly did YOU do?"	Name your part with verbs: I built, I wrote, I chased. Credit the team once.
"Why did you do it that way?"	Give the alternative you rejected and why.
"That number sounds high. How did you measure it?"	Explain the measure plainly; if it was an estimate, say so.
"What went wrong?"	A real problem and what you changed.
"What would you do differently?"	One specific change, not "nothing".
"How is this relevant to banking?"	One transferable skill: analysis, accuracy, clients, deadlines.
"This looks like a gap / short stint."	A short factual reason, then what you did with the time.

DRILL

Four-line drill for every CV bullet. (1) What I did, in one sentence. (2) The number and how I know it. (3) The hardest moment and what I did. (4) What it shows that matters at Investec.

PART 12

"Why Investec" in three lengths, and the counter-case

Built from mechanism. Each version could not be said about a rival without changing the words.

Figure 32 Why Investec on one page

WHY INVESTEC, IN ONE PAGE

Mechanism, not adjectives

1. The structure

One bank for the founder and the company: private bank + mid-market lending + advisory and broking. Lenders don't advise; brokers don't lend.

S121, S125

2. The moment

FY27 is the peak investment year: a new Corporate Bank (launching 2026) and a full UK private bank (H2 2027). Interns join a build.

S70, S89, S268

3. The scale

A UK bank of ~2,400 people: one team, real work, seniors you meet. Not a rotation.

S278, S1

4. The culture

Founders' consensus-after-challenge rule; "material ownership, freedom to operate with accountability".

S83, S278

Honest limits: UK RoTE 13.7% (below Shawbrook, OakNorth, Coutts); cost-to-income 54%; UK H1 profit guided 2-6% lower; no published UK cross-sell figure. Say "distinctive", never "best".

Sources as marked in each column; full detail in Parts 2 to 4.

Thirty seconds

SAY THIS IN THE INTERVIEW

"Investec is the one bank I found that serves both the entrepreneur and the business they own: a private bank, mid-market lending, and its own advisory and broking arm under one roof. Its UK business is in its peak investment year, building a new corporate bank and a full private bank, so an intern joins something being built. And at about 2,400 people in the UK bank, I would be in one team doing real work, not on a rotation."

Two minutes

SAY THIS IN THE INTERVIEW

"Three reasons, and they are about how the firm works rather than adjectives.

First, the structure. Most UK competitors do one thing. Close Brothers, Shawbrook and OakNorth lend. Peel Hunt and Numis advise. Coutts runs a private bank. Investec describes itself as the only integrated mid-market specialist bank, and the reason that matters is the client lifecycle: a founder needs growth debt, then advice on a sale or listing, then a mortgage and somewhere to put the money. One bank can serve each stage, and Investec ranks first among UK small and mid-cap brokers while also lending.

Second, the moment. Management calls FY27 the peak investment year. The UK is building a corporate bank that Andy Hart says should feel like private banking, and launching current accounts and cards for private clients in the second half of 2027. UK returns are below the target range right now, which is exactly why the next two years are interesting.

Third, the culture has a mechanism. Ian Kantor says the founders each had a veto, so anything was possible with consensus. Today's annual report describes material ownership and freedom to operate with accountability. In a UK bank of about 2,400 people, that means an intern in one team, owning real work, close to senior people.

I am realistic: Shawbrook and OakNorth earn higher returns at lower cost. Investec's bet is depth of relationship, and I want to see how that is built."

The close: one specific thing

SAY THIS IN THE INTERVIEW

"If I could choose, I would most like to work on [Fund Solutions / the new Corporate Bank / the private client launch], because [it sits where private credit and banks meet / it is being built right now / it turns a mortgage lender into a primary bank]. By week eight I would want to have owned one piece of work the team actually used."

What most candidates say vs what you can say

Most candidates	You
"Entrepreneurial culture"	Kantor's consensus-veto rule; "material ownership, freedom to operate with accountability" [S83, S278]
"Out of the ordinary"	The UK bank is converting from specialist lender to primary bank for two client types [S89, S90]
"Prestigious, global bank"	A UK bank of 2,425 people inside a DLC with South Africa [S278, S120]
"Great private bank"	Income- and founder-led client definition; 8,200 UK clients, growing [S123, S124]
"Strong financial results"	£951.0m profit, but UK RoTE 13.7% and guided lower; peak investment year [S70, S71]
"I want to learn about finance"	I want to own one piece of work in [named team] and see how One Investec works in practice

The honest counter-case

- Returns: UK below Shawbrook, OakNorth, Coutts, Barclays PBWM [S120, S140-S148].
- Efficiency: cost-to-income 54% vs 26 to 36% at lean peers [S120, S144, S240].
- Integration unproven by public data: no UK cross-holding figure [S120]; HSBC also grows cross-referrals [S149].
- Rathbones, the investment engine of the private client plan, is under FCA-prompted remediation [S81].
- Graduate programme paused: return routes are ad hoc [S8].
- Execution risk: UK H1 profit guided 2 to 6% lower while spending continues [S71].

PART 13

Cheat sheet

Everything you need in the five minutes before you join the call.

Figure 33 The cheat sheet on one page

INVESTEC SUMMER INTERNSHIP 2027 · ONE-PAGE CHEAT SHEET

PROTOCOL (45-75 sec)

- 1 STEADY: restate in one line
- 2 SORT: "two things in tension..."
- 3 ACT: steps, real people, times
- 4 CLOSE: one principle. Stop.

PRIORITY ORDER

- 1 Rules, confidentiality, Investec's name
 - 2 The client and team commitments
 - 3 Accuracy and the record
 - 4 Speed
- "Never trade integrity or accuracy for speed."

NUMBERS IF ASKED (FY26, to 31 Mar 26)

Group adj. op. profit £951.0m (+3.4%)
 ROE 13.6% · C/I 52.9% · CLR 36bps
 NII 58.6% / non-interest 41.4%
 UK SB profit £401.6m; loans £17.8bn
 Investec plc RoTE 13.7%; CET1 13.0%
 IBP staff 2,425; group 8,000+

DATES

Founded 1974 Jo'burg · DLC 2002
 Rathbones 2023 (41% econ / 29.9% votes)
 Bank Rate 3.75%; MPC 5 Nov
 Budget 28 Oct · Interims 19 Nov
 Basel 3.1 (PS1/26) from 1 Jan 2027
 FSCS £120k since 1 Dec 2025

COUNTERS

Interrupted: "Of course." Answer, then finish.
 Contradicted: "Which part?"
 Silence: wait; offer depth
 Authority squeeze: help + check first
 False choice: answer, then name option C
 Knowledge trap: "I don't know precisely; here's how I'd reason"

NEVER

Claim "best" or "highest returns"
 Name Wealth & Investment as a team
 Raise cum-ex or fines unprompted
 Quote the windfall tax as policy
 Send client data outside the bank
 Bluff a number

LINES READY

"One bank for the founder and the company: private bank, mid-market lending, advisory and broking."
 "FY27 is the peak investment year: a new Corporate Bank and a full UK private bank. I'd join a build."
 "Material ownership, freedom to operate with accountability: that's what I want in eight weeks."
 ASK: "What would tell you by FY28 that the UK investments are working?"

Figures: S70, S120, S278, S282 (Confirmed). Dates: S78, S80, S157, S176, S222, S230, S244. Also saved separately as Cheat_Sheet.pdf.

PART 14

Glossary

93 terms in plain English.

Adjusted operating profit	Profit before tax, after stripping out items management considers one-off; Investec's headline profit measure.
Asset finance	leasing or hire-purchase to fund equipment and vehicles.
Associate	A company in which a group owns a big stake (often 20-50%) but not control; it books its share of profit. Rathbones is Investec's.
AUM / FUM	assets (funds) under management.
Bail-in	converting a failing bank's debt into equity to recapitalise it.
Bank Rate	the Bank of England's main interest rate (3.75% now). It drives what banks charge and pay.
Bank surcharge	An extra corporation tax that only banks pay (3%).
Basel III / Basel 3.1	international bank capital rules. "3.1" is the UK's final package, from 1 January 2027.
Basis point	One hundredth of one percent.
Building society	a mutual owned by its members (savers and borrowers) rather than shareholders.
Capital (equity)	shareholders' money that absorbs losses before depositors suffer.
CET1 (Common Equity Tier 1)	the highest-quality capital, mainly shares and retained profits.
CET1 ratio	CET1 ÷ risk-weighted assets. Investec plc is at 13.0%.
Challenger bank	a newer or smaller bank competing with the big five on mainstream products.
Consumer Duty	the FCA rule (2023/2024) that firms must deliver good outcomes for retail customers.
Corporate broker	the adviser that links a listed company to its investors and runs its share issues.
Cost-to-income ratio	costs ÷ revenue. Lower is more efficient.
Countercyclical capital buffer (CCyB)	extra capital the FPC can raise in good times and release in bad. The UK rate is 2%.
Covenant	a promise in a loan agreement (e.g. debt below 4x EBITDA). Breaching it lets the lender act.
CPI inflation	how fast consumer prices are rising. The target is 2%.
DCM (Debt Capital Markets)	helping companies issue bonds.
Deposit	money customers leave at the bank. The bank owes it back.
Discretionary commission arrangement (DCA)	a car dealer could raise the customer's interest rate to earn more commission. Banned in January 2021.
DLC (dual-listed company)	Two listed parents run as one group with one board: Investec plc (London) and Investec Limited (Johannesburg).
EBITDA	earnings before interest, tax, depreciation and amortisation. A rough cash-profit measure used in lending.
ECM (Equity Capital Markets)	helping companies raise money by selling shares (IPOs, placings).
ESCC	the single UK listing category for commercial companies since 29 July 2024.
FCA	Financial Conduct Authority. Polices conduct, consumer protection and markets.
FPC	the BoE's Financial Policy Committee, which looks after whole-system stability.
FSCS	the Financial Services Compensation Scheme. Protects deposits up to £120,000 per person per bank.
Fund finance	loans to investment funds, e.g. subscription lines (secured on investor commitments) and NAV loans (secured on fund assets).
HireVue	
IBP	A one-way video interview platform: you record answers to set questions.
ICAAP	Investec Bank plc, the main UK banking subsidiary of Investec plc.
IGSI	a bank's own assessment of how much capital it needs.
	Investec Global Services India, the Mumbai service hub.
	money set aside for loans that may not be repaid.
	Controls that stop inside information passing between teams; also called a Chinese wall.
	Precise non-public information likely to move a listed share price if known.
	the careers page was blocked (403). Role descriptions in 4A.8 are inferred.
	initial public offering, a company's first listing on a stock exchange.

Impairments / expected credit loss (ECL)	the bank uses its own approved models for risk weights. Often lower capital for good-quality books.
Information barrier	know-your-customer and anti-money-laundering checks.
Inside information	enough liquid assets to survive 30 days of stress.
Investec-specific	capital ÷ total (un-weighted) exposures. A backstop to RWAs.
junior role content	lending to highly indebted companies, often to fund private-equity buyouts.
IPO	having cash or easily-sold assets to pay depositors.
IRB (Internal Ratings-Based)	all the loans a bank has made.
approach	companies too big for "small business" banking but below large corporates. Roughly £10m–£500m+ turnover (definitions vary).
KYC / AML	the outcome of the Upper Tribunal hearing (Dec 2026 / Feb 2027) is pending. Investec's interim results on 19 November 2026 may update the £30m provision.
LCR (Liquidity Coverage Ratio)	the 9-person BoE committee that sets Bank Rate to hit 2% inflation.
Leverage ratio	extra loss-absorbing debt bigger banks must hold so they can be "bailed in" instead of bailed out.
Leveraged finance	A loan to a fund secured on the value of its investments.
Liquidity	interest earned minus interest paid.
Loan book	NII as a % of interest-earning assets. It measures the "spread".
Mid-market	not yet announced in what I found.
Motor finance	revenue from fees (advice, wealth management, FX) rather than lending.
MPC (Monetary Policy Committee)	long-term assets funded by stable funding.
MREL	Investec's term for serving a client across its businesses.
NAV loan	under Basel 3.1, model-based RWAs cannot fall below 72.5% of standardised RWAs.
Net interest income (NII)	minimum capital, firm-specific add-ons, and a stress buffer.
Net interest margin (NIM)	the UK sandbox for periodic trading of private-company shares (since June 2025).
Next BCST (2027)	Prudential Regulation Authority (part of the BoE). Keeps banks safe and sound.
scenario and launch date	A trading update just before a reporting period ends.
Non-interest / fee income	lending, deposits and services for wealthy individuals, relationship-managed.
NSFR (Net Stable Funding Ratio)	loans made by investment funds rather than banks.
One Investec	a fund that buys companies, usually with borrowed money.
Output floor	an amount set aside for a likely future cost, for example Investec's £30m for motor finance.
Pillar 1 / Pillar 2A / Pillar 2B	PwC pages returned 403, and no KPMG UK banking outlook was fetched. View A–D are sourced from FSB, McKinsey (snippet), EY and Deloitte instead.
PISCES	loans secured on commercial or investment property. LTV (loan-to-value) measures risk.
PRA	compensation paid to customers who were treated unfairly.
Pre-close statement	The banker who owns a client relationship and routes needs to product teams.
Private banking	the BoE's process for handling a failing bank without taxpayer money.
Private credit / direct lending	big UK banks (core deposits above £35bn) must separate retail banking from riskier investment banking.
Private equity (PE) sponsor	assets adjusted for riskiness. A risky loan counts for more.
Provision	Regulatory News Service: the official channel for listed-company announcements in London.
PwC / KPMG UK banking reports	return on (tangible) equity, i.e. profit ÷ shareholders' capital. Investec UK Specialist Bank ROTE was 13.7% in FY2026.
Real estate / CRE lending	a small UK bank (at most £20bn assets) eligible for the simpler "Strong and Simple" rules.
Redress	a bank sells the credit risk of a loan portfolio to investors to free capital.
	the exact commencement date (22 vs 24 April 2026) and whether HMT legislation removing the Certification Regime has been laid.
	the Senior Managers & Certification Regime, which makes named senior people accountable.
	A bank focused on specialist lending niches rather than mass-market products.
	regulator-set risk weights.
	a hypothetical severe-recession scenario to check banks keep enough capital.
	swaps that lock in interest on stable deposits to smooth NII.

Relationship manager (RM)	A loan to a fund secured on investors' promises to invest.
Resolution	Averaged over good and bad years of the economy.
Ring-fencing	layers of capital. AT1 bonds can convert to equity or be written down in stress.
Risk-weighted assets (RWAs)	the fetch returned only navigation, so no UK Finance outlook or quote was captured. Retry the ukfinance.org.uk "Enabling the mid-tier sector to grow" blog and its Annual Lending/Household Finance reviews.
RNS	Formally bringing a public-side person inside on a deal, approved and logged by compliance.
ROE / ROTE	managing and advising on clients' investments for a fee (% of AUM).
SDDT (Small Domestic Deposit Taker)	money borrowed from markets (bonds, interbank) rather than customer deposits.
Significant risk transfer (SRT)	A one-off tax on profits seen as unearned luck.
SM&CR	seen in a snippet attributed to a BoE FSR, but not found on the July 2026 FSR summary page. Use carefully.
SM&CR	
Specialist bank	
Standardised approach	
Stress test

PART 16

Gaps and open questions

What could not be established, and how to close each gap before your interview.

Gap	Why it matters	How to close it
investec.com was blocked (HTTP 403) to automated reading	Values wording, careers pages, press releases came from snippets	Open the pages in a browser yourself: About us, Careers > Graduates, Press
2027 host teams not published	The "top three teams" answer	Ask at the HR interview; read Investec LinkedIn posts from summer 2026
Intern cohort size and pay	Expectations	Ask early careers; Glassdoor figures are unreliable (£21k-£32k range)
UK cross-holding figure (clients using two or more businesses)	Proof of One Investec	Investor presentations of 20 Nov 2025 and 21 May 2026
UK private client targets conflict (City AM 16,000 households vs Reuters +5,000 clients)	Avoid quoting a wrong number	Investec press release of 21 May 2026
FTSE 100 or FTSE 250 membership	Basic fact	FTSE Russell constituents list
JSE listing year (1986 or 1988)	History	Investec "Our history" page
Net interest margin	A common technical question	FY26 results presentation
Investec Bank plc full-year FY26 figures	UK-bank-only numbers	IBP 2026 annual report (Companies House)
Current risk appetite limits	Credit discussion	FY26 risk management report
Cum-ex outcome after 2021	Skeleton completeness	FY26 contingent liabilities note
Ninety One residual stake	History	Investec annual report
UK executive committee beyond the board	Who runs which business	investec.com leadership page
Current Early Careers Lead and UK Head of P&O	Interviewer briefing	LinkedIn; do not name unless confirmed
Ring-fencing status of IBP in a primary source	Avoid overclaiming	IBP annual report regulatory section
FT and Bloomberg coverage	Commentary on results and the Budget	University library access
Shawbrook post-IPO share price; OakNorth US bank deal; NatWest-Evelyn completion date	Peer detail	Company releases
Search budget ran out in three workstreams	Some Reddit, LinkedIn and eFinancialCareers content unchecked	Not material to the interview

Final self-check

Check	Status
Every figure has a source and date; estimates labelled on charts	Done. Charts state period, source and measure; mixed measures labelled
A beginner can read Parts 1, 2 and 5 alone	Done. Terms defined in line and in the glossary
"Why Investec" is mechanism, not adjectives, and not transplantable	Done. Part 12 cites structure, timing, scale and culture with sources
Regulatory section current and dated	Done. Dates checked against BoE, PRA, FCA, HMT pages (Part 6); two minor date uncertainties flagged
Team section goes beyond the JD with method shown	Done, with thin evidence admitted: no host-team list and no cohort size exist publicly

Check	Status
Every JD line has three scenarios; composure set has decision trees	Done: 11 lines x 3 cards; 5 composure cards; 2 trees
People sections: public professional information only, uncertainty flagged	Done
PDF rendered, contents page numbers correct, figures checked for clipping	See build log; contents numbers produced by a two-pass render
What could not be found is listed	This page
